

BASIX[®]Certificate

Building Sustainability Index www.basix.nsw.gov.au

Single Dwelling

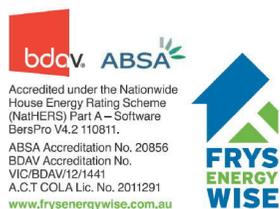

Certificate number: 581260S

This certificate confirms that the proposed development will meet the NSW government's requirements for sustainability, if it is built in accordance with the commitments set out below. Terms used in this certificate, or in the commitments, have the meaning given by the document entitled "BASIX Definitions" dated 18/09/2014 published by Planning & Infrastructure. This document is available at www.basix.nsw.gov.au

Director-General

Date of issue: Friday, 10 October 2014

To be valid, this certificate must be lodged within 3 months of the date of issue.

Schedule of BASIX commitments

The commitments set out below regulate how the proposed development is to be carried out. It is a condition of any development consent granted, or complying development certificate issued, for the proposed development, that BASIX commitments be complied with.

Water Commitments	Show on DA plans	Show on CC/CDC plans & specs	Certifier check
Fixtures			
The applicant must install showerheads with a minimum rating of 3 star (> 7.5 but <= 9 L/min) in all showers in the development.		✓	✓
The applicant must install a toilet flushing system with a minimum rating of 4 star in each toilet in the development.		✓	✓
The applicant must install taps with a minimum rating of 4 star in the kitchen in the development.		✓	
The applicant must install basin taps with a minimum rating of 5 star in each bathroom in the development.		✓	
Alternative water			
Rainwater tank			
The applicant must install a rainwater tank of at least 3000 litres on the site. This rainwater tank must meet, and be installed in accordance with, the requirements of all applicable regulatory authorities.	✓	✓	✓
The applicant must configure the rainwater tank to collect rain runoff from at least 100 square metres of the roof area of the development (excluding the area of the roof which drains to any stormwater tank or private dam).		✓	✓
The applicant must connect the rainwater tank to: <ul style="list-style-type: none"> all toilets in the development the cold water tap that supplies each clothes washer in the development at least one outdoor tap in the development (Note: NSW Health does not recommend that rainwater be used for human consumption in areas with potable water supply.) 		✓ ✓ ✓	✓ ✓ ✓

Thermal Comfort Commitments	Show on DA plans	Show on CC/CDC plans & specs	Certifier check
Simulation Method			
The applicant must attach the certificate referred to under "Assessor Details" on the front page of this BASIX certificate (the "Assessor Certificate") to the development application and construction certificate application for the proposed development (or, if the applicant is applying for a complying development certificate for the proposed development, to that application). The applicant must also attach the Assessor Certificate to the application for an occupation certificate for the proposed development.			
The Assessor Certificate must have been issued by an Accredited Assessor in accordance with the Thermal Comfort Protocol.			
The details of the proposed development on the Assessor Certificate must be consistent with the details shown in this BASIX certificate, including the Cooling and Heating loads shown on the front page of this certificate.			
The applicant must show on the plans accompanying the development application for the proposed development, all matters which the Assessor Certificate requires to be shown on those plans. Those plans must bear a stamp of endorsement from the Accredited Assessor to certify that this is the case. The applicant must show on the plans accompanying the application for a construction certificate (or complying development certificate, if applicable), all thermal performance specifications set out in the Assessor Certificate, and all aspects of the proposed development which were used to calculate those specifications.			
The applicant must construct the development in accordance with all thermal performance specifications set out in the Assessor Certificate, and in accordance with those aspects of the development application or application for a complying development certificate which were used to calculate those specifications.		✓	✓
The applicant must construct the floors and walls of the dwelling in accordance with the specifications listed in the table below.	✓	✓	✓

Floor and wall construction	Area
floor - concrete slab on ground	All or part of floor area square metres
floor - new floor above another dwelling or building	All or part of floor area

Energy Commitments	Show on DA plans	Show on CC/CDC plans & specs	Certifier check
Hot water			
The applicant must install the following hot water system in the development, or a system with a higher energy rating: gas instantaneous with a performance of 6 stars.	✓	✓	✓
Cooling system			
The applicant must install the following cooling system, or a system with a higher energy rating, in at least 1 living area: 3-phase airconditioning; Energy rating: EER 2.5 - 3.0		✓	✓
The applicant must install the following cooling system, or a system with a higher energy rating, in at least 1 bedroom: 3-phase airconditioning; Energy rating: EER 2.5 - 3.0		✓	✓
The cooling system must provide for day/night zoning between living areas and bedrooms.		✓	✓
Heating system			
The applicant must install the following heating system, or a system with a higher energy rating, in at least 1 living area: 3-phase airconditioning; Energy rating: EER 2.5 - 3.0		✓	✓
The applicant must install the following heating system, or a system with a higher energy rating, in at least 1 bedroom: 3-phase airconditioning; Energy rating: EER 2.5 - 3.0		✓	✓
The heating system must provide for day/night zoning between living areas and bedrooms.		✓	✓
Ventilation			
<p>The applicant must install the following exhaust systems in the development:</p> <p>At least 1 Bathroom: individual fan, not ducted; Operation control: manual switch on/off</p> <p>Kitchen: individual fan, not ducted; Operation control: manual switch on/off</p> <p>Laundry: natural ventilation only, or no laundry; Operation control: n/a</p>		<p style="text-align: center;">✓</p> <p style="text-align: center;">✓</p> <p style="text-align: center;">✓</p>	<p style="text-align: center;">✓</p> <p style="text-align: center;">✓</p> <p style="text-align: center;">✓</p>
Artificial lighting			
<p>The applicant must ensure that the "primary type of artificial lighting" is fluorescent or light emitting diode (LED) lighting in each of the following rooms, and where the word "dedicated" appears, the fittings for those lights must only be capable of accepting fluorescent or light emitting diode (LED) lamps:</p> <ul style="list-style-type: none"> at least 4 of the bedrooms / study; 		✓	✓

Energy Commitments	Show on DA plans	Show on CC/CDC plans & specs	Certifier check
<ul style="list-style-type: none"> • at least 4 of the living / dining rooms; • the kitchen; • all bathrooms/toilets; • the laundry; • all hallways; 		    	    
Natural lighting			
The applicant must install a window and/or skylight in the kitchen of the dwelling for natural lighting.			
The applicant must install a window and/or skylight in 4 bathroom(s)/toilet(s) in the development for natural lighting.			
Other			
The applicant must install a gas cooktop & electric oven in the kitchen of the dwelling.			
The applicant must install a fixed outdoor clothes drying line as part of the development.			

Legend

In these commitments, "applicant" means the person carrying out the development.

Commitments identified with a  in the "Show on DA plans" column must be shown on the plans accompanying the development application for the proposed development (if a development application is to be lodged for the proposed development).

Commitments identified with a  in the "Show on CC/CDC plans and specs" column must be shown in the plans and specifications accompanying the application for a construction certificate / complying development certificate for the proposed development.

Commitments identified with a  in the "Certifier check" column must be certified by a certifying authority as having been fulfilled, before a final occupation certificate (either interim or final) for the development may be issued.

INFRASTRUCTURE RESTORATION BOND 2013-14

This restoration bond is a refundable bond applied as a condition of development consent and is payable prior to the issue of a Construction Certificate or any site works starting. It is a form of guarantee to protect Council's kerbing, footpaths and verges and may be used to repair or reinstate any damage that occurs during development works.

APPLICATION DETAILS			
At DA/CDC application stage an Infrastructure Restoration Fee of \$168 should have been paid. You will need the original receipt to obtain the following information: DA details and Fee receipt number.			
Address:	LOT 2376 WILLIAM HART CRESCENT PENRITH		
DA/CD/CDP No:		Type of works	Provision of vehicle crossing, New Services, Waste Skip

INFRASTRUCTURE RESTORATION BOND INFORMATION SHEET AND CONDITIONS

GENERAL INFORMATION

This **Infrastructure Restoration Bond** is needed to minimise the likelihood of damage to Council property as a result of building (including demolition) work being carried out. The bond allows Council to make sure any damage to public assets can be fixed.

The **Infrastructure Restoration Fee** is payable on lodgement of a DA or a Complying Development Certificate (CDC) and will be used to make a final inspection after notification of completion of all works.

The **Infrastructure Restoration Bond** is NOT applicable for minor works such as: awnings, carports, sheds, internal shop fitouts etc – unless major excavations are required.

CONDITIONS

This Infrastructure Restoration Bond is to be paid to Council before a Construction Certificate is issued or any demolition works start.

Further permits may be required for activities on Council land such as a road opening, road closure or vehicle crossover.

It is the applicant's responsibility to inform Council (using this form and additional written and/or photographic evidence) of any pre-existing damage/defects to Council's infrastructure before work starts. If works start prior to payment of this Infrastructure Restoration Fee and Bond, all damage to Council's infrastructure assets will be attributed to these works and reinstatement will be the responsibility of the Owner/Builder.

Council reserves the right to undertake all rectification works for damage to Council's assets and will deduct these costs from the security bond. Council will seek to recover the actual cost, as per the adopted Fees and Charges – Restoration rates, from the applicant where the cost exceeds the bond held.

REQUESTING REFUND OF BOND

When all demolition building and associated works are finished, the applicant must request a refund from Council (either in writing or using Council's *Refund of Cash Bond or Bank Guarantee form*) and provide a copy of the relevant **Occupation Certificate** (not applicable to demolition only works). The *Request for Refund of Cash Bond or Bank Guarantee form* is available on Council's website or by calling 4732 7777.

Once Council has this written request (with relevant certificate), we will do a final inspection to compare the condition of Council's Infrastructure to the Prior Damage Report submitted by the applicant. The bond will be refunded once the Council Officer confirms no damage has occurred during works or that any damage has been reinstated to Council's satisfaction.

DAMAGE: New damage must be reinstated to Council specifications within 28 days of *receiving written notification* from Council. If work is not complete within the specified time, all or part of the Bond will be used to pay for the repairs to be completed without any further notice. If the cost of reinstatement exceeds the Bond held, the Applicant will be invoiced for the additional cost.

NO DAMAGE: Provided there has been no new damage to Council's infrastructure OR any new damage has been reinstated to Council specifications, the Infrastructure Restoration Bond will be refunded to the original payee by cheque within 30 days of the final inspection.

Where refunds are to be forwarded to another party, written consent is needed from the original bond payee.

Owner's Consent to Lodge Application – Thornton, Lot 1197, DP No. 1171491

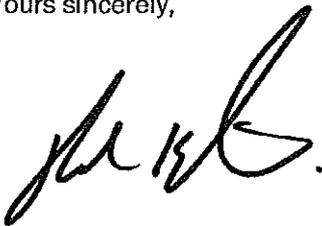

Landcom (now trading as UrbanGrowth NSW) is the registered owner of the lots listed below at Thornton.

I am duly authorised to grant owner's consent on behalf of Landcom and accordingly hereby confirm consent to the lodging development applications and construction certificate applications for the following lots:

Builder	Lots
Wisdom Homes	- Lot 2376 - Lot 2377 - Lot 2378 - Lot 2384 - Lot 2385 - Lot 2386

Please don't hesitate to contact me if you have any queries in regards to the above.

Yours sincerely,

Paul Kingston
Development Manager

The wise choice

OWNERS CONSENT TO BUILDER TO LODGE DOCUMENTS AND APPOINTMENT OF PRINCIPAL CERTIFYING AUTHORITY

To: Penrith City Council

Attention: Planning Division

Lot: 2376 William Hart Crescent, Thornton Estate, Penrith NSW 2750

I Wei Yuan of 47 Watford Drive, Stanhope Gardens NSW 2768, hereby give permission for Wisdom Homes to lodge and communicate to Penrith City Council and Sydney Building Approvals for all Development Applications, Construction Certificates and associated dealings on my behalf for the above property.

In accordance with the requirements of the Environmental Planning and Assessment Act 1979 and Regulation 2000 I also hereby appoint Sydney Building Approvals as the Private Certifier (PCA) for the above property.

The PCA will carry out or ensure that mandatory or other necessary inspections of construction work are undertaken, to ensure that work is completed in accordance with the requirements of the Act.

The wise choice

Shop 5, 338 Camden Valley Way Narellan NSW 2567
Phone: 02 4647 1200 Fax: 02 4647 1233

SITE CONDITIONS

The site is situated on the Northern side of WILLIAM HART CRESCENT and is the subject of this application. The property is zoned 2(e), and a new dwelling is to be constructed. The adjoining properties are both vacant properties.

The property has a total area of 273sqm.

The outer locality is characterized by a mix of single and double storey dwellings, constructed of face brick finish or cement rendered finish. Our proposed design is in keeping with the existing locality and is well adapted to the development.

SUITABILITY OF THE DWELLING

The proposed is consistent with character of other developments in the street. The setback and window placement ensures no negative effect on adjoining sites and solar access is not compromised.

PROPOSED DEVELOPMENT

The proposal is a double storey brick veneer and light weight sheeting home with concrete roof tiles. The dwelling has a front setback of 4.5m to the main building line and 5.58m to the Garage. The side setbacks are complying with councils' policy at a minimum of 1.26m LHS & 0.92m RHS respectively.

The proposed two storey dwelling consists of an informal and formal area, 4 bedrooms and Single lock-up garage. The design is well articulated, therefore minimizing the bulk and scale of the proposed development. Materials finish such as face brickwork and concrete roof tile are keeping with the surrounding area and setting a precedent for future development in area.

The Wisdom Columbus 24 design is well adapted to the existing surroundings and character in the area.

The overall appearance of our proposal is comparable to other developments in the locality. The well-articulated façade incorporates architectural design elements which will strengthen the streetscape and the relationship between dwellings.

IMPACT OF THE DEVELOPMENT

The proposal has no social or economical impact on the locality.

The proposed façade, the setback to the front of the dwelling will have a minimum impact on the streetscape. Together with the proposed landscape plan, the proposal will enhance the existing streetscape and landscape character of the residential neighborhoods.

The slab on ground construction will result in minimal disturbance to the natural slope of the land. Stormwater will be conveyed to the proposed water tank with the overflow discharged to be confirmed due to no contours available, which satisfies council requirements.

PRIVACY, VIEWS AND OVERSHADOWING

The proposed dwelling is a double storey dwelling with a finish floor level being unknown and a ridge height level also unknown, due to no contours available.

Our proposal will receive the minimum three hours of sunlight to its private open space.

GENERAL DCP SUMMARY

The premises is situated in an area zoned 2(e) under Penrith City Council's LEP. The construction of a dwelling is permissible in this zoning, with Council's consent.

Compliance with the relevant DCP is summarized in the following table:-

Issue	Council Requirements (Min)	Proposed	Comment
Front Setback (m)	4.5m	4.5m	Complies
Garage Front Setback	5.5m	5.58m	Complies
Side Setback (m)	0.9 m	RHS 0.92 m LHS 1.26m	Complies
Rear Setback (m)	Single 4.0m Double 6.0m	Single 6.59m Double 9.39m	Complies
Car Space	2 off street parking	Single garage/driveway	Complies
Cut & Fill	1.0m max cut & 1.0m fill	Waiting on contours	TBC
Stormwater Disposal	To water tank, overflow Subject to site	Waiting on contours	TBC
Solar Access	Sitting to maximise solar access	Solar access maximised	Complies Complies
Driveway Grade	Maximum 20%	Waiting on contours	TBC
Height Limit	10m ridge ht	Waiting on contours	TBC

ECOLOGICAL SUSTAINABLE DEVELOPMENT

The proposed dwelling demonstrates cross flow ventilation throughout the dwelling.

Wall insulation to the value of R2.0 and ceiling insulation to the value of R3.5 has been included in the design to keep the house warm in winter and cooler in summer.

The proposed development will have a 3000ltr water tank with an overflow TBC due to no contours available. Water from this tank will be used for flushing toilets and garden taps. The proposal meets the NSW BASIX policy that relates to Water, Thermal Comfort and Energy requirements.

EROSION AND SEDIMENT CONTROL

The property will have a maximum excavation of TBC mm and a maximum fill of TBC mm, due to no contours available. This will be contained within the site.

Erosion and Sediment control measures will be put in place and maintained throughout the construction of the dwelling. As per Benching Plan, there will be stockpile to contain rubbish and trade waste bin.

CONCLUSION

Council DCP requirements and good planning principles have been incorporated in a design that complies best suits the site and surrounds, resulting in a high quality development that will enhance the locality.

Consideration has been given to matters listed in the Penrith Council LEP & DCP as well as other relevant planning policies such as the NCC.

Accordingly, we seek Council favorable consideration for the above Development Application.

The wise choice

OWNERS CONSENT TO BUILDER TO LODGE DOCUMENTS AND APPOINTMENT OF PRINCIPAL CERTIFYING AUTHORITY

To: Penrith City Council

Attention: Planning Division

Lot: 2376 William Hart Crescent, Thornton Estate, Penrith NSW 2750

I Wei Yuan of 47 Watford Drive, Stanhope Gardens NSW 2768, hereby give permission for Wisdom Homes to lodge and communicate to Penrith City Council and Sydney Building Approvals for all Development Applications, Construction Certificates and associated dealings on my behalf for the above property.

In accordance with the requirements of the Environmental Planning and Assessment Act 1979 and Regulation 2000 I also hereby appoint Sydney Building Approvals as the Private Certifier (PCA) for the above property.

The PCA will carry out or ensure that mandatory or other necessary inspections of construction work are undertaken, to ensure that work is completed in accordance with the requirements of the Act.

Signed,
