

# PENRITH CITY COUNCIL

## NOTICE OF DETERMINATION

### DESCRIPTION OF DEVELOPMENT

Application number:	DA16/0519.01
Description of development:	S96 (1A) Modification to DA16/0519 - Construction of a Staged Six Storey Hotel and Associated Parking, Landscaping and Civil Works
Classification of development:	Class 3

### DETAILS OF THE LAND TO BE DEVELOPED

Legal description:	Lot 11 DP 1192443
Property address:	Boronia Road, NORTH ST MARYS NSW 2760

### DETAILS OF THE APPLICANT

Name & Address:	St Mary's Rugby League Club C/- Urbis Tower 2, Level 23 Darling Park 201 Sussex Street SYDNEY NSW 2000
-----------------	--

### DECISION OF CONSENT AUTHORITY

In accordance with Sections 81(1) (a) and 96 of the Environmental Planning and Assessment Act 1979, consent is granted subject to the conditions listed in attachment 1.

Please note that this consent will lapse on the expiry date unless the development has commenced in that time.

Date from which consent operates	10 October 2016
Date the consent expires	10 October 2018
Date of this decision	7 October 2016 as amended on 5 June 2017 under Section 96 of the Environmental Planning and Assessment Act.

## POINT OF CONTACT

---

If you have any questions regarding this determination you should contact:

Assessing Officer:	Pukar Pradhan
Contact telephone number:	+612 4732 7726

## NOTES

---

### **Reasons**

The conditions in the attached schedule have been imposed in accordance with Section 80A of the Environmental Planning and Assessment Act 1979 as amended.

### **Conditions**

Your attention is drawn to the attached conditions of consent in attachment 1.

### **Certification and advisory notes**

You should also check if this type of development requires a construction certificate in addition to this development consent.

It is recommended that you read any Advisory Note enclosed with this notice of determination.

### **Review of determination**

The applicant may request Council to review its determination pursuant to Section 82A of the Environmental Planning and Assessment Act 1979 within 6 months of receiving this Notice of Determination.

You cannot make this request if the development is Designated Development, Integrated Development or State Significant development or if the application was decided by Sydney West Planning Panel.

### **Appeals in the Land and Environment Court**

The applicant can appeal against this decision in the Land and Environment Court within six (6) months of receiving this Notice of Determination.

You cannot appeal if a Commission of Inquiry was held for the subject development application, or if the development is a State Significant Development.

An appeal to the Land and Environment Court is made by lodging an application to the Court in accordance with the Rules of the Court.

### **Designated development**

If the application was for designated development and a written objection was made in respect to the application, the objector can appeal against this decision to the Land and Environment Court within 28 days after the date of this notice. The objector cannot appeal if a Commission of Inquiry was held.

If the applicant appeals against this decision, objector(s) will be given a notice of the appeal and the objector(s) can apply to the Land and Environment Court within 28 days after the date of this appeal notice to attend the appeal and make submissions at that appeal.

### **Sydney West Planning Panels**

If the application was decided by the Sydney West Planning Panel, please refer to Section 18 of the Greater Sydney Commission Act 2015 and Section 23H of the Environmental Planning and Assessment Act, 1979 (as amended) for any further regulations.

## OTHER APPROVALS

---

### APPROVAL BODIES

<b>APPROVAL BODY NAME</b>	<b>DATE OF GENERAL TERMS OF APPROVAL</b>	<b>REF. NO.</b>	<b>NO. OF PAGES</b>	<b>RELEVANT LEGISLATION</b>
NSW Rural Fire Services	07 September 2016	D16/1875 DA16061502367 JM	2	Section 100B of the Rural Fires Act 1997

The approval bodies listed above have provided General Terms of Approval for this development in accordance with the relevant legislation. A copy of these General Terms of Approval is provided with this development consent notice. Compliance with the relevant State Government departments' General Terms of Approval are required in conjunction with the following conditions listed in Attachment 1: Conditions of Consent issued by Penrith City Council.

# ATTACHMENT 1: CONDITIONS OF CONSENT

## General

1 The development must be implemented substantially in accordance with the following plans numbered outlined in the table below:

Description	Plan	Revision/Issue	Prepared by	Date
Site Plan	DA002	A	WMK Architecture	April 2016
Car park plan	DA003	A	WMK Architecture	April 2016
Demolition Plan	DA10	A	WMK Architecture	April 2016
Ground Floor Plan	DA100	P2	WMK Architecture	April 2016
Level 1 Plan – Phase 1	DA101	A	WMK Architecture	April 2016
Level 1 Plan – Phase 2	DA102	A	WMK Architecture	April 2016
Level 2 to Roof Plan	DA103 to 107 (inclusive)	A	WMK Architecture	April 2016
South Elevation	DA500	A	WMK Architecture	April 2016
East Elevation	DA501	A	WMK Architecture	April 2016
North Elevation	DA502	A	WMK Architecture	April 2016
West Elevation	DA503	A	WMK Architecture	April 2016
Section A	DA600	A	WMK Architecture	April 2016
Section B	DA601	A	WMK Architecture	April 2016
Landscape Plans	101 & 102	C	Site Image Landscape Architects	29 April 2014
Landscape Details	501	B	Site Image Landscape Architects	29 April 2014
Stormwater Plan	131142	P3	TTW	06/05/2016

and as further amended by the additional following plans:

Description	Plan Nos.	Revision/Issue	Prepared by	Date
Ground Floor Plan	DA100	B	WMK Architecture	02/02/2017

Site/Car Park Plan	DA002-DA004	B	WMK Architecture	02/02/2017
South - Elevation	DA500	B	WMK Architecture	02/02/2017
East - Elevation	DA501	B	WMK Architecture	02/02/2017
North - Elevation	DA502	B	WMK Architecture	02/02/2017
West - Elevation	DA503	B	WMK Architecture	02/02/2017
Section A	DA600	B	WMK Architecture	02/02/2017
Section B	DA601	B	WMK Architecture	02/02/2017
Service Vehicle Access & Egress Plan	T2 - 1860	4	Parking & Traffic Consultants	16/02/2017

and stamped approved by Council, the application form and any supporting information received with the application, except as may be amended in red on the attached plans and by the following conditions.

**As amended under Section 96 of the Environmental Planning and Assessment Act 1979 on 2 June 2017.**

- 2 A copy of the General Terms of approval dated 7 September 2016 (Ref:D16/1875DA16061502367 JM) issued by the NSW Rural Fires Services under the Rural Fires Act 1997 Act (attached with the consent notice) outlining several conditions shall all be complies with **prior to the issue of an Occupation Certificate**.
- 3 **The development shall not be used or occupied until an Occupation Certificate has been issued.**
- 4 A separate development application for the erection of a sign or advertising structure, other than an advertisement listed as exempt development, is to be submitted to Penrith City Council, complying with the requirements of Penrith Development Control Plan-Advertising Signs.
- 5 All materials and goods associated with the use shall be contained within the building at all times.
- 6 **Prior to the issue of an Occupation Certificate**, a lighting system shall be installed for the development to provide uniform lighting across common areas and driveways. All exterior lighting shall be located and directed in such a manner so as not to create a nuisance to surrounding landuses. The lighting shall be the minimum level of illumination necessary for safe operation. The lighting shall be in accordance with AS 4282 "Control of the obtrusive effects of outdoor lighting" (1997).
- 7 The finishes of all structures and buildings are to be maintained at all times and any graffiti or vandalism immediately removed/repaired.
- 8 A **Construction Certificate** shall be obtained prior to commencement of any building works.
- 9 The following safer by design requirements are to be incorporated into the development:

- Graffiti resistant coatings must be used to external surfaces where possible, including signage, furniture, retaining walls etc.
- Procedures must be in place to ensure the prompt removal and/or repair of graffiti or vandalism to the buildings, fencing, commercial tenancies and common areas. This includes reporting incidents to police and/or relevant authorities.

## 10 Lighting

- Pedestrian pathways, laneways and access routes in outdoor public spaces should be lit to the minimum Australian Standard of AS 1158 and be designed in accordance with AS4282 – Control of the obtrusive effects of outdoor lighting
  - Lights should be directed towards access/egress routes to illuminate potential offenders, rather than towards buildings or resident observation points
  - Where appropriate use movement sensitive and diffused lights
  - All lighting is to be maintained and kept in a clean condition with all broken or burnt out globes replaced quickly.
  - Use energy efficient lamps/switches to save energy.
  - Lighting should be consistent in order to reduce the contrast between shadows and illuminated areas.
- 11 The metallic strip proposed along the facades of the building shall be sufficiently thick (between 40mm to 80mm thick) to be able to cast shadow on the background materials. Details of the thickness and material shall be submitted to Council for consideration and approval **prior to the release of the Construction Certificate.**
- 12 Any plant equipment to be located in the roof areas shall be appropriately screened and designed to integrated with the building design and not to be located where it may be visible when viewed from the public domain.
- 13 The proposed Gym facility in Stage 1 of the development is not to operate independently from the hotel and is to be utilized by hotel patrons and guests only at any time.
- 14 Any proposed changes to the existing central median on Boronia Road that are of either temporary or permanent nature are to be detailed in a civil construction plan and approved by Council **prior to any work commencing and release of the Construction Certificate.**
- 15 **Prior to the issue of a Construction Certificate the Certifying Authority shall ensure** that cross section details, including inlet and outlet levels of the proposed stormwater treatment measure (i.e. 5\*cartridge 310mm ZPG Stormfilter) are provided and included in the Civil Engineering Works Plans package.

## Demolition

- 16 All demolition works are to be conducted in accordance with the provisions of AS 2601-1991 "The Demolition of Structures". **Prior to demolition**, all services shall be suitably disconnected and capped off or sealed to the satisfaction of the relevant service authority requirements.

All demolition and excavated material shall be disposed of at a Council approved site or waste facility. Details of the proposed disposal location(s) of all excavated material from the development site shall be provided to the Principal Certifying Authority **prior to commencement of demolition**.

## Heritage/Archaeological relics

- 17 If any archaeological relics are uncovered during the course of the work no further work shall be undertaken until further directed by Penrith City Council or the NSW Heritage Office.

The applicant is advised that depending on the possible significance of the relics, an archaeological assessment and an excavation permit under the Heritage Act, 1977 may be required before any further work can be recommenced in that area of the site.

## Environmental Matters

- 18 Erosion and sediment control measures shall be installed **prior to the commencement of works on site** including approved clearing of site vegetation. The erosion and sediment control measures are to be maintained in accordance with the approved erosion and sediment control plan(s) for the development and the Department of Housing's "Managing Urban Stormwater: Soils and Construction" 2004.

- 19 No fill material is to be imported to the site without the prior approval of Penrith City Council in accordance with Sydney Regional Environmental Plan No.20 (Hawkesbury- Nepean River) (No.2-1997). No recycling of material for use as fill material shall be carried out on the site without the prior approval of Council.

- 20 No fill material shall be imported to the site until such time as a Validation Certificate(with a copy of any report forming the basis for the validation) for the fill material has been submitted to, considered and approved by Council. The Validation Certificate shall:
- state the legal property description of the fill material source site,
  - be prepared by an appropriately qualified person (as defined in Penrith Contaminated Land Development Control Plan) with consideration of all relevant guidelines (e.g. EPA, ANZECC, NH&MRC), standards, planning instruments and legislation,
  - clearly indicate the legal property description of the fill material source site,
  - provide details of the volume of fill material to be used in the filling operations,
  - provide a classification of the fill material to be imported to the site in accordance with the Environment Protection Authority's "Environmental Guidelines: Assessment, Classification & Management of Non-Liquid Wastes" 1997, and
  - (based on the fill classification) determine whether the fill material is suitable for its intended purpose and land use and whether the fill material will or will not pose an unacceptable risk to human health or the environment.

{Note: Penrith Contaminated Land Development Control Plan defines an appropriately qualified person as “a person who, in the opinion of Council, has a demonstrated experience, or access to experience in hydrology, environmental chemistry, soil science, eco-toxicology, sampling and analytical procedures, risk evaluation and remediation technologies. In addition, the person will be required to have appropriate professional indemnity and public risk insurance.”}.

If the Principal Certifying Authority or Penrith City Council is not satisfied that suitable fill materials have been used on the site, further site investigations or remediation works may be requested. In these circumstances the works shall be carried out prior to any further approved works.

- 21 All waste materials stored on-site are to be contained within a designated area such as a waste bay or bin to ensure that no waste materials are allowed to enter the stormwater system or neighbouring properties. The designated waste storage areas shall provide at least two waste bays / bins so as to allow for the separation of wastes, and are to be fully enclosed when the site is unattended.

- 22 All excavated material and other wastes generated as a result of the development are to be re-used, recycled or disposed of in accordance with the approved waste management plan.

Waste materials not specified in the approved waste management plan are to be disposed of at a lawful waste management facility. Where the disposal location or waste materials have not been identified in the waste management plan, details shall be provided to the Certifying Authority as part of the waste management documentation accompanying the Construction Certificate application.

All receipts and supporting documentation must be retained in order to verify lawful disposal of materials and are to be made available to Penrith City Council on request.

- 23 Noise levels within and from the premises shall not exceed the relevant noise criteria detailed in 'St Marys Leagues Club - New Hotel - Development Application Acoustic Report' prepared by Acoustic Logic Consultancy Pty Ltd dated 28 April 2016 (Revision 2, Ref. 20160597.1/2804A/R2/RA).

The recommendations provided in the above-mentioned acoustic report shall be implemented and incorporated into the design and construction of the development, and shall be **shown on plans accompanying the Construction Certificate application**.

A certificate is to be obtained from a qualified acoustic consultant certifying that the building has been constructed to meet the noise criteria in accordance with the approved acoustic report. This certificate is to be submitted to the Principal Certifying Authority **prior to the issue of an Occupation Certificate**.

The provisions of the Protection of the Environment Operations Act 1997 apply to the development, in terms of regulating offensive noise.

- 24 Only clean and unpolluted water is to be discharged into Penrith City Council's stormwater drainage system. Liquid wastes suitable for discharge to the mains sewer are to be discharged in accordance with Sydney Water requirements.

If mains sewer is not available or if Sydney Water will not allow disposal to the sewer then a licensed waste contractor is to remove the liquid waste from the premises to an appropriate waste facility.

The waste contractor and waste facility are to hold the relevant licenses issued by the NSW Environment Protection Authority.

- 25 Dust suppression techniques are to be employed during demolition and construction to reduce any potential

nuisances to surrounding properties.

26 Demolition and construction works will be restricted to the following hours in accordance with the NSW Environment Protection Authority Noise Control Guidelines:

- Mondays to Fridays, 7am to 6pm
- Saturdays, 7am to 1pm (if inaudible on neighbouring residential premises), otherwise 8am to 1pm
- No work is permitted on Sundays and Public Holidays.

In the event that the works occur inside the building and do not involve external walls or the roof, and do not involve the use of equipment that emits noise then the works are not restricted to the hours stated above.

The provisions of the Protection of the Environment Operations Act, 1997 in regulating offensive noise also apply to all works.

27 Mud and soil from vehicular movements to and from the site must not be deposited on the road.

28 Should any "unexpected finds" occur during site excavation and earthworks including, but not limited to, the identification/finding of contaminated soils, buried building materials, asbestos, odour and/or staining, works are to cease immediately and Council is to be notified. Any such "unexpected finds" shall be addressed by an appropriately qualified environmental consultant.

All remediation works within the Penrith Local Government Area are considered to be Category 1 works under State Environmental Planning Policy 55-Remediation of Land. Should any contamination be found during development works and should remediation be required, development consent is to be sought from Penrith City Council before the remediation works commence.

29 Construction works shall be carried out in accordance with the NSW Department of Environment and Climate Change's "Interim Construction Noise Guideline" 2009.

## **BCA Issues**

30 The owner of a building, to which an essential fire safety measure is applicable, shall provide Penrith City Council with an annual fire safety statement for the building. The annual fire safety statement for a building must:

(a) deal with each essential fire safety measure in the building premises, and  
(b) be given:

- within 12 months after the last such statement was given, or
- if no such statement has previously been given, within 12 months after a final fire safety certificate was first issued for the building.

•

As soon as practicable after the annual fire safety statement is issued, the owner of the building to which the statement relates:

- must also provide a copy of the statement (together with a copy of the current fire safety schedule) to the Commissioner of New South Wales Fire Brigades, and
- prominently display a copy of the statement (together with a copy of the current fire safety schedule) in the building.

- 31 All aspects of the building design shall comply with the applicable performance requirements of the Building Code of Australia so as to achieve and maintain acceptable standards of structural sufficiency, safety (including fire safety), health and amenity for the on-going benefit of the community. Compliance with the performance requirements can only be achieved by:
- (a) complying with the deemed to satisfy provisions, or
  - (b) formulating an alternative solution which:
    - complies with the performance requirements, or
    - is shown to be at least equivalent to the deemed to satisfy provision, or
  - (c) a combination of (a) and (b).

It is the owner's responsibility to place on display, in a prominent position within the building at all times, a copy of the latest fire safety schedule and fire safety certificate/ statement for the building.

## Health Matters and OSSM installations

- 32 Cooling towers and warm water systems are to be registered with Penrith City Council by completing the registration form for regulated systems. This form is to be returned to Council prior to the issuing of the occupation certificate and operation of the system.

The occupier of premises at which a water-cooling system or warm-water system is installed must notify Council using the NSW Ministry of Health Notification Form available from [www.health.nsw.gov.au](http://www.health.nsw.gov.au):

- a. if the system is installed before he or she becomes the occupier, within one month after he or she becomes the occupier, or
- b. if the system is installed after he or she becomes the occupier, within one month after the system is installed.

The occupier of the premises must notify Council within 7 days of any change of details.

## Utility Services

- 33 A Section 73 Compliance Certificate under the Sydney Water Act 1994 shall be obtained from Sydney Water. The application must be made through an authorised Water Servicing Coordinator. Please refer to "Your Business" section of Sydney Water's website at [www.sydneywater.com.au](http://www.sydneywater.com.au) then the "e-developer" icon, or telephone 13 20 92.

The Section 73 Compliance Certificate must be submitted to the Principal Certifying Authority prior to the issue of an Occupation Certificate.

- 34 Prior to the issue of a Construction Certificate, a written clearance is to be obtained from Endeavour Energy stating that electrical services have been made available to the development or that arrangements have been entered into for the provision of services to the development.

In the event that a pad mounted substation is necessary to service the development, Penrith City Council shall be consulted over the proposed location of the substation before the Construction Certificate for the development is issued as the location of the substation may impact on other services and building, driveway or landscape design already approved by Council.

- 35 A completed *Permit Application - for Plumbing and Drainage Work* is to be submitted to Sydney Water at least two working days before the rainwater tank is installed and associated plumbing work is started on the

site.

36 **Prior to the issue of a Construction Certificate**, the Principal Certifying Authority shall be satisfied that telecommunications infrastructure may be installed to service the premises which complies with the following:

- The requirements of the Telecommunications Act 1997;
- For a fibre ready facility, the NBN Co's standard specifications current at the time of installation; and
- For a line that is to connect a lot to telecommunications infrastructure external to the premises, the line shall be located underground.

Unless otherwise stipulated by telecommunications legislation at the time of construction, the development must be provided with all necessary pits and pipes, and conduits to accommodate the future connection of optic fibre technology telecommunications.

**Prior to the issue of an Occupation Certificate**, written certification from all relevant service providers that the telecommunications infrastructure is installed in accordance with the requirements above and the applicable legislation at the time of construction, must be submitted to the Principal Certifying Authority.

37 If a new substation will be required for the development, then the applicant shall submit a plan to Council for consideration and approvals showing details of its location with an appropriate landscaping included around the substation **prior to its installation**.

## Construction

38 Stamped plans, specifications, a copy of the development consent, the Construction Certificate and any other Certificates to be relied upon shall be available on site at all times during construction.

The following details are to be displayed in a maximum of 2 signs to be erected on the site:

- the name of the Principal Certifying Authority, their address and telephone number,
- the name of the person in charge of the work site and telephone number at which that person may be contacted during work hours,
- that unauthorised entry to the work site is prohibited,
- the designated waste storage area must be covered when the site is unattended, and
- all sediment and erosion control measures shall be fully maintained until completion of the construction phase.

Signage but no more than 2 signs stating the above details are to be erected:

- at the commencement of, and for the full length of the, construction works onsite, and
- in a prominent position on the work site and in a manner that can be easily read by pedestrian traffic.

All construction signage is to be removed when the Occupation Certificate has been issued for the development.

39 Prior to the commencement of construction works:

(a) Toilet facilities at or in the vicinity of the work site shall be provided at the rate of one toilet for every 20 persons or part of 20 persons employed at the site. Each toilet provided must be:

- a standard flushing toilet connected to a public sewer, or
- if that is not practicable, an accredited sewage management facility approved by the council, or
- alternatively, any other sewage management facility approved by council.

(b) All excavations and backfilling associated with the erection or demolition of a building must be executed safely and in accordance with the appropriate professional standards. All excavations associated with the erection or demolition of a building must be properly guarded and protected to prevent them from being dangerous to life or property.

(c) If an excavation associated with the erection or demolition of a building extends below the level of the base of the footings of a building on an adjoining allotment of land, the person causing the excavation to be made:

- must preserve and protect the building from damage, and
- if necessary, must underpin and support the building in an approved manner, and
- must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished. The owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this condition, whether carried out on the allotment of land being excavated or on the adjoining allotment of land, (includes a public road and any other public place).

(d) If the work involved in the erection or demolition of a building is likely to cause pedestrian or vehicular traffic in a public place to be obstructed or rendered inconvenient, or involves the enclosure of a public place, a hoarding or fence must be erected between the work site and the public place:

- if necessary, an awning is to be erected, sufficient to prevent any substance from, or in connection with, the work falling into the public place,
- the work site must be kept lit between sunset and sunrise if it is likely to be hazardous to persons in the public place, and
- any such hoarding, fence or awning is to be removed when the work has been completed.

40 Construction works or subdivision works that are carried out in accordance with an approved consent that involve the use of heavy vehicles, heavy machinery and other equipment likely to cause offence to adjoining properties shall be restricted to the following hours in accordance with the NSW Environment Protection Authority Noise Control Guidelines:

- Mondays to Fridays, 7am to 6pm
- Saturdays, 7am to 1pm (if inaudible on neighbouring residential premises), otherwise 8am to 1pm
- No work is permitted on Sundays and Public Holidays.

Other construction works carried out inside a building/tenancy and do not involve the use of equipment that emits noise are not restricted to the construction hours stated above.

The provisions of the Protection of the Environment Operations Act, 1997 in regulating offensive noise also apply to all construction works.

## Engineering

41 Prior to the issue of any Construction Certificate a S138 Roads Act application/s, including payment of fees shall be lodged with Penrith City Council. Penrith City Council is the Roads Authority for any works required in a public road. These works may include but are not limited to the following:

1. Vehicular crossings (including kerb reinstatement of redundant vehicular crossings)
2. Concrete footpath or cycleways
3. Road opening for utilities and stormwater (including stormwater connection to Penrith City Council roads and other Penrith City Council owned drainage)
4. Road occupancy or road closures
5. The placement of hoardings, structures, containers, waster skips, signs etc. on the road reserve

All works shall be carried out in accordance with the Roads Act approval, the development consent including the stamped approved plans, and Penrith City Council's specifications, Guidelines and best engineering practice.

Contact Penrith City Council's City Works Department on 4732 7777 or visit Penrith City Council's website for more information.

Note:

1. Where Penrith City Council is the Certifying Authority for the development the Roads Act approval for the above works may be issued concurrently with the Construction Certificate.
2. Separate Approvals may also be required from the Roads and Maritime Service for classified roads.
3. All works associated with the Roads Act approval must be completed prior to the issue of an Occupation Certificate or Subdivision Certificate as applicable.
4. On completion of any awning over the road reserve a certificate from a practising structural engineer certifying to the structural adequacy of the awning is to be submitted to Council before Council will inspect the works and issue its final approval under the Roads Act

**As amended in accordance with Section 96 of the Environmental Planning and Assessment Act 1979, on 2 June 2017.**

42 **Prior to the issue of any Construction Certificate** the Certifying Authority shall ensure that a S138 Roads Act application, including the payment of application and inspection fees, has been lodged with, and approved by Penrith City Council (being the Roads Authority under the Roads Act), for road widening along the northern side of Boronia Road. Road widening shall accommodate the entry/exit of service vehicles to the eastern driveway of the development without conflicting with on-street parking in Boronia Road. Works shall include, but not be limited to, half-road construction, kerb realignment, extension of pedestrian footpath, any required signage and/or linemarking. Any external works required for the purposes of pedestrian connectivity, including any alterations to the existing central median island in Boronia Road, can be submitted concurrently with this application.

Engineering plans are to be prepared in accordance with the development consent, Penrith City Council's Design Guidelines for Engineering Works for Subdivisions and Developments, Engineering Construction Specification for Civil Works, Austroads Guidelines and best engineering practice.

Contact Penrith City Council's Development Engineering Department on 4732 7777 or visit Penrith City Council's website for more information.

Note:

1. Where Penrith City Council is the Certifying Authority for the development the Roads Act approval for the above works may be issued concurrently with the Construction Certificate.
2. Separate Approvals may also be required from the Roads and Maritime Service for classified roads.
3. All works associated with the Roads Act approval must be completed prior to the issue of any Occupation Certificate or Subdivision Certificate as applicable.

**As amended in accordance with Section 96 of the Environmental Planning and Assessment Act 1979, on 2 June 2017.**

43

The stormwater management system shall be provided generally in accordance with the MUSIC modeling and associated concept plan/s lodged for development approval, prepared by prepared by Northrop job number 167061 drawings C1.01 - C1.03, C2.01, C3.01 and C3.11, C4.01 - C4.03, C8.01 - C8.05, SK01.01 dated 7 February 2017 revision 4 **as amended in red**.

Engineering plans and supporting calculations for the stormwater management systems are to be prepared by a suitably qualified person and shall accompany the application for a Construction Certificate.

**Prior to the issue of a Construction Certificate the Certifying Authority shall ensure that the stormwater management system has been designed in accordance with Council's Stormwater Drainage for Building Developments and Water Sensitive Urban Design Policy.**

44 Stormwater drainage from the site shall be discharged to the existing site drainage system.

The proposed development and stormwater drainage system shall be designed to ensure no adverse impact on adjoining properties by the diversion, damming or concentration of stormwater flows.

The proposed method of stormwater discharge shall be detailed in the Construction Certificate issued by the Certifying Authority.

45 Prior to the issue of any Construction Certificate the Certifying Authority shall ensure that vehicular access, circulation, manoeuvring, pedestrian and parking areas associated with the subject development are in

accordance with AS 2890.1, AS2890.2, AS2890.6 and Penrith City Council's Development Control Plan.

- 46 Prior to commencement of works sediment and erosion control measures shall be installed in accordance with the approved Construction Certificate and to ensure compliance with the Protection of the Environment Operations Act 1997.

The erosion and sediment control measures shall remain in place and be maintained until all disturbed areas have been rehabilitated and stabilised.

- 47 Prior to the issue of any Occupation Certificate, the Principal Certifying Authority shall ensure that all works associated with a S138 Roads Act approval or S68 Local Government Act approval have been inspected and signed off by Penrith City Council.
- 48 Prior to the issue of an Occupation Certificate, works-as-executed drawings, final operation and maintenance management plans and any other compliance documentation shall be submitted to the Principal Certifying Authority in accordance with Penrith City Council's Engineering Construction Specification for Civil Works, WSUD Technical Guidelines and Stormwater Drainage for Building Developments.

An original set of works-as-executed drawings and copies of the final operation and maintenance management plans and compliance documentation shall also be submitted to Penrith City Council with notification of the issue of the Occupation Certificate where Council is not the Principal Certifying Authority.

- 49 Prior to the issue of an Occupation Certificate the Principal Certifying Authority shall ensure that the:
- a) Stormwater management systems (including on-site detention and water sensitive urban design)
    - Have been satisfactorily completed in accordance with the approved Construction Certificate and the requirements of this consent.
    - Have met the design intent with regard to any construction variations to the approved design.
    - Any remedial works required to be undertaken have been satisfactorily completed.

Details of the approved and constructed system/s shall be provided as part of the works-as-executed drawings.

- 50 Prior to the issue of an Occupation Certificate a restriction as to user and positive covenant relating to the:
- a) Stormwater management systems (including on-site detention and water sensitive urban design)

Shall be registered on the title of the property. The restriction as to user and positive covenant shall be in Penrith City Council's standard wording as detailed in Penrith City Council's Stormwater Drainage for Building Development.

- 51 The stormwater management systems shall continue to be operated and maintained in perpetuity to the satisfaction of Council in accordance with the final operation and maintenance management plan. Regular inspection records are required to be maintained and made available to Council upon request. All necessary improvements are required to be made immediately upon awareness of any deficiencies in the treatment measure/s.

- 52 Prior to the issue of any Construction Certificate, the Certifying Authority shall ensure that a S138**

Roads Act application, including the payment of application and inspection fees, has been lodged with, and approved by Penrith City Council (being the Roads Authority under the Roads Act), for any alterations to the concrete central median island on Boronia Road.

Engineering plans are to be prepared in accordance with the development consent, Penrith City Council's Design Guidelines for Engineering Works for Subdivisions and Developments, Engineering Construction Specification for Civil Works, Austroads Guidelines and best engineering practice.

Contact Penrith City Council's Development Engineering Department on 4732 7777 or visit Penrith City Council's website for more information.

Note:

1. Where Penrith City Council is the Certifying Authority for the development the Roads Act approval for the above works may be issued concurrently with the Construction Certificate.
2. Separate Approvals may also be required from the Roads and Maritime Service for classified roads.
3. All works associated with the Roads Act approval must be completed prior to the issue of any Occupation Certificate or Subdivision Certificate as applicable.

53 The proposed internal pedestrian pathway (associated with internal raised pedestrian crossings) is to be extended across the verge in order to connect to the existing concrete pedestrian path on Boronia Road.

54 To improve pedestrian access and connectivity to the pedestrian pathway fronting the site on Boronia Road, an at-grade pedestrian walk-through/cut-out (and associated pram ramps and footpath extension) is to be constructed through the existing roundabout splitter island, on the eastern leg of the intersection of Boronia Road and Forrester Road.

55 The existing one-way/entry-only configuration at the western-most driveway, from Boronia Road, is to be retained as one-way / entry-only (with existing Entry/No Exit pavement markings also to be retained), and is to be signposted as 'Entry Only' / 'No Exit'.

56 All car parking and manoeuvring must be in accordance with AS2890.0-2004; AS2890.6-2009 and Council's requirements.

57 All vehicles are to enter / exit in a forward direction.

58 The proposed dedicated service vehicle driveway (eastern-most driveway) is to be signposted as 'Truck and Bus Entry Only' / 'Truck and Bus Exit Only'.

## Landscaping

59 All landscape works are to be constructed in accordance with the stamped approved plan

Landscape Plans	101 & 102	C	Site Image Landscape Architects	29 April 2014
Landscape Details	501	B	Site Image Landscape Architects	29 April 2014

in accordance with Part C.6 Landscaping Design of Development Control Plan 2014.

Landscaping shall be maintained:

- in accordance with the approved plan, and
- in a healthy state, and in perpetuity by the existing or future owners and occupiers of the property.

If any of the vegetation comprising that landscaping dies or is removed, it is to be replaced with vegetation of the same species and, to the greatest extent practicable, the same maturity as the vegetation which died or was removed.

60 The approved landscaping for the site must be constructed by a Landscape Consultants.

61 The following series of reports relating to landscaping are to be submitted to the nominated consent authority at the appropriate time periods as listed below. These reports shall be prepared by a landscape professional or a Landscape Consultants.

i. Implementation Report

Upon completion of the landscape works associated with the development and prior to the issue of an Occupation Certificate for the development, an Implementation Report must be submitted to the Principal Certifying Authority attesting to the satisfactory completion of the landscaping works for the development.

An Occupation Certificate should not be issued until such time as a satisfactory Implementation Report has been received. If Penrith City Council is not the Principal Certifying Authority, a copy of the satisfactory Implementation Report is to be submitted to Council together with the Occupation Certificate for the development.

62 All plant material associated with the construction of approved landscaping is to be planted in accordance with the Tree Planting Specification prescribed in Penrith Council's Landscape Development Control Plan 2014.

63 All landscape works are to meet industry best practice and the following relevant Australian Standards:

- AS 4419 Soils for Landscaping and Garden Use,
- AS 4454 Composts, Soil Conditioners and Mulches, and
- AS 4373 Pruning of Amenity Trees.

64 No trees are to be removed, ringbarked, cut, topped or lopped or wilfully destroyed (other than those within the proposed building footprint or as shown on the approved plans) without the prior consent of Penrith City

Council and in accordance with Council's Tree Preservation Order and Policy.

## Payment of Fees

- 65 Prior to the commencement of any works on site, all fees associated with Penrith City Council-owned land and infrastructure shall be paid to Council. These fees include Road Opening fees and Infrastructure Restoration fees.

## Certification

- 66 An Occupation Certificate is to be obtained from the Principal Certifying Authority on completion of all works and prior to the occupation of the building/tenancy and commencement of the approved use. The Occupation Certificate shall not be issued if any conditions of this consent, but not the conditions relating to the operation of the development, are outstanding, and the development does not comply with the provisions of the Environmental Planning and Assessment Act and Regulation.

Before the Occupation Certificate can be issued for the development, Fire Safety Certificates issued for the building are to be submitted to Penrith City Council and the New South Wales Fire Brigades. In addition, a Compliance Certificate or other documentation deemed suitable to the Principal Certifying Authority (PCA) is to be submitted to the PCA, detailing compliance with:

- The provisions of AS1428.1 and that any person with disabilities can access the building, including its perimeter. In this regard, the Compliance Certificate (or other documentation) is to be prepared by an accredited access consultant.
- **Condition 41** where upon Council has certified that the works approved under the Roads Act 1993 are satisfactorily completed.
- **Condition 49** that the certified Works-As-Executed plans for the on-site detention system has been submitted to Council and that a positive covenant for the land has been registered with Land and Property Information division of the Department of Lands regarding the provision and maintenance of the onsite detention system.

A copy of the Occupation Certificate and all necessary documentation supporting the issue of that Certificate including the above mentioned documents shall be submitted to Penrith City Council, if Council is not the Principal Certifying Authority.

- 67 Prior to the commencement of any earthworks or construction works on site, the proponent is to:
- (a) employ a Principal Certifying Authority to oversee that the said works carried out on the site are in accordance with the development consent and related Construction Certificate issued for the approved development, and with the relevant provisions of the Environmental Planning and Assessment Act and accompanying Regulation, and
  - (b) submit a Notice of Commencement to Penrith City Council.

The Principal Certifying Authority shall submit to Council an "Appointment of Principal Certifying Authority" in accordance with Section 81A of the Environmental Planning and Assessment Act 1979.

### Information to accompany the Notice of Commencement

Two (2) days before any earthworks or construction/demolition works are to commence on site (including the clearing site vegetation), the proponent shall submit a "Notice of Commencement" to Council in accordance with Section 81A of the Environmental Planning and Assessment Act 1979.
