Enquiries: Ian Harris
Project No: 33696

**RE: Hindu Temple - Kemps Creek
Bulk Earthworks**

This letter has been prepared following our review of the updated development layout prepared by DDC architecture appended to this document.

We confirm that following review of the design and the impact on the bulk earthworks for the site we confirm that the cut/fill volumes of the site will be balanced.

We have reviewed the design from a civil engineering perspective and feel the design better responds to the existing topography of the site whilst providing a better development outcome.

Please do not hesitate to contact the undersigned if you have any queries.

Yours sincerely

Ian Harris
