

06th November 2013

Attention: Jodie Busuttill
Eden Brae Homes
PO Box 7210
BAULKHAM HILLS, NSW 2153

Dear Jodie,

The design plans for the home you are building at Lot 2353 Greenwood Parkway, Jordan Springs are now stamped and ready for submission to Penrith City Council or your Certifier on the following conditions.

- The side gate on the site plan is to be shown and noted as a minimum of 7.5m from the front boundary.

It is worth noting that Sydney Water is currently implementing 'low infiltration' systems and we recommend that you consult with Sydney Water to confirm whether this system will impact your design in any way. Should this system alter the design in any way please ensure these plans are submitted to Lend Lease for re-approval.

Please note: Jordan Springs is a Fibre Connected Community and arrangements for connections and related costs will be required. Please visit <http://www.opticomm.net.au> for further information.

We look forward to the opportunity of welcoming your residents to the Jordan Spring community and to working with you when you choose to design again at Jordan Springs.

However, in the meantime, remember we are here to help with any questions or concerns you may have, so please don't hesitate to contact us.

Yours sincerely,

Rebecca Minney
Design Coordinator,
Jordan Springs

BASIX[®] Certificate

Building Sustainability Index www.basix.nsw.gov.au

Single Dwelling

Certificate number: 507044S

This certificate confirms that the proposed development will meet the NSW government's requirements for sustainability, if it is built in accordance with the commitments set out below. Terms used in this certificate, or in the commitments, have the meaning given by the document entitled "BASIX Definitions" dated 29/06/2009 published by the Department of Planning. This document is available at www.basix.nsw.gov.au

Director-General

Date of issue: Monday, 30 September 2013

To be valid, this certificate must be lodged within 3 months of the date of issue.

Schedule of BASIX commitments

The commitments set out below regulate how the proposed development is to be carried out. It is a condition of any development consent granted, or complying development certificate issued, for the proposed development, that BASIX commitments be complied with.

Water Commitments	Show on DA plans	Show on CC/CDC plans & specs	Certifier check
Fixtures			
The applicant must install showerheads with a minimum rating of 3 star (> 7.5 but <= 9 L/min) in all showers in the development.		✓	✓
The applicant must install a toilet flushing system with a minimum rating of 3 star in each toilet in the development.		✓	✓
The applicant must install taps with a minimum rating of 3 star in the kitchen in the development.		✓	
The applicant must install basin taps with a minimum rating of 3 star in each bathroom in the development.		✓	
Alternative water			
Rainwater tank			
The applicant must install a rainwater tank of at least 3000 litres on the site. This rainwater tank must meet, and be installed in accordance with, the requirements of all applicable regulatory authorities.	✓	✓	✓
The applicant must configure the rainwater tank to collect rain runoff from at least 148 square metres of the roof area of the development (excluding the area of the roof which drains to any stormwater tank or private dam).		✓	✓
The applicant must connect the rainwater tank to: <ul style="list-style-type: none"> • all toilets in the development • the cold water tap that supplies each clothes washer in the development • at least one outdoor tap in the development (Note: NSW Health does not recommend that rainwater be used for human consumption in areas with potable water supply.) 		✓	✓

Thermal Comfort Commitments

Thermal Comfort Commitments	Show on DA plans	Show on CC/CDC plans & specs	Certifier check
Criteria			
The applicant must construct the dwelling in accordance with the following specifications:			
• the dwelling is a single storey dwelling;	✓	✓	✓
• the dwelling has a slab on ground floor or, if the floor is suspended, the floor has insulation with an R-value of at least R1.5;	✓	✓	✓
• walls are brick veneer, weatherboard or fibre cement;		✓	✓
• walls have insulation with an R-value of at least R2.0;		✓	✓
• all windows and glazed doors have eaves that project at least 600 millimetres (including gutter width);	✓	✓	✓
• eaves are no more than 500 millimetres above window or glazed door heads;	✓	✓	✓
• the total window and glazed door area is no more than 34.8 square metres;	✓	✓	✓
• ceilings have insulation with an R-value of at least R3.0;		✓	✓
• the roof has sarking or two wind-driven ventilators with eave and/or roof vents.		✓	✓

Note Insulation specified in this Certificate must be installed in accordance with Part 3.12.1.1 of the Building Code of Australia.

Energy Commitments	Show on DA plans	Show on CC/CDC plans & specs	Certifier check
Hot water			
The applicant must install the following hot water system in the development, or a system with a higher energy rating: gas instantaneous with a performance of 5 stars.	✓	✓	✓
Cooling system			
The applicant must install the following cooling system, or a system with a higher energy rating, in at least 1 living area: 3-phase airconditioning; Energy rating: EER 3.0 - 3.5		✓	✓
The bedrooms must not incorporate any cooling system, or any ducting which is designed to accommodate a cooling system.		✓	✓
Heating system			
The applicant must install the following heating system, or a system with a higher energy rating, in at least 1 living area: 3-phase airconditioning; Energy rating: EER 3.0 - 3.5		✓	✓
The bedrooms must not incorporate any heating system, or any ducting which is designed to accommodate a heating system.		✓	✓
Ventilation			
The applicant must install the following exhaust systems in the development:			
At least 1 Bathroom: individual fan, not ducted; Operation control: manual switch on/off		✓	✓
Kitchen: individual fan, not ducted; Operation control: manual switch on/off		✓	✓
Laundry: natural ventilation only, or no laundry; Operation control: n/a		✓	✓
Natural lighting			
The applicant must install a window and/or skylight in the kitchen of the dwelling for natural lighting.	✓	✓	✓
The applicant must install a window and/or skylight in 2 bathroom(s)/toilet(s) in the development for natural lighting.	✓	✓	✓
Other			
The applicant must install a gas cooktop & electric oven in the kitchen of the dwelling.		✓	
The applicant must construct each refrigerator space in the development so that it is "well ventilated", as defined in the BASIX definitions.		✓	

Energy Commitments

The applicant must install a fixed outdoor clothes drying line as part of the development.

Show on DA plans	Show on CC/CDC plans & specs	Certifier check
	✓	

Legend

In these commitments, "applicant" means the person carrying out the development.

Commitments identified with a ✓ in the "Show on DA plans" column must be shown on the plans accompanying the development application for the proposed development (if a development application is to be lodged for the proposed development).

Commitments identified with a ✓ in the "Show on CC/CDC plans and specs" column must be shown in the plans and specifications accompanying the application for a construction certificate / complying development certificate for the proposed development.

Commitments identified with a ✓ in the "Certifier check" column must be certified by a certifying authority as having been fulfilled, before a final occupation certificate (either interim or final) for the development may be issued.
