Outline of Proposal

Site Address: **Lot 53, Gulshan Avenue, NSW (in DP 1241192)**

Applicant's name and address: **Bathla Investments Pty Ltd**
PO Box 270 Wentworthville, NSW 2145

Phone: **9636-2465**

Fax: **9688-4762**

Brief Description of proposal: **A Single Storey Dwelling on Lot 53, Gulshan Avenue, Claremont Meadows. NSW, IN DP- 1241192**

The details provided on this form are the intentions of managing waste relating to this project.

CONSTRUCTION AND USE

Potential for Waste Minimisation During Construction Stage

The following measures have been considered in minimising waste at the construction stage of this Project.

- Purchasing Policy – measures include ordering the right quantities of materials and prefabrication of materials where possible;
- Reusing formwork;
- Minimising site disturbance, limiting unnecessary excavation;
- Careful source separation of off-cuts to facilitate re-use, resale or efficient recycling; and
- Co-ordination/sequencing of various trades.

Design of Facilities

The following details should be shown on your plans:

- Location of Waste Bin Storage and Recycling Area(s) per dwelling;
- Details of weekly collection points and bulk waste collection locations per dwelling.
- Access for vehicles.

Every dwelling has been provided with a Waste Storage and recycling Area; bin storage location internal to the dwelling and bin presentation locations within the public road reserves. The size has been calculated on the basis of waste generation rates and proposed bin sizes; standard to Penrith City Council.

On-going Management

Future owners of the proposed dwellings will manage waste generated by the household on a daily basis - separating materials into re-useable, recyclable, waste for inclusion in appropriate disposal bin (240 litre).

Provision for waste bins is made for each dwelling as follows:

- bins (1 x 240 litre and 1x160litre) are to be placed to the side or rear yard as indicated on the plans;
- Homes that do not have external access to the rear yard have the storage capacity within the garage.

Bins are to be placed at kerbside, by each home owner, in front of dwelling or the designated location, on the specified days for collection by the Blacktown City Council contractor.

Design of Facilities

TYPE OF WASTE TO BE GENERATED	EXPECTED VOLUME PER WEEK	PROPOSED ON-SITE STORAGE AND TREATMENT FACILITIES	DESTINATION
Please specify. For example: glass, paper, food waste, off cuts etc.	Litre or m ³	For example: <ul style="list-style-type: none"> Waste storage & recycling area Garbage chute On-site composting Compaction equipment 	<ul style="list-style-type: none"> Recycling Disposal Specify Contractor
A. Recyclables:- 1. Home paper and cardboard waste. 2. Glass, aluminum and plastic (bottles).	240 litres 240 litres	A. 240 Liter waste bin for paper, cardboard, glass, plastic and aluminum.	Paper/cupboard to recyclers Glass/aluminium & plastic to collected by council appointed contractor
Total	1 Bins		
B. Non-recyclables:- 1. Food scraps etc. 2. Other plastics (e.g. Wrapping). 3. Unrecyclable waste.	120 litres 120 litres 120 litres	B.120 Litre waste bin	To be collected by Council appointed contractors
Total	1 Bins		
	2 Bins		

Note: Details of on-site waste management facilities should be provided on the plan drawings accompanying your application.
