# Playspace Design Principles

---

## Gross Motor Skills

Create an environment that allows children to develop gross motor skills including activities such as:

- Balancing
- Jumping and Hopping
- Ball Skills/Hand-Eye Coordination
- Strength

## Sensory Motor Skills

Provide areas that stimulate sensory development including:

- Textures
- Seasonal colour
- Light and Shadow
- Hearing and Sound
- Taste and Smell

## Educational Development

Create an area that allows for a variety of construction and art activities such as:

- Integration of internal & external art studios
- Art and craft walls
- Opportunities for ephemeral natural 'art' displays
- Workshops
