

# PENRITH CITY COUNCIL

## MAJOR ASSESSMENT REPORT

<b>Application number:</b>	DA14/1161
<b>Proposed development:</b>	Fit-Out & Use as Restaurant (Grill'd), External Alterations & Signage (Shop 60)
<b>Property address:</b>	569 - 595 High Street, PENRITH NSW 2750
<b>Property description:</b>	Lot 1 DP 1137699
<b>Date received:</b>	11 September 2014
<b>Assessing officer</b>	Mathew Rawson
<b>Zoning:</b>	ZONE B3 COMMERCIAL CORE PCCLEP 2008 ZONE SP2 INFRASTRUCTURE PCCLEP 2008
<b>Class of building:</b>	Class 6
<b>Recommendations:</b>	Approve

### Executive Summary

---

Council is in receipt of a development application for a Grill'd Burgers restaurant including signage at Westfield Penrith (569-595 High Street, Penrith). Under the Penrith City Centre Local Environmental Plan 2008 the subject site is zoned B3 - Commercial Core, Restaurants are a permissible land use in the zone with Council consent.

Key issues identified for the proposed development and site include:

- Ensuring compliance with the relevant standards for food premises including the Australian Standards, Building Code of Australia and Council's own requirements. The application was referred to Council's Building Surveyors and Public Health team to assess the proposal's compliance and following receipt of amended plans, no objections were raised to the proposed development.
- Ensuring a consistent aesthetic for shopfronts along Riley Street and within the City Centre in general. The proposed shopfront is a high quality, modern design which is considered to sit well within the established streetscape of Riley Street.
- The outdoor seating area proposed is in a relatively narrow section of the Riley Street footpath. Despite this, it is considered that the seating area is acceptable provided that a 2 metre wide thoroughfare is retained and that the area adjacent to the disabled set down/emergency services layback kerb is kept clear.

An assessment under Section 79C of the Environmental Planning and Assessment Act 1979 has been undertaken and the application is recommended for approval, subject to recommended conditions.

### Site & Surrounds

---

The subject site is currently occupied by the Westfield Penrith Plaza shopping centre which contains a variety of retail tenancies and makes provision for several hundred car parking spaces. The surrounding area is characterised predominantly by retail and commercial development.

The current application relates to a recently reconfigured tenancy on the western side of Riley Street just south of the street's traffic lights. The parallel bay adjacent to the development's frontage is designated as no parking - emergency services, disabled set down and Australia Post vehicles are excepted.

## Proposal

---

The proposed development consists of the fitout and use of Shop 60 in Westfield Penrith as a Grill'd Food and Drink Premises.

The predominant use of the Grill'd Healthy Burgers is the service of food, both for consumption on and off the premises. The cooking processes include deep frying, as well as standard gas cooking. There is no charcoal or wood fired cooking processes proposed. The development includes installation of a mechanical exhaust system which will tap into the centre's existing mechanical exhaust infrastructure. These works will not include external alterations.

The fitout will include various other plumbing and electrical works, and works to configure the layout of the tenancy, including built-in seating, counters, and internal walls. Grill'd is proposing to install as part of its works a new shopfront which will be characterised by the following;

- Recycled timber entry doors
- Recycled brick cladding and plinth walls
- Large proportion of clear glazing with timber framing
- Feature wall lights

Grill'd also proposes the installation of the following signage;

- Internally illuminated Grill'd button style blade sign
- Neon business name hamper sign
- Illuminated menu-board sign

The tenancy proposes the following trading hours;

- Sunday to Thursday - 11:00am to 10:00pm
- Friday and Saturday - 11:00am to 11:00pm

Both deliveries to the site, and waste services leaving the site, would be managed through the shared loading dock provided by the centre.

Grill'd is proposing the following seating numbers to be provided on site;

- 119 within the tenancy
- 32 located adjacent to the tenancy within Riley Street
- 151 total seats

As Grill'd has a take-away function associated with its use, an additional allowance should be taken into account for patrons ordering at the counter and waiting for their meals to take-away. Therefore, the capacity the restaurant would like to apply for is 166. This accounts for an additional 15 patrons as standing room.

Patrons would be serviced by approximately 10 floor staff working during peak periods.

The proposed development does not involve any alterations to car parking provisions, nor does it involve any landscaping.

## Plans that apply

---

- Penrith Local Environmental Plan 2008 (City Centre)
- Development Control Plan 2006
- Development Control Plan 2007 (City Centre)
- State Environmental Planning Policy No 64—Advertising and Signage
- Sydney Regional Environmental Plan No.20 - Hawkesbury Nepean River

## Planning Assessment

### • Section 79C - Evaluation

The development has been assessed in accordance with the matters for consideration under Section 79C of the Environmental Planning and Assessment Act 1979, and having regard to those matters, the following issues have been identified for further consideration:

#### Section 79C(1)(a)(i) The provisions of any environmental planning instrument

##### **State Environmental Planning Policy No 64—Advertising and Signage**

As assessment has been undertaken of the application against relevant criteria within State Environmental Planning Policy No 64—Advertising and Signage and the application is considered satisfactory. The neon style of one of the proposed signs is not considered to be unacceptably inconsistent with the existing character of signage within the locality as there are existing examples of internally illuminated box signage which are of a similar visual prominence. Additionally the neon signage is a suitable design which complements the proposed 'retro' aesthetic of the Grill'd shopfront.

Therefore subject to the recommended conditions of consent the proposed signage is compliant with SEPP 64 due to the scale and type of the signage being generally consistent with the existing signage in the area. Additionally it is unlikely to cause any impacts in terms of the amenity of the locality due to the proposed internal lighting and signage's flush finish to the wall to which it is to be attached as well as the recommended conditions of consent.

##### **Sydney Regional Environmental Plan No.20 - Hawkesbury Nepean River**

An assessment has been undertaken of the application against relevant criteria within Sydney Regional Environmental Plan No 20—Hawkesbury-Nepean River (No 2—1997) and the application is satisfactory subject to recommended conditions of consent.

##### **Penrith Local Environmental Plan 2008 (City Centre)**

Provision	Compliance
Clause 2 - Aims of the Plan	Complies
Clause 12 - Zoning of land to which this plan applies	Complies
Clause 13 - Zone objectives	Complies
Clause 15 - Additional permitted uses for particular land	N/A
Clause 16 - Subdivision consent requirements	N/A
Clause 17 - Temporary use of land	N/A
Clause 21 - Height of buildings	Complies
Clause 22 - Architectural roof features	N/A
Clause 23 - Sun Access	N/A
Clause 24 - Floor space ratio	N/A
Clause 25 - Minimum building street frontage	Complies
Clause 26 - Design Excellence	Complies
Clause 27 -Car parking	Complies
Clause 28 - Ground floor development within B3 and B4	Complies
Clause 29 - Building separation	N/A

Clause 30 - Ecologically sustainable development	Complies
Clause 31 - Serviced apartments	N/A
Clause 32 - Exceptions to development standards	N/A
Clause 33 - Land acquisition within certain zones	N/A
Clause 34 - Development on proposed classified roads	N/A
Clause 35 - Classification and reclassification of public land	N/A
Clause 36 - Community use of educational establishments	N/A
Clause 37 - Classified roads	N/A
Clause 38 - Development in proximity to a rail corridor	N/A
Clause 39 - Preservation of trees or vegetation	N/A
Clause 40 - Heritage conservation	N/A

Clause 42 - Development for group homes	N/A
Clause 43 - Crown development and public utilities	N/A
Clause 44 - Location of sex services premises and restricted premises	N/A
Schedule 1 - Additional permitted uses	N/A
Clause 45 - Application of Part	N/A
Clause 46 - Interpretation	N/A
Clause 48 - Suspension of covenants, agreements and instruments	N/A
Clause 49 - Land use zones	N/A
Clause 50 - zone objectives and land use table	N/A
Clause 51 - Height of buildings	N/A
Clause 52 - Development near zone boundaries	N/A
Clause 53 - Architectural roof features	N/A
Clause 54 - Heritage Conservation	N/A
Clause 55 - Earthworks	N/A
Clause 56 - Savings provision relating to pending applications	N/A
Clause 47 - Certain planning instruments cease to apply to the land	N/A

This Plan applies to most of the area known as the Penrith City Centre and the aims relevant to the subject development proposal are:

- (a) to strengthen the regional position of the Penrith City Centre as a multifunctional and innovative centre that encourages employment and economic growth,*
- (c) to promote employment, residential, recreational and leisure, cultural, social and tourism opportunities within the Penrith city centre,*
- (d) to respond to the economic and social needs of the region by providing centrally located services and facilities,*
- (e) to facilitate new commercial and residential development in the Penrith city centre that is consistent with the desired future character of the area as described in the Penrith City Centre Development Control Plan 2007,*
- (g) to encourage development that contributes to the provision of alternative and sustainable access to the city centre,*
- (h) to enhance access to the city centre, particularly by public transport, walking and cycling,*
- (i) to facilitate the development of building design excellence appropriate for a regional city and improve the quality of urban design and ensure the public domain is safe and attractive,*
- (j) to encourage responsible management, development and conservation of resources and to ensure that the Penrith city centre achieves sustainable social, economic and environmental outcomes,*

The development proposal satisfies these relevant aims of the Plan. The proposal facilitates the change of use for the current vacant business premises to a food premises within the City Centre with easy access to transport networks. The proposal incorporates a modern, aesthetically pleasing design of its shopfront, facilities and fixtures whilst remaining compliant with the relevant Australian Standards (AS) and the BCA. It will result in improved the external appearance of the shopfront and streetscape in general whilst improving the function of its internal area which will contribute to the economic and social needs of the region.

Under the provisions of PLEP 2008, the property is within Zone B3 Commercial Core, in which restaurants are permissible with Council consent. The proposed use and its signage are considered to be consistent with the aims and objectives of this zone.

### **Section 79C(1)(a)(ii) The provisions of any draft environmental planning instrument**

The draft zoning of the allotment under Stage 2 of the Penrith Local Environmental Plan 2010 remains B3 - Commercial Core. The proposal remains consistent with the relevant aims and objectives of the Plan generally as well as the B3 zone. There are no clauses of the draft EPI which would have significant implications for the permissibility or design of the proposed development.

## Section 79C(1)(a)(iii) The provisions of any development control plan

### Development Control Plan 2006

Provision	Compliance
Chapter 2.1 - Contaminated land	N/A
Chapter 2.2 - Crime prevention through environmental design	Complies
Chapter 2.3 - Engineering works	N/A
Chapter 2.4 - Erosion and sediment control	Complies
Chapter 2.5 - Heritage management	N/A

Chapter 2.7 - Notification and advertising	Complies
Chapter 2.8 - Significant trees and gardens	N/A
Chapter 2.9 - Waste planning	Complies
Chapter 2.10 - Flood liable land	N/A
Chapter 2.11 - Car parking	Complies
Chapter 2.12 - On-site sewage management	N/A
Chapter 2.13 - Tree preservation	N/A
Chapter 3.1 - Advertising signs	N/A
Chapter 3.2 - Baby care rooms	N/A
Chapter 3.4 - Health care consulting rooms	N/A
Chapter 3.6 - Outdoor eating and trading areas - Penrith and St Marys CBD's	Complies - see Appendix - Development Control Plan Compliance
Chapter 3.3 - Child care centres	N/A
Chapter 3.5 - Siting and aesthetics of telecommunication facilities	N/A

### Development Control Plan 2007 (City Centre)

Provision	Compliance
Part 2 - Building form	Complies
Part 3 - Pedestrian amenity	Complies
Part 4 - Accessing, parking and servicing	Complies
Part 5 - Sustainable development	Complies
Part 6 - Residential development controls	N/A
Part 7 - Controls for special areas	N/A
Part 8 - Controls for special developments	N/A

## Section 79C(1)(a)(iiia) The provisions of any planning agreement

There are no planning agreements applying to this application.

## Section 79C(1)(a)(iv) The provisions of the regulations

### **Fire Safety**

Under Part 9 of the Environmental Planning and Assessment Regulation 2000 owners of buildings must provide the FRNSW Commissioner with a copy of the Fire Safety Certificate for the building (along with the current Fire Safety Schedule). The Fire Safety Certificate is issued when essential fire safety measures have been assessed by a qualified person as being capable of performing to the standard defined by the Schedule. A condition of consent has been imposed to ensure that this occurs on an annual basis.

### **Prescribed Conditions**

The relevant prescribed conditions of the Regulations, such as the requirement for compliance with the BCA, will be imposed as conditions of consent where applicable.

As such subject to the recommended conditions of consent, the proposed development complies with the requirements of the Regulations.

## **Section 79C(1)(b)The likely impacts of the development**

### **Impacts raised in referral comments**

No issues of concern raised, subject to the imposition of recommended conditions of consent.

### **Other impacts identified in assessment**

Subject to the recommended conditions of consent, it is not considered that the proposal will result in any significant impacts on the natural, social or economic environments of the locality due to its scale, location and consistency with surrounding uses.

## **Section 79C(1)(c)The suitability of the site for the development**

The subject site is deemed suitable for the following reasons:

- The zone and draft zone permit the proposed use.
- The use is consistent and compatible with surrounding/adjoining land uses.
- The site is adequately serviced by access and parking infrastructure which has the capacity to cope with any changes in demand associated with the proposed development.
- Recommended conditions of consent will ensure that the proposal will have minimal effects on the surrounding environment during the construction stage.

## **Section 79C(1)(d) Any Submissions**

### **Referrals**

The application was referred to the following stakeholders and their comments have formed part of the assessment:

<b>Referral Body</b>	<b>Comments Received</b>
Building Surveyor	No objections - subject to conditions
Environmental - Public Health	No objections - subject to conditions

## **Section 79C(1)(e)The public interest**

The proposed development will not generate any significant issues of public interest.

## **Conclusion**

---

Subject to the recommended conditions of consent the proposal is considered to be consistent with the relevant sections of the Environmental Planning and Assessment Act 1979, the relevant Local Environmental Plan, relevant State Environmental Planning Policies and the Penrith City Centre Development Control Plan because it does not contravene any development standards and will not result in any significant impacts on the natural, social or economic environments.

The site is suitable for the proposed development, the proposal does not conflict with the public interest, and there is unlikely to be negative impacts arising from the proposed development. Accordingly, the application is worthy of support and recommended for approval, subject to recommended conditions.

## Recommendation

---

1. That DA14/1161 for an internal fit out and use as a restaurant including signage and external alterations at 569-595 High Street, Penrith (Westfield) be approved subject to the attached conditions.

## General

### 1 A001

The development must be implemented substantially in accordance with the plans numbered 14056 drawn by Design Collective International, dated 02.10.14, and stamped approved by Council, the application form, and any supporting information received with the application, except as may be amended in red on the attached plans and by the following conditions.

### 2 A019 (amended) - OCCUPATION CERTIFICATE (ALWAYS APPLY)

**The development shall not be used or occupied until an Occupation Certificate has been issued.**

A satisfactory inspection from an authorised officer of Council's Environmental Health Department is required prior to the issue of the Occupation Certificate. The occupier is to contact the Environmental Health Department to organise an appointment at least 72 hours prior to the requested inspection time.

### 3 A021 - Business registration, notification and food safety supervisor

The business is to be registered with Penrith City Council by completing the "Registration of Premises" form. This form is to be returned to Council prior to the issuing of the Occupation Certificate and operation of the business.

### 4 A026 - Advertising sign (not for residential)

A separate development application for the erection of a sign or advertising structure, **other than that approved by this consent or an advertisement listed as exempt development**, is to be submitted to Penrith City Council, complying with the requirements of Penrith Development Control Plan-Advertising Signs.

### 5 A029 - HOURS OF OPERATION AND DELIVERY TIMES

The approved operating hours are from 11:00am to 10:00pm Sundays through Thursdays and 11:00am to 11:00pm Fridays and Saturdays.

### 6 A039 - Graffiti

The finishes of all structures and buildings are to be maintained at all times and any graffiti or vandalism immediately removed/repaired.

### 7 A046 - Obtain Construction Certificate before commencement of works

A **Construction Certificate** shall be obtained prior to commencement of any building works.

### 8 A Special (BLANK)

The area of footpath adjacent to the existing kerb layback, as outlined in red on the approved plans, is to be kept free of any seating, tables, shading or any other structure to enable free and easy access to and from Riley Street.

### 9 A Special (BLANK)

The approved signage must comply with the following:

- The signage must not be externally illuminated.
- All aspects of the signage illumination and fixture to the building should be incorporated into the body of the sign and hidden from view.
- Lighting from signage must not cause glare for pedestrians, motorists or cyclists and must be compliant with the Australian Standard 4282-1997 - Control of the Obtrusive Effects of Outdoor Lighting.
- Signage must not be moving, flashing or animated in any way.

### 10 A Special (BLANK)

The approved outdoor eating area shall comply with the following:

- The furniture shall be high quality in design and construction, and complement the existing streetscape. Lightweight plastic furniture, which may become airborne on windy days if not adequately weighted, is not permitted.
- The furniture is to be maintained in a clean and hygienic state at all times.
- The eating area is not to cause inconvenience or to disrupt pedestrian traffic along the footpath or thoroughfare. A clear distance of at least 2.0 metres is to be made available at all times between the approved outdoor furniture and the street or road kerb line.
- The outdoor furniture should not be fixed to the pavement. Should it require to be fixed permanently in place an approval under the Roads Act 1993 may be required. Should this approval be required, the application for a Construction Certificate is to accompany documentation specifying that a Roads Act approval, including payment of Application and inspection fees under the Roads Act, has been sought from Penrith City Council for the erection of any structures over or on the road reserve. The Roads Act approval is to be obtained prior to the issue of the Occupation Certificate for the building.

#### 11 [A Special \(BLANK\)](#)

An Outdoor Eating and Trading Licence must be issued for the development by Penrith City Council prior to the commencement or use of any outdoor eating or trading areas.

### Demolition

#### 12 [B002 - AS FOR DEMOLITION AND DISPOSAL TO APPROVED LANDFILL SITE](#)

All demolition works are to be conducted in accordance with the provisions of AS 2601-1991 "The Demolition of Structures". **Prior to demolition**, all services shall be suitably disconnected and capped off or sealed to the satisfaction of the relevant service authority requirements.

All demolition and excavated material shall be disposed of at a Council approved site or waste facility. Details of the proposed disposal location(s) of all excavated material from the development site shall be provided to the Principal Certifying Authority **prior to commencement of demolition**.

#### 13 [B004 - Dust](#)

Dust suppression techniques are to be employed during demolition to reduce any potential nuisances to surrounding properties.

#### 14 [B006 - Hours of work](#)

Demolition works will be restricted to the following hours in accordance with the NSW Environment Protection Authority Noise Control Guidelines:

- Mondays to Fridays, 7am to 6pm
- Saturdays, 7am to 1pm if inaudible on neighbouring residential premises, otherwise 8am to 1pm
- No demolition work is permitted on Sundays and Public Holidays.

In the event that the demolition relates to works inside the building and do not involve external walls or the roof, and do not involve the use of equipment that emits noise then the demolition works are not restricted to the hours stated above.

The provisions of the Protection of the Environment Operations Act, 1997 in regulating offensive noise also apply to all construction works.

### Environmental Matters

#### 15 [D009 - Covering of waste storage area](#)

All waste materials stored on-site are to be contained within a designated area such as a waste bay or bin to ensure that no waste materials are allowed to enter the stormwater system or neighbouring properties. The designated waste storage areas shall provide at least two waste bays / bins so as to allow for the separation of wastes, and are to be fully enclosed when the site is unattended.

#### 16 [D010 – Appropriate disposal of excavated or other waste](#)

All excavated material and other wastes generated as a result of the development are to be re-used, recycled or disposed of in accordance with the approved waste management plan.

Waste materials not specified in the approved waste management plan are to be disposed of at a lawful waste management facility. Where the disposal location or waste materials have not been identified in the waste management plan, details shall be provided to the Certifying Authority as part of the waste management documentation accompanying the Construction Certificate application.

All receipts and supporting documentation must be retained in order to verify lawful disposal of materials and are to be made available to Penrith City Council on request.

### BCA Issues

#### 17 [E008 - FIRE SAFETY LIST WITH CONSTRUCTION CERTIFICATE](#)

A fire safety list of essential fire or other safety measures shall be submitted to Penrith City Council prior to the issue of the Construction Certificate. The fire safety list shall specify all measures (both current and proposed) that are required for the building so as to ensure the safety of persons in the building in the event of fire. The fire safety list must distinguish between:

- the measures that are currently implemented in the building premises,
- and the measures that are to be proposed to be implemented in the building premises, and must specify the minimum standard of performance for each measure.

#### 18 E009 - Annual fire safety-essential fire safety (Class 2-9 buildings)

The owner of a building, to which an essential fire safety measure is applicable, shall provide Penrith City Council with an annual fire safety statement for the building. The annual fire safety statement for a building must:

- (a) deal with each essential fire safety measure in the building premises, and
- (b) be given:

- within 12 months after the last such statement was given, or
- if no such statement has previously been given, within 12 months after a final fire safety certificate was first issued for the building.

As soon as practicable after the annual fire safety statement is issued, the owner of the building to which the statement relates:

- must also provide a copy of the statement (together with a copy of the current fire safety schedule) to the Commissioner of New South Wales Fire Brigades, and
- prominently display a copy of the statement (together with a copy of the current fire safety schedule) in the building.

#### 19 E01A - BCA compliance for Class 2-9

All aspects of the building design shall comply with the applicable performance requirements of the Building Code of Australia so as to achieve and maintain acceptable standards of structural sufficiency, safety (including fire safety), health and amenity for the on-going benefit of the community. Compliance with the performance requirements can only be achieved by:

- (a) complying with the deemed to satisfy provisions, or
- (b) formulating an alternative solution which:

- complies with the performance requirements, or
- is shown to be at least equivalent to the deemed to satisfy provision, or
- (c) a combination of (a) and (b).

It is the owner's responsibility to place on display, in a prominent position within the building at all times, a copy of the latest fire safety schedule and fire safety certificate/ statement for the building.

### Health Matters and OSSM installations

#### 20 F022 – Commercial kitchens (kitchen exhaust system)

Cooking appliances which exceed a total maximum power input of 8kw for electrical, or a total gas input of 29MJ/h for a gas appliance are required to have a kitchen exhaust system installed in accordance with Clause F4.12 of the Building Code of Australia and Australian Standard 1668, Parts 1 & 2.

Details of the installation of the kitchen exhaust system shall be submitted with the Construction Certificate application.

The kitchen exhaust system must be designed to prevent or minimise air pollution including the emission of odours, vapours and oils in accordance with the Protection of the Environment Operations Act 1997.

Prior to the issue of an Occupation Certificate, the installer of the kitchen exhaust system (either the individual person or the Company who installed the exhaust system) shall certify or submit appropriate documentation (as instructed by the Principal Certifying Authority) that all practical pollution control measures have been installed to achieve the requirements of the Protection of the Environment Operations Act 1997.

## 21 F - Fixture and fittings

All fittings and fixtures must be built into the wall and floor so as to be free from joints, gaps and cavities to enable easy cleaning or alternatively, supported on one of the following:

- a. Plinths – plinths must be an integral part of the floor, constructed of solid materials similar to the floor at least 75mm in height and coved at the intersection with the floor. All plinths must have a smooth and impervious finish. All fittings and fixtures must be properly sealed to the plinth so to be free from gaps, cracks and cavities.
- b. Wheels or castors – fittings and fixtures can be supported on wheels or castors. The wheels and castors must be capable of supporting and easily moving a full loaded fitting. All wheels and castors must be provided with a restraining device.
- c. Legs – fittings and fixtures can be supported on legs but must be constructed of a non-corrosive, smooth metal or moulded plastic. All legs must be free from cracks and crevices. All legs must have a clearance space between the floor and the underside of the fitting of at least 200 mm.

NOTE: False bottoms under fittings are not permitted (AS 4674-2004 – Section 4.2 and 4.3).

## 22 F Special condition

Prior to the operation of the food business the business must notify the NSW Food Authority of their details including:

- (a) Contact details for the food business, including the name and address of the business and the proprietor of the business.
- (b) The nature of the food business.
- (c) The location of any other food premises associated with the food business, within the jurisdiction of NSW Food Authority.

Should these details change during the operation of the business the business operator must provide the NSW Food Authority with an update of these details.

Notification can be completed free of charge on the NSW Food Authority's Food Notify website at [www.foodnotify.nsw.gov.au](http://www.foodnotify.nsw.gov.au).

## 23 F Special condition

A Food Safety Supervisor, with a current Food Safety Supervisor Certificate recognised by the NSW Food Authority, must be appointed by the business prior to commencement of the business.

## 24 F Special condition

Hand basins must be freestanding, serviced with hot and cold water through a single outlet, able to be mixed at a temperature of at least 40°C and fitted with a hands free operation. Where sensor taps are installed the basin must not be more than 6 metres from the hot water system. Disposable paper hand towels and soap must be provided and serviced from a dispenser adjacent to each hand basin.

## 25 F Special condition - Coving

Approved, recessed coving must be provided at all intersections of the floor with the walls within all food preparation, service, storage and scullery areas. All coving must have a minimum concave radius of 25mm and be installed so as to be integral to the surface finish of both floor and wall in such a manner as to form a continuous, uninterrupted surface.

## 26 F Special condition - Dishwasher

Details of the dishwashing/glass washing machines must be submitted to Council and approved prior to installation. All utensils and equipment must undergo a washing, sanitising and rinsing cycle. The sanitising rinse cycle must achieve a water temperature of 80°C for 2 minutes or 75°C for 10 minutes.

## 27 F Special condition - Fitout general

The construction, fit out and finishes of the food premises must comply with Standard 3.2.3 of the Australian and New Zealand Food Standards Code, and AS 4674-2004 *Design, Construction and Fitout of Food Premises*.

## 28 F Special condition - Fixture and fittings

All fixtures, fittings and equipment must be provided with smooth and impervious surfaces, free from cracks and crevices to enable easy cleaning.

## 29 F special condition - Fixtures and fittings

Shelves must be smooth and impervious; free from joints, cracks and crevices; and able to be easily cleaned. The lowest shelf must be at least 200mm off the floor to allow easy cleaning underneath. Approved materials must be used, such as galvanised piping, stainless steel or laminated plastic. Shelves are to be sealed to the wall or kept clear of walls to allow easy access for cleaning (>40 mm).

## 30 F Special condition - Fixtures and fittings

All storage cabinets (internal and external surfaces) must be finished in a smooth and non-absorbent approved material that is free of joints.

31 **F Special condition - Fixtures and fittings**

Light bulbs or tubes are to be shatterproof or fitted with approved light diffusers (covers or shields) to prevent contamination of food by glass from a broken light globe or tube. Light fittings must be free from any feature that would collect dirt or dust, harbour insects or make the fitting difficult to clean. Light fittings must be recessed into ceilings or equipment where possible. Heat lamps must be protected against breakage by a shield extending beyond the bulb.

32 **F Special condition - Floor and floor wastes**

The floor of the food premises must be finished in an approved non-absorbent material, evenly laid, or graded and drained to a trapped floor waste. All floor wastes in the food preparation, service and scullery area must be fitted with a sump removable basket and grate, a minimum 200mm in diameter, and finished in all stainless steel.

33 **F Special condition - Hot water service**

Hot water services must be positioned at least 75mm clear of the adjacent wall surfaces, and mounted at a minimum 150mm above the floor level on a non-corrosive metal stand. The hot water system must be sized to meet the demands of the food business during peak operating and cleaning periods and be able to provide sufficient hot water throughout the working day. Discharge from the hot water system must enter the sewer through a tongue dish in accordance with Sydney Water's requirements.

34 **F special condition - Lockers**

Sufficient lockers must be provided in the food preparation area or store room specifically for the storage of cleaning materials, employees' clothing and personal belongings.

35 **F special condition - Outdoor dining and or trading**

Prior to commencing outdoor dining or trading, the operator of the business shall obtain an Outdoor Eating & Trading Licence in accordance with Council's Outdoor Eating & Trading Development Control Plan. An application form can be obtained by contacting Council on (02) 4732 7777 or from Council's website [www.penrithcity.nsw.gov.au](http://www.penrithcity.nsw.gov.au).

36 **F Special condition - Service pipes**

Service pipes, electrical conduits and refrigeration condensate pipes shall be enclosed or chased into walls, floors or plinths. Where it can be demonstrated that this is not feasible pipes and conduits shall be fixed on brackets, providing a minimum of 25 mm clearance from the adjacent wall and 100 mm from the floor or adjacent horizontal surface, can be used. All openings in walls, floors and ceilings, through which service pipes and conduits pass, must be vermin proof.

37 **F special condition - Storeroom**

All storerooms used for storage of food and associated food products within the premises and Westfields must be constructed in accordance with AS 4674-2004 by providing the following:

- A smooth, even, non-slip floor surface.
- Coving at all intersections of the floor and walls with approved, recessed coving to a minimum concave radius of 25mm, so as to be integral to the surface finish of both floor and wall in such a manner as to form a continuous, uninterrupted surface. "Feather edge skirting" and non-rebated coving are not permitted.
- Walls must be provided with a smooth even surface and painted with a light coloured washable paint to enable easy cleaning.
- The ceiling must be constructed with a rigid, non-absorbent, smooth faced material free from open joints, cracks and crevices and be painted with a light coloured washable paint. The intersections of the walls and ceiling must be tight-jointed, sealed and dustproof. Drop in panel style ceilings are not permitted.
- Shelving or storage racks must be designed and constructed to enable easy cleaning.

38 **F Special condition - Temperature control**

Appliances used to store potentially hazardous food must have a capacity to keep foods hotter than 60°C, refrigerated foods less than 5°C, and frozen foods less than -18°C and be provided with a digital thermometer, accurate to 1°C that can be easily observed from outside the appliance.

39 **F Special condition - walls**

The ceiling in the preparation, service and scullery areas must be constructed with a rigid, non-absorbent, smooth faced material free from open joints, cracks and crevices and be painted with a light coloured washable paint. The intersection of the walls and ceiling must be tight jointed, sealed and dust proofed. Drop-in panel style ceilings are not permitted.

40 **F Special condition - Walls**

The walls of the food preparation area must be of solid construction and finished with glazed ceramic tiles or other approved material to a height of 2 metres. The intersection of tiles and render must have a flush finish, or be splayed at a 45 degree angle to eliminate a ledge that would allow dust and grease to accumulate.

41 **F Special condition - Wash and food preparation sinks**

All wash sinks and food preparation sinks must be serviced with hot and cold water through a single outlet. Wash sinks must be supplied with water at a temperature of not less than 54°C for washing.

#### 42 F special condition - Waste storage areas and rubbish bins

Bins, hoppers and other containers used for storing garbage or recyclable material shall comply with the following :

- a. Be constructed of impervious material such as metal or plastic;
- b. Have tight fitting lids;
- c. Bins that cannot be lifted for draining after cleaning shall have drainage bungs at the base.

#### 43 F Special conditions - Walls

The walls at the rear of cooking appliances must be surfaced with an impervious material, such as stainless steel, which extends from the canopy to the floor. Where a cooking appliance is sealed to the wall, the material must be lapped over the top edge of the appliance to provide a grease and vermin proof seal. Cooking appliances must only be sealed to walls made of a non-combustible material.

## Utility Services

#### 44 G002 - Section 73 (not for

A Section 73 Compliance Certificate under the Sydney Water Act 1994 shall be obtained from Sydney Water. The application must be made through an authorised Water Servicing Coordinator. Please refer to "Your Business" section of Sydney Water's website at [www.sydneywater.com.au](http://www.sydneywater.com.au) then the "e-developer" icon, or telephone 13 20 92.

The Section 73 Compliance Certificate must be submitted to the Principal Certifying Authority prior to the issue of an Occupation Certificate.

## Construction

#### 45 H001 - Stamped plans and erection of site notice

Stamped plans, specifications, a copy of the development consent, the Construction Certificate and any other Certificates to be relied upon shall be available on site at all times during construction.

The following details are to be displayed in a maximum of 2 signs to be erected on the site:

- the name of the Principal Certifying Authority, their address and telephone number,
- the name of the person in charge of the work site and telephone number at which that person may be contacted during work hours,
- that unauthorised entry to the work site is prohibited,
- the designated waste storage area must be covered when the site is unattended, and
- all sediment and erosion control measures shall be fully maintained until completion of the construction phase.

Signage but no more than 2 signs stating the above details are to be erected:

- at the commencement of, and for the full length of the, construction works onsite, and
- in a prominent position on the work site and in a manner that can be easily read by pedestrian traffic.

All construction signage is to be removed when the Occupation Certificate has been issued for the development.

#### 46 H002 - All forms of construction

Prior to the commencement of construction works:

(a) Toilet facilities at or in the vicinity of the work site shall be provided at the rate of one toilet for every 20 persons or part of 20 persons employed at the site. Each toilet provided must be:

- a standard flushing toilet connected to a public sewer, or
- if that is not practicable, an accredited sewage management facility approved by the council, or
- alternatively, any other sewage management facility approved by council.

(b) If the work involved in the erection or demolition of a building is likely to cause pedestrian or vehicular traffic in a public place to be obstructed or rendered inconvenient, or involves the enclosure of a public place, a hoarding or fence must be erected between the work site and the public place:

- if necessary, an awning is to be erected, sufficient to prevent any substance from, or in connection with, the work falling into the public place,
- the work site must be kept lit between sunset and sunrise if it is likely to be hazardous to persons in the public place, and
- any such hoarding, fence or awning is to be removed when the work has been completed.

#### 47 [H041 - Hours of work \(other devt\)](#)

Construction works or subdivision works that are carried out in accordance with an approved consent that involve the use of heavy vehicles, heavy machinery and other equipment likely to cause offence to adjoining properties shall be restricted to the following hours in accordance with the NSW Environment Protection Authority Noise Control Guidelines:

- Mondays to Fridays, 7am to 6pm
- Saturdays, 7am to 1pm (if inaudible on neighbouring residential premises), otherwise 8am to 1pm
- No work is permitted on Sundays and Public Holidays.

Other construction works carried out inside a building/tenancy and do not involve the use of equipment that emits noise are not restricted to the construction hours stated above.

The provisions of the Protection of the Environment Operations Act, 1997 in regulating offensive noise also apply to all construction works.

## Landscaping

#### 48 [L008 - Tree Preservation Order](#)

No trees are to be removed, ringbarked, cut, topped or lopped or wilfully destroyed without the prior consent of Penrith City Council and in accordance with Council's Tree Preservation Order and Policy.

#### 49 [L012 - Existing landscaping \(for existing development\)](#)

Existing landscaping is to be retained and maintained at all times.

## Certification

#### 50 [Q01F - Notice of Commencement & Appointment of PCA2 \(use for Fast Light only\)](#)

Prior to the commencement of any earthworks or construction works on site, the proponent is to:

- employ a Principal Certifying Authority to oversee that the said works carried out on the site are in accordance with the development consent and related Construction Certificate issued for the approved development, and with the relevant provisions of the Environmental Planning and Assessment Act and accompanying Regulation, and
- submit a Notice of Commencement to Penrith City Council.

The Principal Certifying Authority shall submit to Council an "Appointment of Principal Certifying Authority" in accordance with Section 81A of the Environmental Planning and Assessment Act 1979.

#### Information to accompany the Notice of Commencement

Two (2) days before any earthworks or construction/demolition works are to commence on site (including the clearing site vegetation), the proponent shall submit a "Notice of Commencement" to Council in accordance with Section 81A of the Environmental Planning and Assessment Act 1979.

#### 51 [Q05F - Occupation Certificate for Class10](#)

An Occupation Certificate is to be obtained from the Principal Certifying Authority on completion of all works and prior to the occupation/use of the development.

The Certificate shall not be issued if any conditions of this consent, but not the conditions relating to the operation of the development, are outstanding.

A copy of the Occupation Certificate and all necessary documentation supporting the issue of the Certificate is to be submitted to Penrith City Council, if Council is not the Principal Certifying Authority.

# Appendix - Development Control Plan Compliance

## Development Control Plan 2006

### Part 3 - City wide specific land uses

#### Chapter 3.6 - Outdoor eating and trading areas - Penrith and St Marys CBD's

The proposed outdoor eating area is considered to be acceptable as:

- The area of footpath in which it is proposed is greater than 3.5 m wide. The footpath ranges from 3.853m to 4.543m in width.
- The outdoor eating area retains a 2m wide pedestrian thoroughfare.
- The outdoor eating area will be conditioned to remain clear of any seating, shading or other structures where it is adjacent to the existing layback kerb which serves as an accessible pathway from the emergency services/Australia Post/disabled set down stopping bay.
- The outdoor area does not extend beyond the frontage of the development to which it is associated.
- An application for an Outdoor Eating and Trading Licence has been made with Council's Property Department. A recommended condition of consent requires that this licence be granted prior to the commencement of outdoor trading.
