

Dear Pedro

**DA18/0655 Fencing design, installation access and landscaping plans**

I refer to your email received by the Office of Environment and Heritage (OEH) on 27<sup>th</sup> of February 2019 referring to DA18/0655, a subdivision involving 31 lots and associated road works, stormwater works and servicing near the 'Secret Garden Dam'. The email outlined Lend Lease's desire to install permanent fencing around the development area.

I confirm that I approve Lendlease Retirement Living and associated contractors' fencing design as outlined by J.Wyndham Prince in Plan 110487/SK25, being 2100mm high black mesh cyclone fence with concrete footings along the perimeter.

Additionally, access to surrounding land classed as Wianamatta Regional Park is granted for the purpose of the fence installation under the following conditions;

1. No land within Wianamatta Regional Park is cleared, nor vegetation damaged
2. Gates and fences surrounding the Project Site are to remain shut to ensure the captive kangaroos and emus do not leave the regional park

Furthermore, I confirm that NPWS approves of the provided landscaping plans given one condition;

1. *Eragrostis elongata* is not included in the planting list, this can be replaced with a similar species that is endemic to Cumberland Plain Woodland, such as *Eragrostis leptostachya* or *Themeda australis*

Should you require anything further please contact Luke Mitchell on 0429 168 068 or [luke.mitchell@environment.nsw.gov.au](mailto:luke.mitchell@environment.nsw.gov.au).

Yours sincerely

07/03//2019

**KATIE LITTLEJOHN**  
Manager, Cumberland Area
