

STATEMENT OF ENVIRONMENTAL EFFECTS

This statement of Environmental Effects has been prepared to identify the subject site, consider the effects on the surrounding environment, streetscape and adjoining properties. Councils DCP and LEP has been taken into account in the preparation of the report.

Details of Site

The subject property is known as Number **207 Bennett Road St Clair**. The property is located within the Local Government Area of **Penrith City Council**. The proposed is capable of sustaining the planned development.

Description of Development

The proposed construction is consisted of **Skillion Awning** using colours that will complement the existing dwelling. The total area of the proposal is **88.5m²**.

Existing Infrastructure

Given to nature of the proposal, we do not believe the proposed **Skillion Awning** will not affect the existing infrastructure services related to the subject site in anyway.

Environmental Impact

The property in question does not appear to have any environmental constraints. The property does not appear to be in a mine – subsidence area.

Effects Flora and Fauna Vegetation

The proposal will have no effect on the existing vegetation on the subject property, or the adjoining properties.

Storm Water Disposal

The effect of the proposal on the existing stormwater run-off will be minimal. The total amount of hard surfaces shall not be increased therefore ensuring that sufficient landscaped area will remain for natural absorption of rainwater. All new stormwater shall be connected to existing stormwater system currently on site.

Streetscape

The proposal has been designed in such a way that will harmonise with the existing dwelling and surrounding properties. Shape and colour selection will ensure that the proposal will complement the existing dwelling and streetscape.

Setbacks and Planning Controls

The proposal meets the setback requirements of the BCA and Council DCP's.

Privacy & Noise

The proposal will have minimal effect on the privacy of the adjoining and surrounding properties. The proposal will also not generate additional noise, which would affect the adjoining properties or neighbourhood.

Access, Traffic and Utilities

The proposal will have no effect on traffic and utilities in the surrounding area. The existing dwelling has suitable existing car parking which enables access to the property.

Conclusion

Our investigation of the property in question and the surrounding area concludes that the proposal will have minimal impact on the adjoining dwelling and neighbourhood. The proposal will complement the existing dwelling and streetscape.

We seek council to view this application favourably

Kind Regards
