

**WASTE MANAGEMENT PLAN****DEMOLITION, CONSTRUCTION AND USE OF PREMISES**

The applicable sections of this table must be completed and submitted with your Development Application.

Completing this table will assist you in identifying the type of waste that will be generated and in advising Council now your intent to reuse, recycle or dispose of the waste.

The information provided on the form (and on your plans) will be assessed against the objectives of the DCP.

*If space is insufficient in the table, please provide attachments.*

**Outline of Proposal**

Site Address: **LOT 2055 Killuna Way Jordan Springs**

---

Applicant's Name & Address: **Clarendon Homes (NSW) Pty Ltd**

---

**PO BOX 7105 BAULKHAM HILLS BC 2153**

---

Telephone **8851 5300**

Facsimile **8850 9010**

---

Buildings and other structures currently on the site : **Vacant**

---

Brief Description of Proposal: **Single Storey Residential Dwelling**

---

The details provided on this form are the intentions for managing waste relating to this project.

Signed:

Date: 12 June 2013

---

**SECTION ONE – DEMOLITION – UNDER SEPARATE APPLICATION BY OWNER**

This is the stage with the greatest potential for waste minimisation, particularly in Sydney where there are high levels of development, relatively high tipping charges and where alternative quarry materials are located on the outskirts.

Perhaps the first thing that applicants should consider is whether it is possible to re-use existing buildings, or parts thereof, for the proposed use.

**With careful on site sorting and storage and by staging work programs, it is possible to re-use many materials, either on site or off site.**

In other words, Council is seeking to move from the attitude of “trashing the building” to “total recycling on site”. This could require a number of colour-coded or clearly labelled bins on site (rather than one size fits all).

**The following table should be completed by applicants proposing any demolition work. The following details should be shown on your plans:**

- Location of on site storage space for materials (for re-use) and containers for recycling and disposal
- Vehicle access to the site and to storage and container areas

**WASTE MANAGEMENT PLAN****RESIDENTIAL****Demolition, Stage 1 – UNDER SEPARATE APPLICATION BY OWNER**

<b>Materials On-Site</b>		<b>DESTINATION</b>		
		<b>RE-USE &amp; RECYCLING</b>		
Type of Material	Estimated Volume (m <sup>3</sup> ) or Area (m <sup>2</sup> )	<b>ON SITE</b> <ul style="list-style-type: none"><li>Specify proposed re-use or on site recycling methods</li></ul>	<b>OFF SITE</b> <ul style="list-style-type: none"><li>Specify contractor and recycling outlet</li></ul>	<b>DISPOSAL</b> <ul style="list-style-type: none"><li>Specify contractor and land fill site</li></ul>
Excavation Material				
Green Waste				
Bricks				
Concrete				
Timber – please specify				
Plasterboard

<b>Materials On-Site</b>		<b>DESTINATION</b>		
		<b>RE-USE &amp; RECYCLING</b>		
Type of Material	Estimated Volume (m <sup>3</sup> ) or Area (m <sup>2</sup> )	<b>ON SITE</b> <ul style="list-style-type: none"><li>Specify proposed re-use or on site recycling methods</li></ul>	<b>OFF SITE</b> <ul style="list-style-type: none"><li>Specify contractor and recycling outlet</li></ul>	<b>DISPOSAL</b> <ul style="list-style-type: none"><li>Specify contractor and land fill site</li></ul>
Metals – please specify				
Other – please specify				

Note: Details of site area to be used for on site separations, treatment and storage (including weather protection) should be provided on the plan drawings accompanying your application.

**SECTION TWO – CONSTRUCTION AND USE****Section 2(a) – Potential for Waste Minimisation During Construction Stage**

You should consider the following measures that may also save resources and minimise waste at the construction stage.

- Purchasing Policy – considering measures such as ordering the right quantities of materials and prefabrication of materials where possible;
- Re-using form work
- Minimising site disturbance, limiting unnecessary excavation
- Careful source separation of off-cuts to facilitate re-use, resale or efficient recycling
- Co-ordination / sequencing of various trades

The following details should be shown on your plans:

- Location of temporary storage space within each dwelling unit
- Location of Waste Storage and recycling Area(s), per dwelling unit or located communally on site; In the latter case, this could be a Garbage or Recycling room
- Details of design for Waste Storage and Recycling Area(s) or Garbage and Recycling Room(s) and any conveyance or volume reduction equipment
- Location of communal composting area

**Section 2(b) – Design of Facilities**

The following details should be shown on your plans:

- Location of Waste Storage and Recycling Area(s) per unit or located communally on site
- Details of design of Waste Storage and Recycling Area(s)
- Where appropriate, design details of Garbage and Recycling Room(s)
- Access for vehicles

Every building shall be provided with a Waste Storage and recycling Area which is flexible in size and layout to cater for future changes in use. The size is to be calculated on the basis of waste generation rates and proposed bin sizes.

**Section 2(c) – Ongoing Management**

This section will enable you to describe how you intend to ensure ongoing management of waste on site (ie: lease conditions, care-taker/manager on site)

Type of Material	Estimated Volume (m <sup>3</sup> ) or Area (m <sup>2</sup> )	<b>ON SITE</b> <ul style="list-style-type: none"> <li>Specify proposed re-use or on site recycling methods</li> </ul>	<b>OFF SITE</b> <ul style="list-style-type: none"> <li>Specify contractor and recycling outlet</li> </ul>	<b>DISPOSAL</b> <ul style="list-style-type: none"> <li>Specify contractor and land fill site</li> </ul>
Metals – please specify	0.2 Tonne			
Fascia/Gutter			Longer lengths (1Mt) returned to Sramit for recycling	Smaller offcuts to Brandowns landfill
Other – please specify				
Waffle Pods/Pallets	10 Tonne		Returned to Supplier	
General packaging/containers/rubbish				To Brandowns landfill

Note: Details of site area to be used for on site separations, treatment and storage (including weather protection) should e provided on the plan drawings accompanying your application.

**WASTE MANAGEMENT PLAN****RESIDENTIAL**

<b>TYPE OF WASTE BEING GENERATED</b>	<b>EXPECTED VOLUME PER WEEK</b>	<b>PROPOSED ON SITE STORAGE AND TREATMENT FACILITIES</b>	<b>DESTINATION</b>
Please specify, eg: glass, paper, food waste, off-cuts etc	Litre or m <sup>3</sup>	For example: <ul style="list-style-type: none"><li>• Waste storage &amp; recycling area</li><li>• Garbage chute</li><li>• On-site composting</li><li>• Compaction equipment</li></ul>	<ul style="list-style-type: none"><li>• Recycling</li><li>• Disposal</li><li>• Specify contractor</li></ul>
<b>Glass, paper, aluminium, plastic containers</b>	<b>0.05 m<sup>3</sup></b>	<b>On Site composting</b>	<b>Recycled by Council Contractor</b>
<b>Food and Green Waste</b>	<b>0.005m<sup>3</sup></b>		<b>To Landfill by Council Contractor</b>
<b>Packaging and other general rubbish</b>	<b>0.2m<sup>3</sup></b>		

Note: Details of on-site waste management facilities should be provided on the plan drawings accompanying your application.

**Ongoing Management – Stage 2(c)**

Describe how you intend to ensure ongoing management of waste on site (eg: lease conditions, caretaker/manager on site)

The new building is a single dwelling designed for domestic use and activity. The dwelling will be owner occupied with the owner managing all ongoing waste

Management tasks.
