PENRITH CITY COUNCIL

FAST LIGHT ASSESSMENT REPORT

Application number:	DA20/0480
Proposed development:	Shed
Property address:	4 Bredon Place, JAMISONTOWN NSW 2750
Property description:	Lot 26 DP 248482
Date received:	9 August 2020
Assessing officer	Jenny Netting
Zoning:	Zone R2 Low Density Residential - LEP 2010
Class of building:	Class 10a
Recommendation:	Approve

Executive Summary

Council is in receipt of a development application for the subject development on the subject site and the proposal is a permissible land use with Council consent.

Site & Surrounds

The subject site is situated on Breddon Place Jamisontown. It is 927m² in area, is orientated in a western direction and has slight fall to the street.

An inspection of the site was undertaken on 2 October 2020 and the site is currently occupied by a single storey dwelling.

The surrounding area is characterised by residential development.

Proposal

The proposed development involves:

- Construction of a shed

Planning Assessment

Section 4.15 - Evaluation

The development has been assessed in accordance with the matters for consideration under Section 4.15 of the Environmental Planning and Assessment Act 1979, and having regard to those matters, the following issues have been identified for further consideration:

Section 4.15(1)(a)(i) The provisions of any environmental planning instrument

Is the development permissible in the zone?

Complies

Is the development consistent with any requirements of environmental planning instruments relevant to this proposal (including any applicable SEPP's, SREP's and LEP's)?

Complies

Section 4.15(1)(a)(ii) The provisions of any draft environmental planning instrument

Is the development consistent with any draft planning instruments relevant to this proposal

N/A

Section 4.15(1)(a)(iii) Any development control plan

Is the development consistent with the provisions of any development control plan relevant to this proposal?

Complies - See discussion

Section 4.15(1)(a)(iv) Any applicable regulations

Section 4.15(1)(b) The likely impacts of the development

Context and setting

Is the development consistent with the bulk, scale colour and design of other development in the locality?

Complies

Will the development have only a minor impact of the amenity of the area and the streetscape?

Complies

Is the development compatible with surrounding and adjacent land uses

Complies

Will the development have no or minimal impact on the amenity of the area in terms of:

Sunlight (overshadowing):

Complies

Visual and acoustic privacy:

Complies

Views or vista:

Complies

Access and Transport

Will the development have no or minimal impact on the local road system

Complies

Is the existing and any proposed access arrangements and car parking on site adequate for the development?

Complies

Heritage

The property is not subject to any heritage order or is identified as heritage under a planning instrument.

N/A

Soil

The development will have minimal impact on soil erosion and sedimentation

N/A

Natural and Technological Hazards

The development is not subject to flooding, subsidence or slip

Complies

Land is not considered to be contaminated:

Complies

Bushfire requirements provided for the development

N/A

Acoustic requirements provided for the development

Complies

Site design

The development is sensitive to environmental conditions and site attributes.

Complies

Does the development safe guard the health and safety of the occupants

Complies

Document Set ID: 9324537

Version: 1, Version Date: 07/10/2020

Section 4.15(1)(c) The suitability of the site for development

Was the site inspected? Yes Does the proposal fit locality? Yes Are the site attributes conductive to development? Yes Will the proposal have minimal social and economic impacts on the Yes locality? Has any applicable 88b instrument been considered? Yes Does the development propose the removal of trees? No Have the plans been checked by any relevant developer groups? N/A Has a BASIX certificate been provided? N/A

Section 4.15(1)(d) Any submissions made in accordance with the EPA Act and Regulations?

Was the application required to be publicly notified? Yes

Were any submissions received during the public notification

Yes

One (1) submission received. The concern raised was regarding stormwater runoff. A condition of consent will be included ensuring that the proposed shed's stormwater is connected to the existing system.

Section 4.15(1)(e)Public Interest

The application will have minimal impacts on public interest Complies

Conclusion/Summary

In assessing this application against the relevant environmental planning policies, the proposal satisfies the aims, objectives and provisions of these policies.

The proposed design is site responsive, complies with key development standards.

The site is suitable for the proposed development, the proposal is in the public interest, and there is unlikely to be negative impacts arising from the proposed development.

Therefore, the application is worthy of support, subject to recommended conditions.

Recommendation

- 1. That DA20/0480 for shed at Lot 26 DP 248482 No.4 Bredon Place Jamisontown, be approved subject to the attached conditions (Development Assessment Report Part B).
- 2. That those making submissions are notified of the determination.

General

1 A001 - Approved plans that are architecturally drawn

The development must be implemented substantially in accordance with the plans drawn by Thanasi Bountros Revision A as stamped approved by Council, the application form, and any supporting information received with the application, except as may be amended in red on the attached plans and by the following conditions.

2 A008 - Works to BCA requirements (Always apply to building works over \$12,000)

The work must be carried out in accordance with the requirements of the Building Code of Australia. If the work relates to a residential building and is valued in excess of \$20,000, then a contract of insurance for the residential development shall be in force in accordance with Part 6 of the Home Building Act 1989.

{Note: Residential building includes alterations and additions to a dwelling, and structures associated with a dwelling house/dwelling such as a carport, garage, shed, rural shed, swimming pool and the like}.

3 A019 - OCCUPATION CERTIFICATE (ALWAYS APPLY)

The development shall not be used or occupied until an Occupation Certificate has been issued.

4 A020 - Use of building

The building shall not be used under any circumstances for any commercial, industrial or habitable residential activity without the prior written approval of Council.

5 A046 - Obtain Construction Certificate before commencement of works

A Construction Certificate shall be obtained prior to commencement of any building works.

BCA Issues

6 E001 - BCA compliance

All aspects of the building design shall comply with the applicable performance requirements of the Building Code of Australia so as to achieve and maintain acceptable standards of structural sufficiency, safety (including fire safety), health and amenity for the on-going benefit of the community. Compliance with the performance requirements can only be achieved by:

- (a) complying with the deemed to satisfy provisions, or
- (b) formulating an alternative solution which:
- complies with the performance requirements, or
- is shown to be at least equivalent to the deemed to satisfy provision, or
- (c) a combination of (a) and (b).

Construction

7 H001 - Stamped plans and erection of site notice

Stamped plans, specifications, a copy of the development consent, the Construction Certificate and any other Certificates to be relied upon shall be available on site at all times during construction.

The following details are to be displayed in a maximum of 2 signs to be erected on the site:

- the name of the Principal Certifying Authority, their address and telephone number,
- the name of the person in charge of the work site and telephone number at which that person may be contacted during work hours,
- that unauthorised entry to the work site is prohibited,
- the designated waste storage area must be covered when the site is unattended, and
- all sediment and erosion control measures shall be fully maintained until completion of the construction phase.

Signage but no more than 2 signs stating the above details is to be erected:

- at the commencement of, and for the full length of the, construction works onsite, and
- in a prominent position on the work site and in a manner that can be easily read by pedestrian traffic.

All construction signage is to be removed when the Occupation Certificate has been issued for the development.

8 H022 – Survey (as amended)

The building shall be set out by a registered surveyor. A Survey Certificate shall be undertaken and submitted to the Principal Certifying Authority when the building is constructed.

9 H030 – Roof finishes (rural property)

The roof of the structure is to be a dull, non-reflective surface and colour. The external finishes of the shed is to compliment and blend with the established development on the subject lot.

10 H041 - Hours of work (other devt)

Construction works or subdivision works that are carried out in accordance withan approved consent that involve the use of heavy vehicles, heavy machinery and other equipment likely to cause offence to adjoining properties shall be restricted to the following hours in accordance with the NSW Environment Protection Authority Noise Control Guidelines:

- Mondays to Fridays, 7am to 6pm
- Saturdays, 7am to 1pm (if inaudible on neighbouring residential premises), otherwise 8am to 1pm
- No work is permitted on Sundays and Public Holidays.

Other construction works carried out inside a building/tenancy and do not involve the use of equipment that emits noise are not restricted to the construction hours stated above.

The provisions of the Protection of the Environment Operations Act, 1997 inregulating offensive noise also apply to all construction works.

Engineering

11 K016 - Stormwater

Roofwater drains shall be discharged into the street gutter or common line.

12 K026 - Stabilised access

All land required for vehicular access to the garage/shed is to be concreted or sealed with bituminous pavement.

13 K041 - Infrastructure Bond

An Infrastructure Restoration Bond is to be lodged with Penrith City Council for development involving works around Penrith City Council's Public Infrastructure Assets. The bond is to be lodged with Penrith City Council prior to commencement of any works on site or prior to the issue of any Construction Certificate, whichever occurs first. The bond and applicable fees are in accordance with Council's adopted Fees and Charges.

An application form together with an information sheet and conditions are available on Council's website.

Contact Penrith City Council's City Works Department on (02) 4732 7777 or visit Penrith City Council's website for more information.

Landscaping

14 L008 - Tree Preservation Order (use only if a tree is to be removed)

No trees are to be removed, ringbarked, cut, topped or lopped or wilfully destroyed other than those within 3 metres of the proposed building footprint or as shown on the approved plans without the prior consent of Penrith City Council and in accordance with Council's Tree Preservation Order and Policy.

15 L012 - Existing landscaping (existing developments)

Existing landscaping is to be retained and maintained at all times.

Payment of Fees

16 P002 - Fees associated with Council land (Applies to all works & add K019)

Prior to the commencement of any works on site, all fees associated with Penrith City Council-owned land and infrastructure shall be paid to Council. These fees include Road Opening fees and Infrastructure Restoration fees.

Certification

17 Q01F - Notice of Commencement & Appointment of PCA2 (use for Fast Light only)

Prior to the commencement of any earthworks or construction works on site, the proponent is to: (a) employ a Principal Certifying Authority to oversee that the said works carried out on the site are in accordance with the development consent and related Construction Certificate issued for the approved development, and with the relevant provisions of the Environmental Planning and Assessment Act and accompanying Regulation, and

(b) submit a Notice of Commencement to Penrith City Council.

The Principal Certifying Authority shall submit to Council an "Appointment of Principal Certifying Authority" in accordance with Section 81A of the Environmental Planning and Assessment Act 1979.

Information to accompany the Notice of Commencement

Two (2) days before any earthworks or construction/demolition works are to commence on site (including the clearing site vegetation), the proponent shall submit a "Notice of Commencement" to Council in accordance with Section 81A of the Environmental Planning and Assessment Act 1979.

18 Q05F - Occupation Certificate for Class10

An Occupation Certificate is to be obtained from the Principal Certifying Authority on completion of all works and prior to the occupation/use of the shed.

The Certificate shall not be issued if any conditions of this consent, but not the conditions relating to the operation of the development, are outstanding.

A copy of the Occupation Certificate and all necessary documentation supporting the issue of the Certificate is to be submitted to Penrith City Council, if Council is not the Principal Certifying Authority.

	2.1.8	This Section only applies only to:	N/A	
		a) frontages to the Nepean River;		
		b) escarpment footslopes in Leonay and Emu		
		Heights;		
		c) the Cranebrook escarpment;		
		d) Glenmore Park, adjacent to the Mulgoa		
		Nature Reserve;		
		e) wooded hillsides in South St Marys;		
		f) individual streetblocks identified by Council's		
		Register of Significant Trees and Gardens; and		
		g) in Kingswood: Werrington Creek.		
		Development must:		
		maintain natural topography and features		
		such as rock outcrops;		
		2) preserve established trees, preferably as		
		blocks or corridors of several trees;		
		3) ensure that long term survival of established		
		trees is not affected by the location of buildings		
		and pavements or construction works;		
		preserve clusters of established trees as blocks or corridors;		
		,		
		5) consider a wider side boundary setback as landscaped corridor to preserve trees and		
		provide vistas between neighbouring buildings;		
		6) on sloping sites garages may be located at		
		street-level within the front set-back, subject to		
		an "open" design similar to a screened carport;		
		7) on sloping sites dwellings should be split-		
		level designs, with the lowest floor level no		
		higher than 1m above natural ground level;		
		8) in general, new plantings should be species		
		indigenous to the local soil type, reinforcing		
		visual and habitat values.		
ľ	2.6	Principles of urban form and urban design that		
		apply to permissible residential development		
		should be adopted for non-residential		
		development.		
		The development site including front setbacks,		
		rear setbacks dual frontage situations.		
		a) Urban form including:	N/A	
		i) traditional building design features;		
		ii) traditional garden frontages;		
		iii) orientation of building entrances;		
		iv) continuously occupied rooms facing the		
		street;		
		v) detailed consideration of significant		
		townscapes or landscapes;		
		vi) signs.		
		vii) driveways and parking including:		
		\cdot provision of on-site parking appropriate to the		
		proposed use, and in accordance with the		
		parking requirements of this DCP;		
		· minimise site coverage by paved areas;		
		· conceal garages from views available from		
		public parks and streets;		
		· locate driveways and parking areas away		
		from any neighbouring residential development		
		b) landscaped area- provision and design of the		
		required minimum area with detailed design of
