

# PENRITH CITY COUNCIL

## MAJOR ASSESSMENT REPORT

|                              |   |
|------------------------------|---|
| <b>Application number:</b>   | DA15/0396.01                                  |
| <b>Proposed development:</b> | Modification to Siting of Approved Rural Shed |
| <b>Property address:</b>     | 9 - 13 Garswood Road, GLENMORE PARK NSW 2745  |
| <b>Property description:</b> | Lot 4210 DP 1150762                           |
| <b>Date received:</b>        | 1 March 2016                                  |
| <b>Assessing officer</b>     | Mathew Rawson                                 |
| <b>Zoning:</b>               | E4 Environmental Living - LEP 2010            |
| <b>Class of building:</b>    | Class 10a                                     |
| <b>Recommendations:</b>      | Approve                                       |

### Executive Summary

---

Council is in receipt of a Section 96 application to modify the siting of an approved rural shed. Under the Penrith Local Environmental Plan 2010 the subject site is zoned E4 Environmental Living. The shed is ancillary to the dwelling house which is under construction. Dwelling houses are a permitted land use in the E4 zone with Council consent.

The proposed modification involves a change in the siting of the approved shed from the north-western corner of the site to the north-eastern corner as well as resultant changes to the dwelling's OSSMS. There are no changes proposed to the approved floor area or design of the shed.

An assessment under Section 79C and Section 96(1A) of the Environmental Planning and Assessment Act 1979 has been undertaken and the application is recommended for approval, subject to recommended condition amendments.

### Site & Surrounds

---

The subject site is situated on the northern side of Garswood Road approximately 90 m west of the intersection with The Northern Road. It is 8570 sqm in area, is orientated in a north-south, direction and has a gentle slope from the rear to the street with a dam located in the south western corner.

A large dwelling and swimming pool is currently being constructed on the site.

The surrounding area is characterised by residential development on rural/ residential sized lots.

### Proposal

---

The proposed modification relates to changes in the siting of the approved shed and amendments to the OSSMS areas as a result of this change.

### Plans that apply

---

- Local Environmental Plan 2010 (Amendment 4)
- Development Control Plan 2014
- Sydney Regional Environmental Plan No.20 - Hawkesbury Nepean River

## Planning Assessment

- **Section 96(1A) - Modifications involving minimal environmental impact**

The modified development has been assessed in accordance with the matters for consideration under Section 96(1A) and Section 79C of the Environmental Planning and Assessment Act 1979, and having regard to those matters, Council can be satisfied that the proposed modification is of minimal environmental impact and relates to substantially the same development as the development for which consent was originally granted. Notification under the Regulations and Penrith Development Control Plan (DCP) 2014 was not required.

### **Section 79C(1)(a)(i) The provisions of any environmental planning instrument**

#### **Sydney Regional Environmental Plan No.20 - Hawkesbury Nepean River**

An assessment has been undertaken of the application against relevant criteria with Sydney Regional Environmental Plan No 20—Hawkesbury-Nepean River (No 2—1997) and the application is satisfactory subject to recommended conditions of consent.

#### **Local Environmental Plan 2010 (Amendment 4)**

| Provision                          | Compliance                |
|------------------------------------|---------------------------|
| Clause 1.2 Aims of the plan        | Complies                  |
| Clause 2.3 Permissibility          | Complies                  |
| Clause 2.3 Zone objectives         | Complies                  |
| Clause 4.3 Height of buildings     | Complies                  |
| Clause 7.1 Earthworks              | Complies                  |
| Clause 7.4 Sustainable development | Complies                  |
| Clause 7.6 Salinity                | Complies                  |
| Clause 7.7 Servicing               | Complies - See discussion |

#### **Clause 7.7 Servicing**

It is considered that the proposed development will comply with the provisions of this clause. In relation to the provision of adequate facilities for the disposal of sewage, the amendments to the siting of the shed have required that the OSSMS previously approved under the DA for the dwelling house, and subsequently amended by the DA for the shed, will need to be revised again.

Given that this is the second time that the OSSMS has been revised, Council's EHO has recommended that the full suite of conditions in relation to the installation of the OSSMS be imposed. These conditions and the Wastewater Report will replace the previously approved OSSMS's under DA15/0274 (dwelling house) and DA15/0396 (shed).

## Section 79C(1)(a)(iii) The provisions of any development control plan

### Development Control Plan 2014

| Provision                              | Compliance  |
|--|---|
| DCP Principles                         | Complies  |
| C1 Site Planning and Design Principles | Complies  |
| C2 Vegetation Management               | Complies  |
| C3 Water Management                    | Complies  |
| C4 Land Management                     | Complies  |
| C5 Waste Management                    | Complies  |
| C6 Landscape Design                    | Complies - see Appendix - Development Control Plan Compliance |
| C7 Culture and Heritage                | N/A   |
| C8 Public Domain                       | N/A   |
| C9 Advertising and Signage             | N/A   |
| C10 Transport, Access and Parking      | Complies  |
| C11 Subdivision                        | N/A   |
| C12 Noise and Vibration                | N/A   |
| C13 Infrastructure and Services        | Complies  |
| D1.1. Rural Character                  | Complies  |
| D1.2. Rural Dwellings and Outbuildings | Complies  |
| D1.3. Farm buildings                   | N/A   |
| D1.4 Agricultural Development          | N/A   |
| D1.5. Non-Agricultural Development     | N/A   |

## Section 79C(1)(a)(iv) The provisions of the regulations

### ***Prescribed Conditions***

The relevant prescribed conditions of the Regulations, such as the requirement for compliance with the BCA, have been previously imposed as conditions of consent where applicable.

### ***Section 92 - Additional Matters***

- Any demolition has been previously conditioned to be in accordance with the provisions of AS 2601.
- The development is not subject to the NSW Government's Coastal Policy
- The development is not situated on land subject to an order made under Schedule 5 of the Act (paper subdivisions).

## Section 79C(1)(b)The likely impacts of the development

Subject to the recommended conditions of consent, it is not considered that the modified proposal will result in any significant impacts on the natural, social or economic environments of the locality.

## Section 79C(1)(c)The suitability of the site for the development

The subject site is remains suitable for the following reasons:

- The zone permits the proposed use.
- The use is consistent and compatible with surrounding/adjoining land uses.
- The grade of the site is suitable for the design proposed.
- Stormwater from the site is able to drain to Council's satisfaction.
- The site is adequately serviced by access, water and sewer infrastructure which has the capacity to cope with any increase in demand associated with the proposed development.
- Recommended conditions of consent will ensure that the proposal will have minimal effects on the surrounding environment during the construction stage.

## Section 79C(1)(d) Any Submissions

### Referrals

The application was referred to the following stakeholders and their comments have formed part of the assessment:

| Referral Body                            | Comments Received                     |
|--|---------------------------------------|
| Environmental - Environmental management | No objections - subject to conditions |

## Section 79C(1)(e)The public interest

The proposed development will not generate any significant issues of public interest.

## Conclusion

---

The modified proposal has been assessed having regard to the matters for consideration under Section 79C and Section 96(1A) of the Environmental Planning and Assessment Act 1979 and relevant documentation. Having regard to the above, it is considered that the proposed changes do not substantially change the use and functions of the development and consequently the proposal is essentially and materially the same development as that approved. The assessment of the proposal demonstrates that the modifications have merit, will have minimal environmental impact and should be approved.

## Recommendation

---

1. That DA15/0396.01 for modifications to the siting of an approved rural shed at 9-13 Garswood Road, Glenmore Park, be approved subject to the amendments to conditions 18, 27 and 28 as well as the insertion of conditions 30-37.

## General

1 [A001](#)

The development must be implemented substantially in accordance with the plans stamped approved by Council, the application form, and any supporting information received with the application, except as may be amended in red on the approved plans and by the following conditions.

2 [A008 - Works to BCA requirements \(Always apply to building works\)](#)

The work must be carried out in accordance with the requirements of the Building Code of Australia. If the work relates to a residential building and is valued in excess of \$20,000, then a contract of insurance for the residential development shall be in force in accordance with Part 6 of the Home Building Act 1989.

{Note: Residential building includes alterations and additions to a dwelling, and structures associated with a dwelling house/dwelling such as a carport, garage, shed, rural shed, swimming pool and the like}.

3 [A019 - OCCUPATION CERTIFICATE \(ALWAYS APPLY\)](#)

**The development shall not be used or occupied until an Occupation Certificate has been issued.**

4 [A020 - Use of building](#)

The building shall not be used under any circumstances for any commercial, industrial or habitable residential activity.

5 [A046 - Obtain Construction Certificate before commencement of works](#)

A **Construction Certificate** shall be obtained prior to commencement of any building works.

6 [A Special \(driveway\)](#)

**Prior to the issue of an Occupation Certificate**, stabilised access shall be provided from the driveway approved under DA15/0274 to the shed. No additional vehicle connections to Garswood Road or other allotments are permitted. Any vehicular access to the shed shall be setback a minimum of 2m from the approved on-site sewerage management (OSSM) system.

7 [A Special \(OC for dwelling prior to OC for shed\)](#)

**Prior to the issue of an Occupation Certificate for the shed**, an Occupation Certificate for the dwelling approved under DA15/0274 shall be issued.

## Environmental Matters

8 [D001 - Implement approved sediment& erosion control measures](#)

Erosion and sediment control measures shall be installed **prior to the commencement of works on site** including approved clearing of site vegetation. The erosion and sediment control measures are to be maintained in accordance with the approved erosion and sediment control plan(s) for the development and the Department of Housing's "Managing Urban Stormwater: Soils and Construction" 2004.

(Note: To obtain a copy of the publication, you should contact Landcom on (02) 98418600).

9 [D002 Spraygrass](#)

All land that has been disturbed by earthworks is to be spray grassed or similarly treated to establish a grass cover.

10 **D007 - Cut and fill of land requiring Validation Certificate –limited to footprint**

Cut and fill operations on the property are only permitted in conjunction with the building works as detailed on the approved plans and specifications, and shall not extend more than 2 metres past the defined building footprint.

Before any fill material is imported to site, a validation certificate issued by an appropriately qualified person is to be provided to the Principal Certifying Authority. The validation certificate must demonstrate that the fill material is free from contaminants and weeds, that it is suitable for its intended purpose and land use, and that it will not pose an unacceptable risk to human health or the environment.

If Penrith City Council is not the Principal Certifying Authority, a copy of the validation certificate is to be submitted to Council for their reference.

{Note: Penrith Contaminated Land Development Control Plan defines an appropriately qualified person as “a person who, in the opinion of Council, has a demonstrated experience, or access to experience in hydrology, environmental chemistry, soil science, eco-toxicology, sampling and analytical procedures, risk evaluation and remediation technologies. In addition, the person will be required to have appropriate professional indemnity and public risk insurance.”}

11 **D009 - Covering of waste storage area**

All waste materials stored on-site are to be contained within a designated area such as a waste bay or bin to ensure that no waste materials are allowed to enter the stormwater system or neighbouring properties. The designated waste storage areas shall provide at least two waste bays / bins so as to allow for the separation of wastes, and are to be fully enclosed when the site is unattended.

12 **D010 – Appropriate disposal of excavated or other waste**

All excavated material and other wastes generated as a result of the development are to be re-used, recycled or disposed of at a lawful waste management facility. Where the disposal location or waste materials have not been identified in the waste management plan, details shall be provided to the Certifying Authority as part of the waste management documentation accompanying the Construction Certificate application.

All receipts and supporting documentation must be retained in order to verify lawful disposal of materials and are to be made available to Penrith City Council on request.

## **BCA Issues**

13 **E001 - BCA compliance**

All aspects of the building design shall comply with the applicable performance requirements of the Building Code of Australia so as to achieve and maintain acceptable standards of structural sufficiency, safety (including fire safety), health and amenity for the on-going benefit of the community. Compliance with the performance requirements can only be achieved by:

(a) complying with the deemed to satisfy provisions, or

(b) formulating an alternative solution which:

- complies with the performance requirements, or
- is shown to be at least equivalent to the deemed to satisfy provision, or

(c) a combination of (a) and (b).

## **Construction**

#### 14 H001 - Stamped plans and erection of site notice

Stamped plans, specifications, a copy of the development consent, the Construction Certificate and any other Certificates to be relied upon shall be available on site at all times during construction.

The following details are to be displayed in a maximum of 2 signs to be erected on the site:

- the name of the Principal Certifying Authority, their address and telephone number,
- the name of the person in charge of the work site and telephone number at which that person may be contacted during work hours,
- that unauthorised entry to the work site is prohibited,
- the designated waste storage area must be covered when the site is unattended, and
- all sediment and erosion control measures shall be fully maintained until completion of the construction phase.

Signage but no more than 2 signs stating the above details is to be erected:

- at the commencement of, and for the full length of the, construction works onsite, and
- in a prominent position on the work site and in a manner that can be easily read by pedestrian traffic.

All construction signage is to be removed when the Occupation Certificate has been issued for the development.

#### 15 H002 - All forms of construction

Prior to the commencement of construction works:

(a) Toilet facilities at or in the vicinity of the work site shall be provided at the rate of one toilet for every 20 persons or part of 20 persons employed at the site. Each toilet provided must be:

- a standard flushing toilet connected to a public sewer, or
- if that is not practicable, an accredited sewage management facility approved by the council, or
- alternatively, any other sewage management facility approved by council.

(b) All excavations and backfilling associated with the erection or demolition of a building must be executed safely and in accordance with the appropriate professional standards. All excavations associated with the erection or demolition of a building must be properly guarded and protected to prevent them from being dangerous to life or property.

(c) If an excavation associated with the erection or demolition of a building extends below the level of the base of the footings of a building on an adjoining allotment of land, the person causing the excavation to be made:

- must preserve and protect the building from damage, and
- if necessary, must underpin and support the building in an approved manner, and
- must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished. The owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this condition, whether carried out on the allotment of land being excavated or on the adjoining allotment of land, (includes a public road and any other public place).

(d) If the work involved in the erection or demolition of a building is likely to cause pedestrian or vehicular traffic in a public place to be obstructed or rendered inconvenient, or involves the enclosure of a public place, a hoarding or fence must be erected between the work site and the public place:

- if necessary, an awning is to be erected, sufficient to prevent any substance from, or in connection with, the work falling into the public place,
- the work site must be kept lit between sunset and sunrise if it is likely to be hazardous to persons in the public place, and
- any such hoarding, fence or awning is to be removed when the work has been completed.

#### 16 [H041 - Hours of work \(other devt\)](#)

Construction works or subdivision works that are carried out in accordance with an approved consent that involve the use of heavy vehicles, heavy machinery and other equipment likely to cause offence to adjoining properties shall be restricted to the following hours in accordance with the NSW Environment Protection Authority Noise Control Guidelines:

- Mondays to Fridays, 7am to 6pm
- Saturdays, 7am to 1pm, if inaudible on neighbouring residential premises, otherwise 8am to 1pm
- No work is permitted on Sundays and Public Holidays.

Other construction works carried out inside a building/tenancy that do not involve the use of equipment that emits noise are not restricted to the construction hours stated above.

The provisions of the Protection of the Environment Operations Act, 1997 in regulating offensive noise also apply to all construction works.

## Engineering

#### 17 [K Special - K041 \(Infrastructure restoration bond\) \(not adopted by Council. Used by planners\)](#)

An Infrastructure Restoration Bond is to be lodged with Penrith City Council for development involving works around Council's Public Infrastructure Assets. The bond is to be lodged with Council **prior to the issue of a Construction Certificate**. The bond shall be determined in accordance with Council's adopted Fees and Charges.

The bond is refundable once a final inspection has been carried out by Council's City Works Department and the works have been completed to Council's satisfaction. The bond may be used to repair or reinstate any damage that occurs to Council's Public Infrastructure Assets as a result of the development works.

Contact Council's City Works Department on 4732 7777 or visit Council's website to obtain the form and request for final inspection.

## Landscaping

#### 18 [L000 Special \(Species List\)](#)

Prior to the issue of an Occupation Certificate, fourteen (14) trees shall be planted 1 m from the northern boundary, at 2 m intervals starting from the north-eastern corner of property. These trees shall be selected from the following species list:

- Capital Pear; or
- Black Plum; or
- Golden Elm.

Any alternate species of tree proposed to be planted in lieu of the above, must be first approved by Council.

***As amended on 29 April 2016 under Section 96(1A) of the Environmental Planning and Assessment Act 1979.***

#### 19 [L001 - General](#)

All landscape works are to be constructed in accordance with the stamped approved plans and Sections F5 "Planting Techniques", F8 "Quality Assurance Standards" and F9 "Site Management Plan" of Penrith Council's Landscape Development Control Plan.

Landscaping shall be maintained:

- in accordance with the approved plan, and
- in a healthy state, and in perpetuity by the existing or future owners and occupiers of the property.

If any of the vegetation comprising that landscaping dies or is removed, it is to be replaced with vegetation of the same species and, to the greatest extent practicable, the same maturity as the vegetation which died or was removed.

#### 20 [L002 - Landscape construction](#)

The approved landscaping for the site must be constructed by a suitably qualified landscape professional.

## 21 L003 - Report requirement

The following series of reports relating to landscaping are to be submitted to the nominated consent authority at the appropriate time periods as listed below. These reports shall be prepared by a suitably qualified landscape professional.

### i. Implementation Report

Upon completion of the landscape works associated with the development and prior to the issue of an Occupation Certificate for the development, an Implementation Report must be submitted to the Principal Certifying Authority attesting to the satisfactory completion of the landscaping works for the development. The report is to be prepared by a suitably qualified landscape professional.

An Occupation Certificate should not be issued until such time as a satisfactory Implementation Report has been received. If Penrith City Council is not the Principal Certifying Authority, a copy of the satisfactory Implementation Report is to be submitted to Council together with the Occupation Certificate for the development.

### ii. Maintenance Report

On the first anniversary of the date of the Occupation Certificate issued for the development, a Landscape Maintenance Report is to be submitted to Penrith City Council certifying that the landscape works are still in accordance with the development consent and the plant material is alive and thriving.

This report is to be prepared by a suitably qualified landscape professional.

## 22 L005 - Planting of plant

All plant material associated with the construction of approved landscaping is to be planted in accordance with the Tree Planting Specification prescribed in Penrith Council's Landscape Development Control Plan.

## 23 L006 - Aust Standard

All landscape works are to meet industry best practice and the following relevant Australian Standards:

- AS 4419 Soils for Landscaping and Garden Use,
- AS 4454 Composts, Soil Conditioners and Mulches, and
- AS 4373 Pruning of Amenity Trees.

## Certification

## 24 Q01F - Notice of Commencement & Appointment of PCA2 (use for Fast Light only)

Prior to the commencement of any earthworks or construction works on site, the proponent is to:

- (a) employ a Principal Certifying Authority to oversee that the said works carried out on the site are in accordance with the development consent and related Construction Certificate issued for the approved development, and with the relevant provisions of the Environmental Planning and Assessment Act and accompanying Regulation, and
- (b) submit a Notice of Commencement to Penrith City Council.

The Principal Certifying Authority shall submit to Council an "Appointment of Principal Certifying Authority" in accordance with Section 81A of the Environmental Planning and Assessment Act 1979.

### Information to accompany the Notice of Commencement

Two (2) days before any earthworks or construction/demolition works are to commence on site (including the clearing site vegetation), the proponent shall submit a "Notice of Commencement" to Council in accordance with Section 81A of the Environmental Planning and Assessment Act 1979.

## 25 Q05F - Occupation Certificate for Class10

An Occupation Certificate is to be obtained from the Principal Certifying Authority on completion of all works and prior to the use of the shed.

The Certificate shall not be issued if any conditions of this consent, but not the conditions relating to the operation of the development, are outstanding.

A copy of the Occupation Certificate and all necessary documentation supporting the issue of the Certificate is to be submitted to Penrith City Council, if Council is not the Principal Certifying Authority.

## Operation of OSSM

## 26 R001 Special (OSSMS replaces previous DA)

The proponent is advised that the approved Onsite Sewerage Management System is to replace that approved under DA15/0274.

27 **R101 - Operational Approval prior to use**

The on-site sewage management (OSSM) system shall be installed and operated in accordance with the recommendations contained in the amended Wastewater Report On-site Wastewater Assessment For Proposed Residential Dwelling on 9-17 Garswood Road, Glenmore Park, Ref: 1331ww amended 23 February 2016, prepared by Harris Environmental Consulting, dated 23 February 2016, and the conditions of this consent.

**Prior to the issue of the Occupation Certificate and before the OSSM system can be used**, an 'Approval to Operate' for the OSSM system is to be sought from and issued by Penrith City Council.

***As amended on 29 April 2016 under Section 96(1A) of the Environmental Planning and Assessment Act 1979.***

28 **R102 - OSSM System Type and Disposal Area (all systems)**

All wastewater generated on the site is to be diverted to an aerated wastewater treatment system and be disposed of by way of surface and sub-surface irrigation in the approved effluent management area. The effluent management area is to be located in accordance with the stamped approved "Irrigation Site Plan" contained within the "On-site Wastewater Assessment Report For Proposed Residential Dwelling on 9-17 Garswood Road, Glenmore Park, Ref: 1331ww, Amended 23 February 2016, prepared by Harris Environmental Consulting and dated 23 February 2016 and have a minimum total area of 972m<sup>2</sup> (comprising 478m<sup>2</sup> spray irrigation and 494m<sup>2</sup> subsurface irrigation).

The system and effluent management area are to be installed and managed in accordance with the:

- "Environmental and Health Protection Guidelines On Site Sewage Management for Single Households"
- Australian Standard 1547:2012,
- Council's On-Site Sewage Management and Greywater Reuse Policy, and
- the "On-site Wastewater Assessment Report For Proposed Residential Dwelling on 9-17 Garswood Road, Glenmore Park (Ref: 1331ww)", Amended 23 February 2016, prepared by Harris Environmental Consulting and dated 23 February 2016

The system is to be utilised for a 6 bedroom dwelling or daily wastewater load of 1050 litres in accordance with the "On-site Wastewater Assessment Report For Proposed Residential Dwelling on 9-17 Garswood Road, Glenmore Park (Ref: 1331ww)", Amended 23 February 2016, prepared by Harris Environmental Consulting and dated 23 February 2016. Any dwelling approval on the site greater than this may require a new wastewater report for Council's consideration.

***As amended on 29 April 2016 under Section 96(1A) of the Environmental Planning and Assessment Act 1979.***

29 **R107 - AWTS - Irrigation pipework (surface or sub-surface)**

All irrigation pipework and fittings shall comply with AS2698 "Plastic Pipes and Fittings for Irrigation and Rural Applications". In this regard:

- the irrigation system is not to be connected to/not capable of connection to the mains water supply,
- standard household fittings, soaker hoses, garden sprinklers and standard water hose fittings are not to be used,

Surface -

- all distribution lines of the irrigation system to any standpipe shall be buried to a minimum 100mm below finished surface level,
- spray irrigation equipment connected to distribution lines shall be fixed, and
- spray irrigation shall only use low pressure, low volume spray heads which are not capable of producing aerosols. The spray shall have a maximum plume height 400mm and a plume radius of not more than 2 metres.

Sub surface -

- sub-surface drip irrigation lines are also to be installed in accordance with AS 1547:2012 and are to evenly distribute treated effluent over the designated disposal area, and
- all subsurface drip irrigation is to be buried within a minimum of 250mm of topsoil in accordance with AS 1547:2012. Mulch is not to be used as part of the minimum top soil requirement.

30 [RNew Condition 103 - Council inspections for Installation](#)

Penrith City Council is both the consent authority and certifying authority for the installation of the On-Site Sewage Management System (OSSM). **It is your responsibility to contact Council's Development Services Department to organise all inspections required for the installation of the system.**

In this regard, the septic tank(s) and disposal area(s) will need to be inspected on completion of the system's installation (before backfilling occurs) and prior to its commissioning, to ensure compliance with those conditions specific to the installation of the system.

A copy of the satisfactory inspection reports carried out by Council shall be submitted to the Principal Certifying Authority if Council is not the Principal Certifying Authority.

***As inserted on 29 April 2016 under Section 96(1A) of the Environmental Planning and Assessment Act 1979.***

31 [RNew Condition 104 - No alterations without approval](#)

The septic tank, drainage and irrigation lines and effluent management area shall not be altered without the prior approval of Council. In addition, the septic tank shall not be buried or covered.

***As inserted on 29 April 2016 under Section 96(1A) of the Environmental Planning and Assessment Act 1979.***

32 [RNew Condition 106 - AWTS - Design of Irrigation System](#)

The design of the irrigation system for the effluent management area is to be such that:

- The distribution line is to be buried from the tank to the designated disposal area.
- The moveable irrigation line and sprinklers (including the plume from the sprinklers) situated within the disposal area can not exceed the designated boundaries of the disposal area.
- The treated wastewater can be evenly irrigated across the entire designated disposal area.

***As inserted on 29 April 2016 under Section 96(1A) of the Environmental Planning and Assessment Act 1979.***

33 [RNew Condition 109 - No effluent runoff](#)

There shall be no effluent runoff from the subject property to adjoining premises, public places or reserves.

***As inserted on 29 April 2016 under Section 96(1A) of the Environmental Planning and Assessment Act 1979.***

34 [RNew Condition 110 - EMA Signage](#)

A minimum of two signs shall be erected within the effluent management area. These signs are to state "RECLAIMED EFFLUENT - NOT FOR DRINKING - AVOID CONTACT". The signage shall be maintained for the term of the development.

***As inserted on 29 April 2016 under Section 96(1A) of the Environmental Planning and Assessment Act 1979***

35 [RNew Condition 114 - EMA Turfed](#)

The effluent management area is to be turfed to the satisfaction of Council. Where a specific variety of turf is identified in the approved Wastewater Report that variety is to be installed and maintained.

***As inserted on 29 April 2016 under Section 96(1A) of the Environmental Planning and Assessment Act 1979.***

36 [RNew Condition 115 - No structures on EMA](#)

No concreting, driveways, vehicles or any other structure or access way is to be located over any portion of the effluent management area.

***As inserted on 29 April 2016 under Section 96(1A) of the Environmental Planning and Assessment Act 1979.***

37 [RNew Condition 117 - No plants for human consumption within EMA](#)

Orchards, vegetable gardens or any other plant species that can be used for the purposes of human consumption are not to be planted within the effluent management area. Effluent from the on-site sewage management system is not to be used on fruit or vegetables grown for human consumption.

***As inserted on 29 April 2016 under Section 96(1A) of the Environmental Planning and Assessment Act 1979.***

# **Appendix - Development Control Plan Compliance**

## **Development Control Plan 2014**

### **Part C - City-wide Controls**

#### **C6 Landscape Design**

The requirement of screen landscape planting along the northern boundary of the site will be carried over to the modified consent, despite not being shown on the plans. This will be achieved by way of a condition recommended to be imposed on the consent.
