Penrith Council,

**Re: Da Submission for Wollemi College to change open Cola to Enclosed Court.**

Find attached our DA submission which consists of;

- Application form
- DA drawings which include site plan, floor plan, elevations, sections, specifications, landscape plan, erosion and Sediment control plan, stormwater drainage plan and waste management plan, and colour schedule
- Section "J" calculation for the Glass doors and windows.
- Statement of Environmental Effects
- Council's Waste management Form
- A4 Notification Plans. ( 6 Copies )

Note that there is no Sewerage created in this project, and ,being one storey and the work proposed is within the frame of an existing structure, shadow drawing are not required. Building Sustainability Certificate is also not required as the work proposed is of small dollar value, and only an infill to an existing structure.

In addition to the above material listed on your DA form, we have included;

- An Aerial photo of the school
- A copy of the Pre-DA Advise received from the" NSW Rural Fire Service"
- Two site surveys of the school site.
- Letter of approval from "Sydney Water" giving approval re water supply. Note that this project has no water requirements, other than a hose reel.

Best Regards,

Jerry Carroll
