Attention: Susan Milne

Dear Susan,

**RE: Bird Markers, Jordan Springs**

The structural elements shown on Structural Drawings Nos. S0.00P3, S10P2, S11P2, will be structurally adequate and in accordance with the Building Act, provided construction is carried out in accordance with the drawings and specifications and in a manner consistent with good building practice.

The design has been carried out in accordance with the relevant Australian Standards and the relevant provisions of the Building Code of Australia.

The pier and footing design is by others based on the foundation loads stated on drawing S10P2 subject to inspection and certification by a CPEng Geotechnical Engineer of the ground conditions encountered on site, as noted on Bligh Tanner drawings.

Yours faithfully,

Paul Easingwood  
Director – Principal Structural Engineer
