

PENRITH CITY COUNCIL

NOTICE OF DETERMINATION

DESCRIPTION OF DEVELOPMENT

Application number:	DA16/1046
Description of development:	Alterations to Australian Arms Hotel Function Room
Classification of development:	Class 6

DETAILS OF THE LAND TO BE DEVELOPED

Legal description:	Lot 4 DP 192127 Lot 2 DP 513015
Property address:	359 High Street, PENRITH NSW 2750 18 Lawson Street, PENRITH NSW 2750

DETAILS OF THE APPLICANT

Name & Address:	N F Billyard Pty Ltd PO Box 32 OATLANDS NSW 2117
-----------------	--

DECISION OF CONSENT AUTHORITY

In accordance with Section 81(1) (a) of the Environmental Planning and Assessment Act 1979, consent is granted subject to the conditions listed in attachment 1.

Please note that this consent will lapse on the expiry date unless the development has commenced in that time.

Date from which consent operates	26 April 2017
Date the consent expires	26 April 2019
Date of this decision	23 April 2017

POINT OF CONTACT

If you have any questions regarding this determination you should contact:

Assessing Officer:	Timothy Mahoney
Contact telephone number:	+612 4732 7515

NOTES

Reasons

The conditions in the attached schedule have been imposed in accordance with Section 80A of the Environmental Planning and Assessment Act 1979 as amended.

Conditions

Your attention is drawn to the attached conditions of consent in attachment 1.

Certification and advisory notes

You should also check if this type of development requires a construction certificate in addition to this development consent

It is recommended that you read any Advisory Note enclosed with this notice of determination.

Review of determination

The applicant may request Council to review its determination pursuant to Section 82A of the Environmental Planning and Assessment Act 1979 within 6 months of receiving this Notice of Determination.

You cannot make this request if the development is Designated Development, Integrated Development or State Significant development or if the application was decided by Sydney West Planning Panel.

Appeals in the Land and Environment Court

The applicant can appeal against this decision in the Land and Environment Court within six (6) months of receiving this Notice of Determination.

You cannot appeal if a Commission of Inquiry was held for the subject development application, or if the development is a State Significant Development.

An appeal to the Land and Environment Court is made by lodging an application to the Court in accordance with the Rules of the Court.

Designated development

If the application was for designated development and a written objection was made in respect to the application, the objector can appeal against this decision to the Land and Environment Court within 28 days after the date of this notice. The objector cannot appeal if a Commission of Inquiry was held.

If the applicant appeals against this decision, objector(s) will be given a notice of the appeal and the objector(s) can apply to the Land and Environment Court within 28 days after the date of this appeal notice to attend the appeal and make submissions at that appeal.

Sydney West Planning Panels

If the application was decided by the Sydney West Planning Panel, please refer to Section 18 of the Greater Sydney Commission Act 2015 and Section 23H of the Environmental Planning and Assessment Act, 1979 (as amended) for any further regulations.

ATTACHMENT 1: CONDITIONS OF CONSENT

General

- 1 The development must be implemented substantially in accordance with the following plans stamped approved by council, the application form and any supporting information received with the application, except bay be amended in red on the approved plans and by the following conditions.

Description	Reference	Prepared By	Date
Ground Floor, Roof and Site Plans	1186 DA.01/B	N. F. Billyard P/L	23.01.17
Elevations and Section	1186 DA.02/B	N. F. Billyard P/L	23.01.17
Carpark Stormwater Drainage Details	101947-1	Kneebone, Beretta & Hall Pty Ltd	27/05/15
Waste Management Plan	-	N. F. Billyard P/L	01.10.16
Schedule of External Finishes	1186 Ext	N. F. Billyard P/L	-

- 2 The tree marked for removal on the stamped approved site plan is to be retained and protected in accordance with protection of trees on development sites AS 4970 -2009.
- 3 The proprietor of the food business shall ensure that the requirements of the Food Act 2003 and Food Regulation 2010 are met at all times.
- 4 **The development shall not be used or occupied until an Occupation Certificate has been issued.**
- 5 A separate development application for the erection of a sign or advertising structure, other than an advertisement listed as exempt development, is to be submitted to Penrith City Council, complying with the requirements of Penrith Development Control Plan 2014.
- 6 All materials and goods associated with the use shall be contained within the building at all times.
- 7 A **Construction Certificate** shall be obtained prior to commencement of any building works.
- 8 Prior to the issue of a Occupation Certificate the following requirements are to be incorporated into the development's design to ensure consistency with the principles of community protection through environmental design (CPTED).

Condition a) Pedestrian pathways, laneways and access routes in outdoor public spaces should be lit to the minimum Australian Standard of AS 1158. Lighting should be designed in accordance with AS 4282 – Control of the obtrusive effects of outdoor lighting.

Condition b) Front fences should preferably be no higher than 1.2 metres. Where a higher fence is proposed, it will only be considered if it is constructed of open materials e.g. spaced pickets, wrought iron, post and rail etc.

Advisory Notes: Lighting

- All areas intended to be used at night including the car park and all entrances/exit points into the

- function centre should allow appropriate levels of visibility.
- Lighting should have a wide beam of illumination, which reaches to the beam of the next light, or the perimeter of the site or area being traversed. Moreover, lighting should clearly illuminate the faces of users of pathways.
 - Lighting should take into account vegetation and landscaping that may act as an entrapment spot.
 - Lighting should be designed so that it is 'vandal tough' or difficult for vandals to break.
 - Where appropriate use movement sensitive and diffused lights
 - Avoid lighting spillage onto neighbouring properties as this can cause nuisance and reduce opportunities for natural surveillance.
 - All lighting should be maintained and kept in a clean condition with all broken or burnt out globes replaced quickly.

Advisory Notes: Fencing

- The proposed low metal fence surrounding some sections of the car park should maximise natural surveillance from the car park to the street and from the street to the car park, and minimise the opportunities for intruders to hide. Dark coloured, open style fencing is recommended.

Advisory Notes: Car Parking

- The movement of pedestrians throughout the car park should be clearly delineated by all users of the car park and minimises conflict with vehicles.
- The design of the car park should ensure that passive surveillance is possible and where appropriate, incorporate active measures such as cameras and security patrols. The car park should be designed to minimise dark areas through the provision of appropriate lighting.
- It is recommended that the gates to the car park be locked after hours to minimise opportunities for unauthorised access and any associated loitering and antisocial behaviour.
- Entrances should be easily recognisable through design features and directional signage.

Advisory Notes: Landscaping

- Dense, medium height vegetation with top to bottom foliage shall be avoided, particularly around walkways. The use of low-level planting or high canopied vegetation will improve surveillance, provide clear lines of sight and avoid any potential concealment areas.
- Trees with dense low growth foliage should be spaced or crown raised to avoid a continuous barrier.
- Avoid vegetation which conceals the building or car park entrance from the street. The landscaping proposed across the front of the section of car park facing Lawson St should consist of either low level or high canopy planting to maximise surveillance into and out of the car park.
- Avoid vegetation that impedes the effectiveness of public and private space lighting.

Advisory Notes: Building Security & Access Control

- Australian Standard 220 door and window locks should be installed throughout the function centre.
- If security grills are used on windows they should be operable from inside in case of emergencies.
- Ensure skylights and /or roof tiles cannot be readily removed or opened from outside.
- Monitored alarm systems should be installed in the new function centre.
- CCTV should be considered to cover the new areas. Cameras must be of sufficient standard to be useful for police in the event of criminal investigations. Lighting should be provided to support cameras at night (alternatively infra-red cameras are recommended).
- Effective management procedures should be in place to monitor access/egress by patrons and responsible service of alcohol.

Advisory Notes: Way Finding/Finding Help

- Signs should be strategically located at entrances and near activity nodes in the new areas such as intersections of corridors or paths.
- Signs should be large and legible, with strong colours, standard symbols (e.g. for washrooms) and

simple graphics. They should indicate where to go for help or assistance.

Advisory Notes: Amenities

- Entrances to toilets should be clear of all screening to allow surveillance by staff.
- Toilet cubicle doors should have spring-opening hinges to allow doors to remain open when not in use.
- Rear of toilet should have hooks located half way down to ensure handbags cannot be accessed over the top of the door.
- There should be a gap between the toilet door and floor and toilet door and ceiling.

Advisory Notes: Graffiti/Vandalism

- Graffiti resistant coatings must be used to external surfaces where possible, including signage, furniture, retaining walls etc.
- Procedures must be in place to ensure the prompt removal and/or repair of graffiti or vandalism to the buildings, fencing, commercial tenancies and common areas. This includes reporting incidents to police and/or relevant authorities.
- Management will be available at a mutually convenient time, at the invitation of Penrith City Council and/or the NSW Police, to discuss and action agreed Community Safety, Security or other issues in conjunction with other local stakeholders in the area should the need arise.

- 9 Consent No. DA15/0551 is to be surrendered to Penrith City Council prior to the issue of a Construction Certificate.
- 10 The approved hours of operation for the function centre are 10am - 12 midnight Monday to Saturday and 12 midday - 10pm on Sundays.
- 11 If fencing or gates are proposed to be erected around the proposed car parking areas then details must be submitted to and approved by Council prior to the issue of a Construction Certificate.
- 12 Prior to the issue of a Construction Certificate, a WSUD Strategy must be submitted to, and approved by, Council. This WSUD Strategy must outline how the proposed development complies with Council's WSUD Policy. Requirements of the policy include a need to incorporate water conservation measures including a commitment to capture and reuse rainwater and utilise WELS rated plumbing fixtures.

It is also noted that no operation and maintenance manual has been prepared for the development. This operation and maintenance manual must be included as part of the WSUD Strategy.

Demolition

- 13 All demolition works are to be conducted in accordance with the provisions of AS 2601-1991 "The Demolition of Structures". **Prior to demolition**, all services shall be suitably disconnected and capped off or sealed to the satisfaction of the relevant service authority requirements.

All demolition and excavated material shall be disposed of at a Council approved site or waste facility. Details of the proposed disposal location(s) of all excavated material from the development site shall be provided to the Principal Certifying Authority **prior to commencement of demolition**.

- 14 You should read Council's Fact Sheet titled "Handling and Disposal of Fibrous Cement Products" **before any demolition works commence on the site.**

Prior to commencement of demolition works on site, a portaloo with appropriate washing facilities shall be located on the site and the Principal Certifying Authority is to be satisfied that:

- Measures are in place so as to comply with the WorkCover Authority's "Short Guide to Working with Asbestos Cement" and
- The person employed to undertake the works is a licensed asbestos removal contractor and is holder of a current WorkCover Asbestos Licence.

Any demolition works involving the removal of all asbestos shall only be carried out by a licensed asbestos removal contractor who has a current WorkCover Asbestos Licence.

All asbestos laden waste, including asbestos cement flat and corrugated sheeting must be disposed of at a tipping facility licensed by the Environmental Protection Authority to receive asbestos wastes.

- 15 Dust suppression techniques are to be employed during demolition to reduce any potential nuisances to surrounding properties.
- 16 Mud and soil from vehicular movements to and from the site must not be deposited on the road.
- 17 Demolition works will be restricted to the following hours in accordance with the NSW Environment Protection Authority Noise Control Guidelines:
- Mondays to Fridays, 7am to 6pm
 - Saturdays, 7am to 1pm, if inaudible on neighbouring residential premises otherwise 8am to 1pm
 - No demolition work is permitted on Sundays and Public Holidays.

In the event that the demolition relates to works inside the building that do not involve external walls or the roof, and do not involve the use of equipment that emits noise then the demolition works are not restricted to the hours stated above.

The provisions of the Protection of the Environment Operations Act, 1997 in regulating offensive noise also apply to all construction works.

Environmental Matters

- 18 Erosion and sediment control measures shall be installed **prior to the commencement of works on site** including approved clearing of site vegetation. The erosion and sediment control measures are to be maintained in accordance with the approved erosion and sediment control plan(s) for the development and the Department of Housing's "Managing Urban Stormwater: Soils and Construction" 2004.

- 19 Cut and fill operations on the property are only permitted in conjunction with the building works as detailed on the approved plans and specifications, and shall not extend more than 2 metres past the defined building footprint.

Before any fill material is imported to site, a validation certificate issued by an appropriately qualified person is to be provided to the Principal Certifying Authority. The validation certificate must demonstrate that the fill material is free from contaminants and weeds, that it is suitable for its intended purpose and land use, and that it will not pose an unacceptable risk to human health or the environment.

If Penrith City Council is not the Principal Certifying Authority, a copy of the validation certificate is to be submitted to Council for their reference.

{Note: Penrith Contaminated Land Development Control Plan defines an appropriately qualified person as “a person who, in the opinion of Council, has a demonstrated experience, or access to experience in hydrology, environmental chemistry, soil science, eco-toxicology, sampling and analytical procedures, risk evaluation and remediation technologies. In addition, the person will be required to have appropriate professional indemnity and public risk insurance.”}

- 20 All waste materials stored on-site are to be contained within a designated area such as a waste bay or bin to ensure that no waste materials are allowed to enter the stormwater system or neighbouring properties. The designated waste storage areas shall provide at least two waste bays / bins so as to allow for the separation of wastes, and are to be fully enclosed when the site is unattended.
- 21 All excavated material and other wastes generated as a result of the development are to be re-used, recycled or disposed of in accordance with the approved waste management plan.

Waste materials not specified in the approved waste management plan are to be disposed of at a lawful waste management facility. Where the disposal location or waste materials have not been identified in the waste management plan, details shall be provided to the Certifying Authority as part of the waste management documentation accompanying the Construction Certificate application.

All receipts and supporting documentation must be retained in order to verify lawful disposal of materials and are to be made available to Penrith City Council on request.

- 22 The operating noise level of plant and equipment shall not exceed 5dB(A) above the background noise level when measured at the boundaries of the premises. The provisions of the Protection of the Environment Operations Act 1997 apply to the development, in terms of regulating offensive noise.
- 23 Stormwater runoff from parking and open areas shall be directed to the stormwater drainage system. Stormwater pre-treatment devices shall be used to remove litter and sediment. Specifications of the stormwater pre-treatment devices including details on maintenance and cleaning of the devices are to accompany the Construction Certificate application.
- 24 In the event of on-going noise complaints relating to the development being received by Council, the owner and/or occupier of the development may be required by Council to obtain the services of a suitably qualified acoustic consultant to undertake a noise impact assessment on the development to address the concerns of the community. The noise impact assessment report is to be prepared and provided to Council within 45 days of being requested. The assessment report is to be approved by Council, with any recommendations being implemented in accordance with the approved assessment report.

The provisions of the Protection of the Environment Operations Act 1997 apply to the development, in terms

of regulating offensive noise.

BCA Issues

- 25 The smoke alarms shall be interconnected so that the sounding of the alarm in one detector activates the alarm in all detectors.
- 26 Access and sanitary facilities for persons with disabilities are to be provided and maintained in accordance with the requirements of the Building Code of Australia and AS 1428 "Design for Access and Mobility". Details of compliance are to be provided in the relevant plans and specifications accompanying the Construction Certificate application.
- 27 The owner of a building, to which an essential fire safety measure is applicable, shall provide Penrith City Council with an annual fire safety statement for the building. The annual fire safety statement for a building must:
- (a) deal with each essential fire safety measure in the building premises, and
 - (b) be given:
 - within 12 months after the last such statement was given, or
 - if no such statement has previously been given, within 12 months after a final fire safety certificate was first issued for the building.

As soon as practicable after the annual fire safety statement is issued, the owner of the building to which the statement relates:

- must also provide a copy of the statement (together with a copy of the current fire safety schedule) to the Commissioner of New South Wales Fire Brigades, and
 - prominently display a copy of the statement (together with a copy of the current fire safety schedule) in the building.
- 28 All aspects of the building design shall comply with the applicable performance requirements of the Building Code of Australia so as to achieve and maintain acceptable standards of structural sufficiency, safety (including fire safety), health and amenity for the on-going benefit of the community. Compliance with the performance requirements can only be achieved by:
- (a) complying with the deemed to satisfy provisions, or
 - (b) formulating an alternative solution which:
 - complies with the performance requirements, or
 - is shown to be at least equivalent to the deemed to satisfy provision, or
 - (c) a combination of (a) and (b).

It is the owner's responsibility to place on display, in a prominent position within the building at all times, a copy of the latest fire safety schedule and fire safety certificate/ statement for the building.

Health Matters and OSSM installations

- 29 The construction, fit out and finishes of the food premises must comply with Standard 3.2.3 of the Australian and New Zealand Food Standards Code, and AS4674-2004 *Design, Construction and Fitout of Food Premises*.

30 The construction and operation of the premises shall comply with the NSW Smoke-free Environment Act 2000 and Smoke-free Environment Regulation 2000.

Utility Services

31 A Section 73 Compliance Certificate under the Sydney Water Act 1994 shall be obtained from Sydney Water. The application must be made through an authorised Water Servicing Coordinator. Please refer to “Your Business” section of Sydney Water’s website at www.sydneywater.com.au then the “e-developer” icon, or telephone 13 20 92.

The Section 73 Compliance Certificate must be submitted to the Principal Certifying Authority prior to the issue of an Occupation Certificate

32 Prior to the issue of a Construction Certificate, a written clearance is to be obtained from Endeavour Energy stating that electrical services have been made available to the development or that arrangements have been entered into for the provision of services to the development.

Construction

33 Stamped plans, specifications, a copy of the development consent, the Construction Certificate and any other Certificates to be relied upon shall be available on site at all times during construction.

The following details are to be displayed in a maximum of 2 signs to be erected on the site:

- the name of the Principal Certifying Authority, their address and telephone number,
- the name of the person in charge of the work site and telephone number at which that person may be contacted during work hours,
- that unauthorised entry to the work site is prohibited,
- the designated waste storage area must be covered when the site is unattended, and
- all sediment and erosion control measures shall be fully maintained until completion of the construction phase.

Signage but no more than 2 signs stating the above details are to be erected:

- at the commencement of, and for the full length of the, construction works onsite, and
- in a prominent position on the work site and in a manner that can be easily read by pedestrian traffic.

All construction signage is to be removed when the Occupation Certificate has been issued for the development.

34 Prior to the commencement of construction works:

(a) Toilet facilities at or in the vicinity of the work site shall be provided at the rate of one toilet for every 20 persons or part of 20 persons employed at the site. Each toilet provided must be:

- a standard flushing toilet connected to a public sewer, or
- if that is not practicable, an accredited sewage management facility approved by the council, or
- alternatively, any other sewage management facility approved by council.

(b) All excavations and backfilling associated with the erection or demolition of a building must be executed safely and in accordance with the appropriate professional standards. All excavations associated with the erection or demolition of a building must be properly guarded and protected to prevent them from being dangerous to life or property.

(c) If an excavation associated with the erection or demolition of a building extends below the level of the base of the footings of a building on an adjoining allotment of land, the person causing the excavation to be made:

- must preserve and protect the building from damage, and
- if necessary, must underpin and support the building in an approved manner, and
- must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished. The owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this condition, whether carried out on the allotment of land being excavated or on the adjoining allotment of land, (includes a public road and any other public place).

(d) If the work involved in the erection or demolition of a building is likely to cause pedestrian or vehicular traffic in a public place to be obstructed or rendered inconvenient, or involves the enclosure of a public place, a hoarding or fence must be erected between the work site and the public place:

- if necessary, an awning is to be erected, sufficient to prevent any substance from, or in connection with, the work falling into the public place,
- the work site must be kept lit between sunset and sunrise if it is likely to be hazardous to persons in the public place, and
- any such hoarding, fence or awning is to be removed when the work has been completed.

35 No work is to commence on site until such time as a person accredited to prepare traffic control plans in accordance with AS1742.3 "Traffic Control Devices for Works on Roads" and the Roads and Traffic Authority's publication "Traffic Control Works on Roads" and the Roads and Traffic Authority's publication "Traffic Control at Worksites" has certified a Traffic Control Plan for the development/site. The Traffic Control Plan shall be implemented during the construction phase of the development and a copy of the plan shall be available on site at all times.

A copy of the Traffic Control Plan shall accompany the Notice of Commencement to be submitted to Penrith City Council 2 days before any work is to commence onsite.

36 Construction works or subdivision works that are carried out in accordance with an approved consent that involve the use of heavy vehicles, heavy machinery and other equipment likely to cause offence to adjoining properties shall be restricted to the following hours in accordance with the NSW Environment Protection Authority Noise Control Guidelines:

- Mondays to Fridays, 7am to 6pm
- Saturdays, 7am to 1pm if inaudible on neighbouring residential premises, otherwise 8am to 1pm
- No work is permitted on Sundays and Public Holidays.

Other construction works carried out inside a building/tenancy that do not involve the use of equipment that emits noise are not restricted to the construction hours stated above.

The provisions of the Protection of the Environment Operations Act, 1997 in regulating offensive noise also apply to all construction works.

Engineering

- 37 The location of all proposed line marking, and associated signposting shall be in accordance with AS 1742.2, and approved plans.

Prior to the issue of a Occupation Certificate installation of line marking and signage shall occur in accordance with the approved plans.

All signage and linemarking is to be undertaken at no cost to Penrith City Council.

- 38 **Prior to the issue of a Construction Certificate**, a Section 138 Roads Act application/s, including payment of fees shall be lodged with Penrith City Council, as the Roads Authority for any works required in a public road. These works may include but are not limited to the following:

- Vehicular crossings (including kerb reinstatement of redundant vehicular crossings)
- Road opening for utilities and stormwater (including stormwater connection to Council infrastructure)
- Road occupancy or road closures

All works shall be carried out in accordance with the Roads Act approval, the development consent including the stamped approved plans, and Penrith City Council's specifications. Contact Council's **City Works Department** on (02) 4732 7777 for further information regarding the application process.

Note: Approvals may also be required from the Roads and Maritime Service for classified roads.

Council (being the Roads Authority under the Roads Act) shall approve the works completed on or over the road reserve. Contact Council's **City Works Department** on (02) 4732 7777 to arrange an inspection of the works (and payment of inspection fees, if required).

39

The stormwater management system shall be provided generally in accordance with the stamped approved stormwater concept plan lodged for development approval.

Engineering plans and supporting calculations for the stormwater management systems are to be prepared by a suitably qualified person and shall accompany the application for a Construction Certificate.

Prior to the issue of a Construction Certificate the Certifying Authority shall ensure that the stormwater management system has been designed in accordance with Council's Stormwater Drainage for Building Developments Policy and Water Sensitive Urban Design Policy.

- 40 Prior to the issue of an Occupation Certificate, works-as-executed drawings, final operation and maintenance management plans and any other compliance documentation shall be submitted to the Principal Certifying Authority in accordance with Penrith City Council's Engineering Construction Specification for Civil Works, WSUD Technical Guidelines and Stormwater Drainage for Building Developments.

An original set of works-as-executed drawings and copies of the final operation and maintenance management plans and compliance documentation shall also be submitted to Penrith City Council with notification of the issue of the Occupation Certificate where Council is not the Principal Certifying Authority.

41 Prior to the issue of an Occupation Certificate the Principal Certifying Authority shall ensure that the:

- a) Stormwater management systems (including on-site detention and water sensitive urban design)
 - Have been satisfactorily completed in accordance with the approved Construction Certificate and the requirements of this consent.
 - Have met the design intent with regard to any construction variations to the approved design.
 - Any remedial works required to be undertaken have been satisfactorily completed.

Details of the approved and constructed system/s shall be provided as part of the works-as-executed drawings.

42 Prior to the issue of an Occupation Certificate a restriction as to user and positive covenant relating to the:

- a) Stormwater management systems (including on-site detention and water sensitive urban design)

Shall be registered on the title of the property. The restriction as to user and positive covenant shall be in Penrith City Council's standard wording as detailed in Penrith City Council's Stormwater Drainage for Building Development.

43 The stormwater management systems shall continue to be operated and maintained in perpetuity to the satisfaction of Council in accordance with the final operation and maintenance management plan. Regular inspection records are required to be maintained and made available to Council upon request. All necessary improvements are required to be made immediately upon awareness of any deficiencies in the treatment measure/s

44 An Infrastructure Restoration Bond is to be lodged with Penrith City Council for development involving works around Council's Public Infrastructure Assets. The bond is to be lodged with Council **prior to the issue of a Construction Certificate**. The bond shall be determined accordance with Council's adopted Fees and Charges.

The bond is refundable once a final inspection has been carried out by Council's City Works Department and the works have been completed to Council's satisfaction. The bond may be used to repair or reinstate any damage that occurs to Council's Public Infrastructure Assets as a result of the development works.

Contact Council's City Works Department on 4732 7777 or visit Council's website to obtain the form and request for final inspection.

Landscaping

45 Prior to the issue of a Construction Certificate, a detailed Landscape Plan must be submitted for the proposed carpark area. Such landscaping shall incorporate planting of low level shrubs and grasses and high canopy trees. Four canopy trees must be incorporated in the detailed landscape plan as marked in red on the approved Site Plan.

- 46 All landscape works are to be constructed in accordance with the landscape plan required by the condition above and the landscaping section of Penrith Council's Development Control Plan 2014.

Landscaping shall be maintained:

- in accordance with the approved plan, and
- in a healthy state, and in perpetuity by the existing or future owners and occupiers of the property.

If any of the vegetation comprising that landscaping dies or is removed, it is to be replaced with vegetation of the same species and, to the greatest extent practicable, the same maturity as the vegetation which died or was removed.

- 47 The approved landscaping for the site must be constructed by a suitably qualified landscape professional.
- 48 The following series of reports relating to landscaping are to be submitted to the nominated consent authority at the appropriate time periods as listed below. These reports shall be prepared by a suitably qualified landscape professional.

i. Implementation Report

Upon completion of the landscape works associated with the development and prior to the issue of an Occupation Certificate for the development, an Implementation Report must be submitted to the Principal Certifying Authority attesting to the satisfactory completion of the landscaping works for the development. The report is to be prepared by a suitably qualified landscape professional.

An Occupation Certificate should not be issued until such time as a satisfactory Implementation Report has been received. If Penrith City Council is not the Principal Certifying Authority, a copy of the satisfactory Implementation Report is to be submitted to Council together with the Occupation Certificate for the development.

ii. Maintenance Report

On the first anniversary of the date of the Occupation Certificate issued for the development, a Landscape Maintenance Report is to be submitted to Penrith City Council certifying that the landscape works are still in accordance with the development consent and the plant material is alive and thriving.

This report is to be prepared by a suitably qualified landscape professional.

- 49 All plant material associated with the construction of approved landscaping is to be planted in accordance with the Tree Planting Specification prescribed in the Landscaping section of Penrith Council's Development Control Plan 2014.
- 50 All landscape works are to meet industry best practice and the following relevant Australian Standards:
- AS 4419 Soils for Landscaping and Garden Use,
 - AS 4454 Composts, Soil Conditioners and Mulches, and
 - AS 4373 Pruning of Amenity Trees.
- 51 Existing landscaping is to be retained and maintained at all times.

Certification

- 52 Prior to the commencement of any earthworks or construction works on site, the proponent is to:
- (a) employ a Principal Certifying Authority to oversee that the said works carried out on the site are in accordance with the development consent and related Construction Certificate issued for the approved development, and with the relevant provisions of the Environmental Planning and Assessment Act and accompanying Regulation, and
 - (b) submit a Notice of Commencement to Penrith City Council.

The Principal Certifying Authority shall submit to Council an "Appointment of Principal Certifying Authority" in accordance with Section 81A of the Environmental Planning and Assessment Act 1979.

Information to accompany the Notice of Commencement

Two (2) days before any earthworks or construction/demolition works are to commence on site (including the clearing site vegetation), the proponent shall submit a "Notice of Commencement" to Council in accordance with Section 81A of the Environmental Planning and Assessment Act 1979.

- 53 An Occupation Certificate is to be obtained from the Principal Certifying Authority on completion of all works and prior to the use of the car park and function centre.

The Certificate shall not be issued if any conditions of this consent, but not the conditions relating to the operation of the development, are outstanding.

A copy of the Occupation Certificate and all necessary documentation supporting the issue of the Certificate is to be submitted to Penrith City Council, if Council is not the Principal Certifying Authority.
