

PENRITH CITY COUNCIL

MAJOR ASSESSMENT REPORT

Application number:	DA14/0931
Proposed development:	Torrens Title Subdivision x 18 Residential Lots (Proposed Lot 2249 Thornton Drive)
Property address:	Coreen Avenue, PENRITH NSW 2750
Property description:	Lot 1195 DP 1171491
Date received:	29 July 2014
Assessing officer	Clare Aslanis
Zoning:	ZONE R1 GEN RES - PT 7 NTH PEN PCCLEP 2008 ZONE RE1 PUB REC - PT 7 NTH PEN PCCLEP2008
Class of building:	N/A
Recommendations:	Approve

Executive Summary

Council is in receipt of a development application for the subdivision of land x 18 Lots at North Penrith. The subject site is part zoned R1 General Residential and part RE1 Public Recreation and the proposed subdivision is permissible with Council consent under Clause 16 of the Penrith City Centre Local Environmental Plan 2008.

An assessment under Section 79C of the Environmental Planning and Assessment Act 1979 has been undertaken and the application is recommended for approval, subject to recommended conditions.

Site & Surrounds

The North Penrith site is centrally located directly adjacent to Penrith Railway Station and immediately to the north of the Penrith City Centre. It is a strategic site, located within the Penrith Regional Centre as identified in the Metropolitan Plan 2036 and the North West Draft Subregional Strategy.

The greater locality is characterised by a mixutre of residential, industrial and recreational uses. Large industrial activities are located to the north on the opposite side of Coreen Avenue. New Industrial development is located immediately to the west side of the site with the residential suburb of Penrith located further to the east.

A Project Approval for the Stage 2C SSDA was approved by the Minister for Planning and Infrastructure's delegate on 28 June 2013, which created proposed Lot 2249 and included bulk earthworks, remediation, roads and infrastructure that will service this proposed subdivision.

This part of the North Penrith site is vacant with medium density development and Smith's Paddock to the east of the subject site. However, the future development will consist of medium and high density development to the south and the east, while to the south is the proposed North Penrith village centre. The site has a frontage to new roads within the North Penrith site including Thornton Drive, Bristol Street, Stoddart Lane and Woodrow Way.

Proposal

The proposed subdivision involves:

- subdivision of proposed Lot 2249 to create 18 residential allotments;
- creation of easements for services, access, etc across the allotments.

Subsequent development applications will follow for dwellings on the proposed allotments.

Plans that apply

- Penrith Local Environmental Plan 2008 (City Centre)
- Development Control Plan 2006
- North Penrith Design Guidelines
- State Environmental Planning Policy (Major Development) 2005
- Sydney Regional Environmental Plan No.20 - Hawkesbury Nepean River

Planning Assessment

• Section 79C - Evaluation

The development has been assessed in accordance with the matters for consideration under Section 79C of the Environmental Planning and Assessment Act 1979, and having regard to those matters, the following issues have been identified for further consideration:

Section 79C(1)(a)(i) The provisions of any environmental planning instrument

State Environmental Planning Policy (Major Development) 2005

New State Significant Development proposals on the site are subject to consideration under State Environmental Planning Policy (Major Development) 2005. The following previous approvals were considered under the former Part 3A major project legislation:

- Major Project Number 10-0075 – Concept Plan
- Major Project Number 10-0078 – Stage 1

The North Penrith Design Guidelines were approved as part of the concept plan and the proposed development must be assessed in accordance with these guidelines, as detailed below.

North Penrith Design Guidelines

The subject lots are identified in Figure 7 as superlots for integrated housing developments. Traditionally to obtain approval for small lot housing, concurrent assessment of both the proposed allotment and the respective dwelling designs is required to ensure that both the lot and housing designs are compatible. This is referred to as integrated housing. The proposed application seeks a new approach where approval for the lots is sought prior to each dwelling approval. It has been accepted that a separate development application will follow for dwellings on each site in groups submitted by one builder.

The subdivision will provide for the delivery new dwellings which will contribute to the overall dwelling target for North Penrith. The proposed subdivision layout is as intended by the Concept Plan.

The proposed subdivision will ensure the desired outcomes for this area by providing a subdivision pattern consistent with the concept plan approval. The proposed subdivision was accompanied by a Building Envelope Plan to illustrate the likely layout and orientation of future dwellings on these lots. A review of the building envelope plan confirms suitable dwellings can be accommodated on these lots, despite the compact size of the lots.

The developer has accepted that an approval of the subdivision does not mean that in principle approval has been given to the dwellings on these lots. A detailed assessment of the dwellings will still review likely impacts such as privacy, solar access and amenity and may result in changes to the dwellings and/or the subdivision layout.

Sydney Regional Environmental Plan No.20 - Hawkesbury Nepean River

An assessment has been undertaken of the application against relevant criteria within Sydney Regional Environmental Plan No 20—Hawkesbury-Nepean River (No 2—1997) and the application is satisfactory subject to recommended conditions of consent.

Section 79C(1)(a)(ii) The provisions of any draft environmental planning instrument

The following draft Environmental Planning Instruments (EPI's) apply to the site:

Penrith Planning Proposal

The Stage 2 Penrith Planning Proposal was placed on public exhibition on 13 May 2013. The relevant sections of the Planning Proposal have been reviewed and there are no proposed changes to the controls relating to development within North Penrith.

Section 79C(1)(a)(iii) The provisions of any development control plan

Development Control Plan 2006

Provision	Compliance
Chapter 2.1 - Contaminated land	Complies
Chapter 2.2 - Crime prevention through environmental design	N/A
Chapter 2.3 - Engineering works	Complies
Chapter 2.4 - Erosion and sediment control	Complies
Chapter 2.5 - Heritage management	N/A
Chapter 2.6 - Landscape	N/A
Chapter 2.7 - Notification and advertising	Complies
Chapter 2.8 - Significant trees and gardens	N/A
Chapter 2.9 - Waste planning	N/A

Chapter 2.12 - On-site sewage management	N/A
Chapter 2.13 - Tree preservation	N/A
Chapter 4.7 - Guidelines for subdivision	Complies

North Penrith Design Guidelines

Provision	Compliance
North Penrith Design Guidelines	Complies - see Appendix - Development Control Plan Compliance

Section 79C(1)(a)(iia) The provisions of any planning agreement

There are no planning agreements applying to this application.

Section 79C(1)(b) The likely impacts of the development

The proposal is compatible with the surrounding and adjacent land uses and will have no major impact on the amenity of the area. The subdivision will have no impacts on the natural environment. Additionally, the development will not generate any significant social or economic impacts.

Section 79C(1)(c) The suitability of the site for the development

The site attributes are conducive to the development proposal. The proposal has been designed in a manner consistent with the future character of the area and for the intended future development of the sites for terrace housing.

Section 79C(1)(d) Any Submissions

Community Consultation

In accordance with Chapter 2.7 of the Penrith Development Control Plan for the City of Penrith 2006 – Notification and Advertising, the proposed development would normally be notified, however all adjoining land is currently under the ownership of Urban Growth, who is the applicant for this application. There is an approved concept plan that includes the intended subdivision layout that is consistent with this application and therefore notification was considered unnecessary.

Referrals

The application was referred to the following stakeholders and their comments have formed part of the assessment:

Referral Body	Comments Received
Development Engineer	No objections

Section 79C(1)(e)The public interest

The proposed development will not generate any significant issues of public interest given the nature and scale of the proposal.

Section 94 Contributions

In accordance with Condition C4 of MP10-0075 (as amended) and Condition B8 of MP10-0078, Section 94 contributions are to be paid to Council prior to the Construction Certificate being issued for each dwelling. As such, Section 94s are not required to be levied on the subject application.

Conclusion

In assessing this application against the relevant environmental planning policies, the proposal satisfies the aims, objectives and provisions of these policies. In its current form, the proposal will have a positive impact on the surrounding character of the area. The proposed design is site responsive, complies with key development standards and is in the public interest. The site is suitable for the proposed development, the proposal is in the public interest, and there is unlikely to be negative impacts arising from the proposed development.

Therefore, the application is worthy of support, subject to recommended conditions.

Recommendation

1. That DA14/0931 for Torrens Title Subdivision x 18 lots, be approved subject to the attached conditions.

General

1 A001

The development must be implemented substantially in accordance with the Subdivision Plan numbered 07210L45 [02], drawn by Craig & Rhodes, dated 17th December 2013, and stamped approved by Council, the application form, and any supporting information received with the application, except as may be amended in red on the approved plans and by the following conditions.

Utility Services

2 G001 - Installation of services and Service Clearances (subdivision)

Prior to the issue of a Subdivision Certificate, the following service authority clearances shall be obtained:

- a Section 73 Compliance Certificate under the Sydney Water Act 1994 shall be obtained from Sydney Water;
- a letter from Endeavour Energy stating that satisfactory arrangements have been made for electricity supply to all proposed allotments in the subdivision, including any necessary easements; and
- a letter from an approved telecommunications service provider that satisfactory arrangements have been made for underground telephone services to all proposed allotments in the subdivision, including any necessary easements.

These clearances are to be submitted to the Principal Certifying Authority.

Subdivision

3 M008 - Linen Plan

Prior to the issue of a Subdivision Certificate, submission of the original Linen Plan and ten (10) copies shall be made.

All drainage easements, rights of way, restrictions and covenants are to be included on the linen plan.

All dedications of roads/drainage are to be undertaken at no cost to Penrith City Council.

The following information is to be shown on one (1) copy of the plan.

- The location of all buildings and/or other permanent improvements shall comply with any statutory boundary clearances or setbacks as defined by the Building Code of Australia and Council's resolutions.
- All existing services are wholly contained within the lot served and/or covered by an appropriate easement.

4 M009 - 88B Instrument

The linen plan of subdivision is to be supported by an 88B instrument creating a Restriction as to User or easement regarding the following:

- a) Restriction that the lots shall not be developed as individual lots but as street block groupings or as pairs (in the case of Lots 125 and 126) by house and land package builders. The dwellings on the lots are to be constructed in accordance with the architectural plans approved via DA_____.
- b) Easement for access, maintenance and overhang 900mm wide as nominated on the approved subdivision plan.

Council shall be nominated as the only authority permitted to modify, vary or rescind such restriction as to user and easement.

5 M014 - Surveyors certificate

A Surveyors Certificate is to be lodged with the application for a Subdivision Certificate that certifies that all pipes and services are located wholly within the property or within appropriate easements and that no services encroach boundaries.

6 M Special (BLANK)

Prior to the issue of a Subdivision Certificate, dwelling designs for each integrated housing lot shall be submitted and approved by Council through separate development applications.

Certification

7 [Q008 - Subdivision Certificate](#)

A Subdivision Certificate is to be obtained prior to the release of the linen plan of subdivision. The Subdivision Certificate will not be issued if any of the conditions in this consent are outstanding. The parent lot shall be registered prior to, or concurrently with the proposed allotments.

Appendix - Development Control Plan Compliance

North Penrith Design Guidelines

3.2 Subdivision

The application consists of 18 proposed Torrens title lots; 12 of which are capable of terrace housing with detached garages and 2 studio lofts and 3 detached or semi-detached dwellings.

The lot sizes vary between 134.6m² and 389.9m², as such a building envelope plan has been submitted and demonstrates the ability for dwellings to be constructed on the resulting lots in accordance with the North Penrith Design Guidelines, indicating possible locations for studio lofts, private open space, dwellings and zero lot boundaries.

All lots meet the minimum 4.5m width within the R1 zone and are generally between 25m to 30m in depth.
