Ongoing Management of Waste

Describe how you intend to ensure ongoing management of waste on-site (eg. Lease conditions, caretaker/ manager on site)

Each owner/ caretaker or manager will be responsible to ensure ongoing management of waste.

During construction, the builder will be responsible for the correct disposal of all demolition materials, building materials and trade waste.

Note:

The estimated quantities of waste are approximate only and the final destination is indicated in this document; however, the builder is to confirm quantities and may choose an alternative waste disposal and recycling contractor and is to ensure that it is carried out in compliance with Resource NSW requirements.
