WASTE MANAGEMENT PLAN

DEMOLITION AND CONSTRUCTION

As a condition of consent, the applicable sections of this table must be completed and submitted to the Principal Certifying Authority.

Completing this table will assist you in identifying the type of waste that will be generated and in advising the Principal Certifying Authority how you intend to reuse, recycle or dispose of the waste.

The information provided on the form (and on your plans) will be assessed a gainst the objectives of the DCP.

If space is insufficient in the table please provide attachments.

SECTION TWO - CONSTRUCTION STAGE

Section 2 - Potential for Waste Minimisation During Construction Stage

You should consider the following measures that may also save resources and minimise waste at the construction stage.

- Purchasing policy. Considering measures such as: ordering the right quantities of materials prefabrication of materials where possible
- ♦ Reusing formwork
- ♦ Minimising site disturbance, limiting unnecessary excavation
- ♦ Careful source separation of off-cuts to facilitate re-use, resale or efficient recycling
- ♦ Coordination/sequencing of various trades.
