

Waste management plan

Only a small amount of waste will be generated from the works and all waste materials that are not recyclable will be located in a skip or in the waste bay indicated on the plans.

Material	Quantity	Method of disposal
Bricks removed to install door	1m3	Hi Qual recycling St Marys
Broken tiles All tiles will be re used where possible to reduce the purchase of new ones.	1m3	Hi Qual recycling St Marys
General construction waste	3m3	Skip bin
Metal clip lock roofing	30m2 Will be sold on facebook market place	Pick up
Insulation	10m2	Will be re used

All wastes will be minimised and recycled from any demolition works. Sustainable products will be sourced where possible.
