lot & dp lot 5 dp25635 + lot 158B dp12590

project number 16839

consent authority penrith city council

project description 13 townhouse development

1. urbanline vulcan zara: walnut

feature wall + Hood

Vulcan Zara cladding unleashes new design potential with five 'chunkier' profiles.

The profiles can be mixed and matched for a distinctive, asymmetrical finish or used uniformly for streamlined class. They pave the way for standout design features including shadowlines and 3D effects. Best of all, the outstanding look comes with all the inherent benefits of a thermally modified wood product.

2. dulux powdercoating: zeus black matt

windows + frames + Fence + balustrades

Duratec

Duratec® is a thermosetting TGIC free powder coating designed specifically for architectural applications where colour and gloss retention is critical. Duratec® is formulated with advanced polyester resin technology and high performance pigments to conform to the performance requirements of AAMA 2604.
