

PENRITH

CITY COUNCIL

NOTICE OF DETERMINATION

DESCRIPTION OF DEVELOPMENT

Application number:	DA18/0809
Description of development:	Demolition of Existing Structures & Construction of Eight (8) x Two (2) Storey Townhouses & Basement Car Parking
Classification of development:	Class 2 , Class 7a

DETAILS OF THE LAND TO BE DEVELOPED

Legal description:	Lot 1 DP 38178
Property address:	30 Mitchell Street, ST MARYS NSW 2760

DETAILS OF THE APPLICANT

Name & Address:	Designcorp Architects 16 Dunlop Street NORTH PARRAMATTA NSW 2151
-----------------	--

DECISION OF CONSENT AUTHORITY

Penrith Council has determined to grant “Deferred commencement” consent under Section 4.16(3) of the Environmental Planning and Assessment Act 1979. In accordance with Section 4.17 of the Act, the “Deferred commencement” consent is granted subject to the conditions listed in this Notice.

The conditions listed in Schedule 1 are to be complied with prior to the commencement of the consent. On completion of all conditions in Schedule 1 that need to be satisfied before the consent can be commenced, Council will issue an operational consent for the development. If the conditions in Schedule 1 are approved by an accredited certifier, then a copy of the certification relating to the satisfaction of the Schedule 1 condition(s) are to be submitted to Council. [Note: this is to enable Council to issue the operational consent for the development as the accredited certifier cannot issue the operational consent.]

The conditions to be satisfied prior to commencement of the consent will need to be completed within 12 months from 13 May 2019.

Please note that this consent will lapse on the expiry date unless the development has commenced in that time.

Date from which deferred commencement consent operates	13 May 2019
Date the deferred commencement consent expires	13 May 2020
Date of this decision	24 April 2019

POINT OF CONTACT

If you have any questions regarding this determination you should contact:

Assessing Officer:	Lauren Van Etten
Contact telephone number:	+612 4732 8222

NOTES

Reasons

The conditions in the attached schedule have been imposed in accordance with Section 4.17 of the Environmental Planning and Assessment Act 1979 as amended.

Your attention is drawn to the conditions of consent listed in Schedule 1 requiring compliance prior to the development consent becoming operational. Council will issue an operational development consent on compliance of all conditions listed in Schedule 1 by the given timeframe.

Certification and advisory notes

You should also check if this type of development requires a construction certificate in addition to this development consent

It is recommended that you read any Advisory Note enclosed with this notice of determination.

Review of determination

The applicant may request Council to review its determination pursuant to Division 8.2 of the Environmental Planning and Assessment Act 1979 within six months of receiving this Notice of Determination.

These provisions do not apply to designated development, complying development or crown development pursuant to Section 8.2(2) of the Environmental Planning and Assessment Act 1979.

Appeals in the Land and Environment Court

The applicant can appeal against this decision in the Land and Environment Court within six months of receiving this Notice of Determination.

There is no right of appeal to a decision of the Independent Planning Commission or matters relating to a complying development certificate pursuant to clause 8.6(3) of the Environmental Planning and Assessment Act 1979.

Designated development

If the application was for designated development and a written objection was made in respect to the application, the objector can appeal against this decision to the Land and Environment Court within 28 days after the date of this notice.

If the applicant appeals against this decision, objector(s) will be given a notice of the appeal and the objector(s) can apply to the Land and Environment Court within 28 days after the date of this appeal notice to attend the appeal and make submissions at that appeal.

Sydney Western City Planning Panels

If the application was decided by the Sydney Western City Planning Panel, please refer to Section 2.16 of the Environmental Planning and Assessment Act, 1979 (as amended) for any further regulations.

SCHEDULE 1: CONDITIONS TO BE COMPLIED WITH PRIOR TO CONSENT BECOMING OPERATIONAL

Schedule 1 (Deferred Commencement)

- 1 A. The applicant is to acquire written consent from a downstream property owner to create an easement for drainage and overland flow minimum 1.5 m wide over downstream properties. Evidence of registration of the easement with Land Registry Services (LRS) NSW shall be submitted to the satisfaction of Penrith City Council prior to the consent becoming operational.
- B Any changes to the concept design of the stormwater drainage plan shall comply with Council's Stormwater Drainage for Building Development policy and be submitted to Penrith City Council prior to the consent becoming operational. If the amended stormwater plan warrants any changes to the Water Sensitive Urban Design (WSUD) strategy, an amended WSUD strategy shall be submitted along with the stormwater plan. Architectural and landscape plans may require amendment to correspond with the changes to the stormwater drainage plan.
- C The architectural plans shall be amended so that a direct, unobstructed and a level path of travel is provided within the front setback area from the pathway along the eastern boundary to the waste storage bay.

ATTACHMENT 1: CONDITIONS OF CONSENT

General

- 1 The development must be implemented substantially in accordance with the following plans and documents stamped approved by Council, the application form, and any supporting information received with the application, except as may be amended in red on the attached plans and by the following conditions.

Plan	Issue	Prepared by	Dated
H1 Floor Plans	H	Design Corp	30/10/18
H2 Elevations and Sections	H	Design Corp	30/10/18
H5 Basix Commitments	H	Design Corp	30/10/18
H6 Materials & Finishes	H	Design Corp	30/10/18
Landscape Plan/ Drawing No. LP-00/Project No. JALA-18-024	B	Jala Designs	24/10/18
Stormwater Concept Plans Project No. 180894, Drawing No's 000-106	B	Australian Consulting Engineers	25/10/2018

Documents:

- BASIX Certificate No. 949362M_02, dated 30/10/18
- Access Report prepared by Vista Access Architects, Issue A, Reference No. 18146, dated 06-08-2018
- Arboricultural Impact Assessment prepared by Redgum Horticultural, References No. 3932, dated 2-08-2018.
- Geotechnical Investigation Report prepared by Geotechnical Consultants Australia, Reference G1887-1, dated 11-08-2018.
- Preliminary Site Investigation prepared by Australian Geotechnical, Reference AG-274-1 dated 10-08-2018.
- Waste Management Plan prepared by Designcorp, dated 09-08-2018.

- 2 The work must be carried out in accordance with the requirements of the Building Code of Australia. If the work relates to a residential building and is valued in excess of \$20,000, then a contract of insurance for the residential development shall be in force in accordance with Part 6 of the Home Building Act 1989.

- 3 The development shall not be used or occupied until an Occupation Certificate has been issued.**

- 4 Prior to the issue of an Occupation Certificate**, a lighting system shall be installed for the development to provide uniform lighting across common areas and driveways. Exterior lighting shall be located and directed in such a manner so as not to create a nuisance to surrounding landuses. The lighting shall be the minimum level of illumination necessary for safe operation. The lighting shall be in accordance with AS 4282 "Control of the obtrusive effects of outdoor lighting" (1997).

- 5 A Construction Certificate** shall be obtained prior to commencement of any building works.

6 (a) Waste Storage Bay

The following waste management requirements must be complied with and details of compliance demonstrated to Council **prior to the issue of a Construction Certificate**:

- Communal Waste Storage area large internal dimensions: 3.2m wide by 2.4m long The structure needs to be rotated 90 degrees to provide these dimensions;
- The bulky waste bay is to be screened from the road and residents with all remaining sides to remain open

and unobstructed; and

- The bulky waste bay minimum internal width shall be 1.8m.

7 Prior to the issue of an Occupation Certificate the following is to be submitted to and approved by Penrith City Council:

- The developer is to enter into a formal agreement with Penrith City Council for the utilisation of Councils Waste Collection Service. This is to include Council being provided with indemnity against claims for loss and damage.
 - Note: By entering into an agreement with Council for Waste Collection, the development will be required to operate in full compliance with Penrith City Council's Waste Collection and Processing Contracts for Standard Waste Collection. The provision of Councils waste collection service will not commence until formalisation of the agreement.

8 Prior to the issue of a Construction Certificate a draft Operation and Maintenance plan must be provided to the satisfaction of Penrith City Council for all proposed stormwater treatment measures, including details on how access will be achieved for the ongoing maintenance and future renewal of the proposed bioretention basin. The manual must include details on the cleaning/maintenance requirements of the proposed treatment measures as well as detail on how this will be managed (nominate who will be responsible). Evidence of Council's satisfaction is to be provided to the Certifying Authority.

Demolition

9 All demolition works are to be conducted in accordance with the provisions of AS 2601-1991 "The Demolition of Structures". **Prior to demolition**, all services shall be suitably disconnected and capped off or sealed to the satisfaction of the relevant service authority requirements.

All demolition and excavated material shall be disposed of at a Council approved site or waste facility. Details of the proposed disposal location(s) of all excavated material from the development site shall be provided to the Principal Certifying Authority **prior to commencement of demolition**.

10 You should read Council's Fact Sheet titled "Handling and Disposal of Fibrous Cement Products" **before any demolition works commence on the site**.

Prior to commencement of demolition works on site, a portaloo with appropriate washing facilities shall be located on the site and the Principal Certifying Authority is to be satisfied that:

- Measures are in place so as to comply with the WorkCover Authority's "Short Guide to Working with Asbestos Cement" and
- The person employed to undertake the works is a licensed asbestos removal contractor and is holder of a current WorkCover Asbestos Licence.

Any demolition works involving the removal of all asbestos shall only be carried out by a licensed asbestos removal contractor who has a current WorkCover Asbestos Licence.

All asbestos laden waste, including asbestos cement flat and corrugated sheeting must be disposed of at a tipping facility licensed by the Environmental Protection Authority to receive asbestos wastes.

11 Dust suppression techniques are to be employed during demolition and construction works to reduce any potential nuisances to surrounding properties.

- 12 Mud and soil from vehicular movements to and from the site must not be deposited on the road.
- 13 Demolition works will be restricted to the following hours in accordance with the NSW Environment Protection Authority Noise Control Guidelines:
- Mondays to Fridays, 7am to 6pm
 - Saturdays, 7am to 1pm if inaudible on neighbouring residential premises, otherwise 8am to 1pm
 - No demolition work is permitted on Sundays and Public Holidays.
- In the event that the demolition relates to works inside the building and do not involve external walls or the roof, and do not involve the use of equipment that emits noise then the demolition works are not restricted to the hours stated above.
- The provisions of the Protection of the Environment Operations Act, 1997 in regulating offensive noise also apply to all construction works.
- ## Environmental Matters
- 14 Erosion and sediment control measures shall be installed **prior to the commencement of works on site** including approved clearing of site vegetation. The erosion and sediment control measures are to be maintained in accordance with the approved erosion and sediment control plan(s) for the development and the Department of Housing's "Managing Urban Stormwater: Soils and Construction" 2004.
- (Note: To obtain a copy of the publication, you should contact Landcom on (02) 98418600).
- 15 No fill material is to be imported to the site without the prior approval of Penrith City Council in accordance with Sydney Regional Environmental Plan No.20 (Hawkesbury- Nepean River) (No.2-1997). No recycling of material for use as fill material shall be carried out on the site without the prior approval of Council.
- 16 No fill material shall be imported to the site until such time as a Validation Certificate (with a copy of any report forming the basis for the validation) for the fill material has been submitted to, considered and approved by Council. The Validation Certificate shall:
- state the legal property description of the fill material source site,
 - be prepared by an appropriately qualified person (as defined in Penrith Development Control Plan 2014) with consideration of all relevant guidelines (e.g. EPA, ANZECC, NH&MRC), standards, planning instruments and legislation,
 - clearly indicate the legal property description of the fill material source site,
 - provide details of the volume of fill material to be used in the filling operations,
 - provide a classification of the fill material to be imported to the site in accordance with the Environment Protection Authority's "Environmental Guidelines: Assessment, Classification & Management of Non-Liquid Wastes" 1997, and
 - (based on the fill classification) determine whether the fill material is suitable for its intended purpose and land use and whether the fill material will or will not pose an unacceptable risk to human health or the environment.
- {Note: Penrith Development Control Plan 2014 defines an appropriately qualified person as "a person who, in the opinion of Council, has a demonstrated experience, or access to experience in hydrology, environmental chemistry, soil science, eco-toxicology, sampling and analytical procedures, risk evaluation and remediation technologies. In addition, the person will be required to have appropriate professional indemnity and public risk insurance."}.
- If the Principal Certifying Authority or Penrith City Council is not satisfied that suitable fill materials have

been used on the site, further site investigations or remediation works may be requested. In these circumstances the works shall be carried out prior to any further approved works.

- 17 All waste materials stored on-site are to be contained within a designated area such as a waste bay or bin to ensure that no waste materials are allowed to enter the stormwater system or neighbouring properties. The designated waste storage areas shall provide at least two waste bays / bins so as to allow for the separation of wastes, and are to be fully enclosed when the site is unattended.
- 18 All excavated material and other wastes generated as a result of the development are to be re-used, recycled or disposed of in accordance with the approved waste management plan.

Waste materials not specified in the approved waste management plan are to be disposed of at a lawful waste management facility. Where the disposal location or waste materials have not been identified in the waste management plan, details shall be provided to the Certifying Authority as part of the waste management documentation accompanying the Construction Certificate application.

All receipts and supporting documentation must be retained in order to verify lawful disposal of materials and are to be made available to Penrith City Council on request.

- 19 The operating noise level of plant and equipment shall not exceed 5dB(A) above the background noise level when measured at the boundaries of the premises.

Prior to the issue of the Construction Certificate, further details on the type and location of all mechanical plant and equipment associated with the development it to be provided to Council for consideration and approval. Suitable data and information on the noise impacts associated with this plant and equipment is also to be supplied to demonstrate compliance with the noise criteria.

Prior to the issue of the Occupation Certificate, a Compliance Certificate is to be submitted to and approved by Council. The Certificate is to outline that all plant and equipment have been installed to comply with the above information and the established noise criteria. Should the Compliance Certificate identify any non-compliance issues, the Certificate is to provide suitable recommendations for mitigation of those issues. Any mitigation works are to be undertaken within thirty (30) days from the date of notice from Council, unless otherwise specified.

- 20 Only clean and unpolluted water is to be discharged into Penrith City Council's stormwater drainage system. Liquid wastes suitable for discharge to the mains sewer are to be discharged in accordance with Sydney Water requirements.

If mains sewer is not available or if Sydney Water will not allow disposal to the sewer then a licensed waste contractor is to remove the liquid waste from the premises to an appropriate waste facility.

The waste contractor and waste facility are to hold the relevant licenses issued by the NSW Environment Protection Authority.

- 21 The stormwater drainage system shall not be altered or new lines directed into the system without the prior approval of Penrith City Council.

- 22 An Unexpected Finds Protocol is to be prepared by an appropriately qualified environmental consultant.

Prior to any works commencing on site, the Protocol is to be submitted to Council for approval. If Council is not the certifying authority for this development, a copy of Council's approval is to be provided to the Principal Certifying Authority.

The Protocol is to address, at minimum, the management of any contamination found on the site during the demolition, excavation and construction phases of the development, including at minimum, contaminated soils, groundwater, buried building materials, asbestos, odour and staining. It is important to note that any remediation works will require development consent in line with SREP 20 and SEPP 55.

The Protocol is to be implemented and complied with at all times during the demolition, excavation and construction phases of the development.

- 23 **Prior to the issue of the Construction Certificate**, a Construction Noise Impact Assessment and Management Plan is to be prepared and submitted to Council for approval. This assessment is to consider (at minimum) the details of the construction program, construction methods and equipment in association with the NSW Department of Environment and Climate Change's "Interim Construction Noise Guideline" 2009.

The recommendations of the approved Management Plan are to be implemented and adhered to during the construction phase of the development.

BCA Issues

- 24 All aspects of the building design shall comply with the applicable performance requirements of the Building Code of Australia so as to achieve and maintain acceptable standards of structural sufficiency, safety (including fire safety), health and amenity for the on-going benefit of the community. Compliance with the performance requirements can only be achieved by:
- (a) complying with the deemed to satisfy provisions, or
 - (b) formulating an alternative solution which:
 - complies with the performance requirements, or
 - is shown to be at least equivalent to the deemed to satisfy provision, or
 - (c) a combination of (a) and (b).
- 25 The owner of a building, to which an essential fire safety measure is applicable, shall provide Penrith City Council with an annual fire safety statement for the building. The annual fire safety statement for a building must:
- (a) deal with each essential fire safety measure in the building premises, and
 - (b) be given:
 - within 12 months after the last such statement was given, or
 - if no such statement has previously been given, within 12 months after a final fire safety certificate was first issued for the building.
 - As soon as practicable after the annual fire safety statement is issued, the owner of the building to which the statement relates:
 - must also provide a copy of the statement (together with a copy of the current fire safety schedule) to the Commissioner of New South Wales Fire Brigades, and
 - prominently display a copy of the statement (together with a copy of the current fire safety schedule) in the building.

Utility Services

- 26 A Section 73 Compliance Certificate under the Sydney Water Act 1994 shall be obtained from Sydney Water. The application must be made through an authorised Water Servicing Coordinator. Please refer to “Your Business” section of Sydney Water’s website at www.sydneywater.com.au then the “e-developer” icon, or telephone 13 20 92.

The Section 73 Compliance Certificate must be submitted to the Principal Certifying Authority **prior to the issue of an Occupation Certificate**.

- 27 **Prior to the issue of a Construction Certificate**, a written clearance is to be obtained from Endeavour Energy stating that electrical services have been made available to the development or that arrangements have been entered into for the provision of services to the development.

In the event that a pad mounted substation is necessary to service the development, Penrith City Council shall be consulted over the proposed location of the substation before the Construction Certificate for the development is issued as the location of the substation may impact on other services and building, driveway or landscape design already approved by Council.

- 28 **Prior to the issue of a Construction Certificate**, the Principal Certifying Authority shall be satisfied that telecommunications infrastructure may be installed to service the premises which complies with the following:

- The requirements of the Telecommunications Act 1997;
- For a fibre ready facility, the NBN Co’s standard specifications current at the time of installation; and
- For a line that is to connect a lot to telecommunications infrastructure external to the premises, the line shall be located underground.

Unless otherwise stipulated by telecommunications legislation at the time of construction, the development must be provided with all necessary pits and pipes, and conduits to accommodate the future connection of optic fibre technology telecommunications.

Prior to the issue of an Occupation Certificate, written certification from all relevant service providers that the telecommunications infrastructure is installed in accordance with the requirements above and the applicable legislation at the time of construction, must be submitted to the Principal Certifying Authority.

Construction

- 29 Stamped plans, specifications, a copy of the development consent, the Construction Certificate and any other Certificates to be relied upon shall be available on site at all times during construction.

The following details are to be displayed in a maximum of 2 signs to be erected on the site:

- the name of the Principal Certifying Authority, their address and telephone number,
- the name of the person in charge of the work site and telephone number at which that person may be contacted during work hours,
- that unauthorised entry to the work site is prohibited,
- the designated waste storage area must be covered when the site is unattended, and
- all sediment and erosion control measures shall be fully maintained until completion of the construction phase.

Signage but no more than 2 signs stating the above details are to be erected:

- at the commencement of, and for the full length of the, construction works onsite, and
- in a prominent position on the work site and in a manner that can be easily read by pedestrian traffic.

All construction signage is to be removed when the Occupation Certificate has been issued for the development.

30 Prior to the commencement of construction works:

- (a) Toilet facilities at or in the vicinity of the work site shall be provided at the rate of one toilet for every 20 persons or part of 20 persons employed at the site. Each toilet provided must be:
 - a standard flushing toilet connected to a public sewer, or
 - if that is not practicable, an accredited sewage management facility approved by the council, or
 - alternatively, any other sewage management facility approved by council.
- (b) All excavations and backfilling associated with the erection or demolition of a building must be executed safely and in accordance with the appropriate professional standards. All excavations associated with the erection or demolition of a building must be properly guarded and protected to prevent them from being dangerous to life or property.
- (c) If an excavation associated with the erection or demolition of a building extends below the level of the base of the footings of a building on an adjoining allotment of land, the person causing the excavation to be made:
 - must preserve and protect the building from damage, and
 - if necessary, must underpin and support the building in an approved manner, and
 - must, at least 7 days before excavating below the level of the base of the footings of a building on an adjoining allotment of land, give notice of intention to do so to the owner of the adjoining allotment of land and furnish particulars of the excavation to the owner of the building being erected or demolished. The owner of the adjoining allotment of land is not liable for any part of the cost of work carried out for the purposes of this condition, whether carried out on the allotment of land being excavated or on the adjoining allotment of land, (includes a public road and any other public place).
- (d) If the work involved in the erection or demolition of a building is likely to cause pedestrian or vehicular traffic in a public place to be obstructed or rendered inconvenient, or involves the enclosure of a public place, a hoarding or fence must be erected between the work site and the public place:
 - if necessary, an awning is to be erected, sufficient to prevent any substance from, or in connection with, the work falling into the public place,
 - the work site must be kept lit between sunset and sunrise if it is likely to be hazardous to persons in the public place, and
 - any such hoarding, fence or awning is to be removed when the work has been completed.

31 The building shall be set out by a registered surveyor. A Survey Certificate shall be undertaken and submitted to the Principal Certifying Authority when the building is constructed to ground floor slab level.

32 **Prior to the issue of an Occupation Certificate**, clothes drying facilities are to be positioned and screened from public view.

33 Construction works that are carried out in accordance with an approved consent that involve the use of heavy vehicles, heavy machinery and other equipment likely to cause offence to adjoining properties shall be restricted to the following hours in accordance with the NSW Environment Protection Authority Noise Control Guidelines:

- Mondays to Fridays, 7am to 6pm
- Saturdays, 7am to 1pm (if inaudible on neighbouring residential premises), otherwise 8am to 1pm
- No work is permitted on Sundays and Public Holidays.

Other construction works carried out inside a building/tenancy and do not involve the use of equipment that emits noise are not restricted to the construction hours stated above.

The provisions of the Protection of the Environment Operations Act, 1997 in regulating offensive noise also apply to all construction works.

Engineering

- 34 All roadworks, stormwater drainage works, associated civil works and dedications, required to effect the consented development shall be undertaken at no cost to Penrith City Council.
- 35 An Infrastructure Restoration Bond is to be lodged with Penrith City Council for development involving works around Penrith City Council's Public Infrastructure Assets. The bond is to be lodged with Penrith City Council prior to commencement of any works on site or prior to the issue of any Construction Certificate, whichever occurs first. The bond and applicable fees are in accordance with Council's adopted Fees and Charges.

An application form together with an information sheet and conditions are available on Council's website.

Contact Penrith City Council's City Works Department on (02) 4732 7777 or visit Penrith City Council's website for more information.

- 36 **Prior to the issue of any Construction Certificate**, a Section 138 Roads Act applications, including payment of application and inspection fees, shall be lodged and approved by Penrith City Council (being the Roads Authority for any works required in a public road). These works may include but are not limited to the following:
- 5.5m wide vehicular crossings
 - Concrete footpaths and or cycleways
 - Road opening for utilities and stormwater (including stormwater connection to Mamre Road, St Marys)
 - Temporary construction access

All works shall be carried out in accordance with the Roads Act approval, the development consent, including the stamped approved plans, and Penrith City Council's specifications, guidelines and best engineering practice.

Contact Penrith City Council's City Works Department on (02) 4732 7777 or visit Penrith City Council's website for more information.

Note:

- Where Penrith City Council is the Certifying Authority for the development, the Roads Act approval for the above works may be issued concurrently with the Construction Certificate.
 - All works associated with the Roads Act approval must be completed prior to the issue of any Occupation Certificate or Subdivision Certificate as applicable.
- 37 Prior to the issue of any Construction Certificate, the Certifying Authority shall ensure that any applicable application, including the payment of application and inspection fees, has been lodged with and approved by the Roads and Maritime Services for any works within the Mamre Road, St Marys reserve.

A copy of the Roads and Maritime Services approval shall be submitted to Penrith City Council prior to Penrith City Council issuing any Roads Act approval.

- 38 **Prior to the issue of any Construction Certificate**, the Principal Certifying Authority and/ or Certifying Authority shall ensure that an application under Section 68 of the Local Government Act, including payment of application and inspection fees, has been lodged with, and approved by Penrith City Council for provision of inter-allotment drainage works within the downstream property.

Engineering plans are to be prepared in accordance with the development consent, Penrith City Council's Design Guidelines for Engineering Works for Subdivisions and Developments, Engineering Construction Specification for Civil Works, Austroads Guidelines, and best engineering practice.

Contact Penrith City Council's Development Engineering Department on 4732 7777 or visit Penrith City Council's website for more information.

Note:

1. All works associated with the Section 68 Local Government Act approval must be completed prior to the issue of any Occupation Certificate.

39

The stormwater management system shall be provided generally in accordance with the MUSIC modeling and associated concept plan/s lodged for development approval, prepared by Australian Consulting Engineers Project No. 180894, drawing No's 000 to 106, issue B, dated 25 October 2018.

Engineering plans and supporting calculations for the stormwater management systems are to be prepared by a suitably qualified engineer and shall accompany the application for a Construction Certificate. All grate and surface levels for the bioretention basin must be accurate and a minimum extended detention depth of 0.2m for the bioretention basin must be provided on the detailed stormwater design plans to accompany the Construction Certificate.

Prior to the issue of a Construction Certificate the Certifying Authority shall ensure that the stormwater management system has been designed in accordance with Council's Stormwater Drainage for Building Developments and Water Sensitive Urban Design Policy.

- 40 **Prior to the issue of any Construction Certificate**, the Certifying Authority shall ensure that the stormwater drainage system for the basement car park has been designed in accordance with the requirements for pumped systems in AS3500.3 (or as amended) (Plumbing and Drainage – Stormwater Drainage).
- 41 **Prior to the issue of any Construction Certificate**, the Certifying Authority shall ensure that vehicular access, circulation, manoeuvring, pedestrian and parking areas associated with the subject development are in accordance with AS 2890.1, AS2890.2, AS2890.6 and Penrith City Council's Development Control Plan.
- 42 **Prior to the issue of a Construction Certificate** the Certifying Authority shall ensure that the recommendations within the Geotechnical Report written by joe Nader, dated 11 August 2018 are implemented to ensure stability of the Council infrastructure and surrounding developments. The geotechnical investigation, report and strategy shall also comply with the recommendations contained in the technical direction GTD 2012/001 prepared by the Road and Maritime Services as amended.

A dilapidation report shall be undertaken for all surrounding buildings and Council owned infrastructure that confirms that no damage occurs due to the excavations associated with the development. If Council is not the Certifying Authority the dilapidation report shall be submitted to Council prior to Construction Certificate and then updated and submitted prior to any Occupation Certificate confirming no damage has occurred.

- 43 Prior to commencement of works sediment and erosion control measures shall be installed in accordance with the approved Construction Certificate and to ensure compliance with the Protection of the Environment Operations Act 1997.

The erosion and sediment control measures shall remain in place and be maintained until all disturbed areas have been rehabilitated and stabilised.

- 44 Prior to commencement of any works associated with the development, a Traffic Control Plan, including details for pedestrian management, shall be prepared in accordance with AS1742.3 "Traffic Control Devices for Works on Roads" and the Roads and Maritime Services' publication "Traffic Control at Worksites" and certified by an appropriately accredited Roads and Maritime Services Traffic Controller.

Traffic control measures shall be implemented during the construction phase of the development in accordance with the certified plan. A copy of the plan shall be available on site at all times.

Note:

- a) A copy of the Traffic Control Plan shall accompany the Notice of Commencement to Penrith City Council.
 - b) Traffic control measures may require road occupancy / road closure approvals issued under Section 138 of the Roads Act by Penrith City Council **prior to the issue of a Construction Certificate**.
- 45 Upon completion of all works in the road reserve, all verge areas fronting and within the development are to be turfed. The turf shall extend from the back of kerb to the property boundary, with the exception of concrete footpaths, service lids or other infrastructure which is not to be turfed over. Turf laid up to concrete footpaths, service lids or other infrastructure shall finish flush with the edge.
- 46 **Prior to the issue of any Occupation Certificate**, the Principal Certifying Authority shall ensure that all works associated with a S138 Roads Act approval or S68 Local Government Act approval have been inspected and signed off by Penrith City Council.
- 47 **Prior to the issue of a Subdivision Certificate**, the Principal Certifying Authority shall ensure that all subdivision works required by this consent have been satisfactorily completed or that suitable arrangements have been made with Penrith City Council for any outstanding works.
- 48 Prior to the issue of an Occupation Certificate, works-as-executed drawings, final operation and maintenance management plans and any other compliance documentation shall be submitted to the Principal Certifying Authority in accordance with Penrith City Council's Engineering Construction Specification for Civil Works, WSUD Technical Guidelines and Stormwater Drainage for Building Developments.

An original set of works-as-executed drawings and copies of the final operation and maintenance management plans and compliance documentation shall also be submitted to Penrith City Council with notification of the issue of the Occupation Certificate where Council is not the Principal Certifying Authority.

49 **Prior to the issue of any Occupation Certificate**, the Principal Certifying Authority shall ensure that the stormwater management system (including water sensitive urban design measures):

- Have been satisfactorily completed in accordance with the approved Construction Certificate and the requirements of this consent.
- Have met the design intent with regard to any construction variations to the approved design.
- Any remedial works required to be undertaken have been satisfactorily completed.

Details of the approved and constructed system/s shall be provided as part of the works-as-executed drawings.

50 **Prior to the issue of an Occupation Certificate**, a restriction as to user and positive covenant relating to the stormwater management systems (including water sensitive urban design measures) shall be registered on the title of the property. The restriction as to user and positive covenant shall be in Penrith City Council's standard wording as detailed in Penrith City Council's Stormwater Drainage Specification for Building Development – Appendix F

51 The stormwater management systems shall continue to be operated and maintained in perpetuity to the satisfaction of Council in accordance with the final operation and maintenance management plan. Regular inspection records are required to be maintained and made available to Council upon request. All necessary improvements are required to be made immediately upon awareness of any deficiencies in the treatment measure/s

52 All car spaces are to be sealed/line marked and dedicated for the parking of vehicles only and not be used for storage of materials/products/waste materials etc

53 The required sight lines around the driveway entrances are not to be compromised by landscaping, fencing or signage.

54

Prior to the issue of any Occupation Certificate, the applicant shall provide 'Give Way' (R1-2) sign be at the top of the ramp facing vehicles entering the property and 'Watch for Vehicles Entering' (W8-247) sign at the bottom of the ramp facing vehicles exiting the property.

55 **Prior to the issue of any Occupation Certificate**, the applicant shall provide a 1.5m wide concrete footpath along the frontage of the site in Mitchell Street and from this frontage, along the southern side of Mitchell Street to the existing footpath on Mamre Road. The footpath is to be constructed in accordance with Council specifications and requirements.

Landscaping

- 56 All landscape works are to be constructed in accordance with the stamped approved Landscape Plan and Penrith Development Control Plan 2014.

A landscape strip shall be added between the ramp and the pedestrian access from the street to soften the hard stand area.

Landscaping shall be maintained:

- in accordance with the approved plan, and
- in a healthy state, and in perpetuity by the existing or future owners and occupiers of the property.

If any of the vegetation comprising that landscaping dies or is removed, it is to be replaced with vegetation of the same species and, to the greatest extent practicable, the same maturity as the vegetation which died or was removed.

- 57 The approved landscaping for the site must be constructed by a suitably qualified and experienced landscape professional.
- 58 Upon completion of the landscape works associated with the development and **prior to the issue of an Occupation Certificate**, an Implementation Report must be submitted to the Principal Certifying Authority attesting to the satisfactory completion of the landscaping works for the development. The report is to be prepared by a suitably qualified and experienced landscape professional.
- An Occupation Certificate should not be issued until such time as a satisfactory Implementation Report has been received. If Penrith City Council is not the Principal Certifying Authority, a copy of the satisfactory Implementation Report is to be submitted to Council together with the Occupation Certificate for the development.
- 59 All landscape works are to meet industry best practice and the following relevant Australian Standards:
- AS 4419 Soils for Landscaping and Garden Use,
 - AS 4454 Composts, Soil Conditioners and Mulches, and
 - AS 4373 Pruning of Amenity Trees.
- 60 No trees are to be removed, ringbarked, cut, topped or lopped or wilfully destroyed (other than those within the proposed building footprint or as shown on the approved plans) without the prior consent of Penrith City Council and in accordance with Council's Tree Preservation Order and Policy.
- 61 All fencing and retaining walls required by the development shall be constructed at full cost to the property owner or developer of the site.
- 62 To ensure a high quality finish, any retaining walls shall be of solid masonry construction. The surface shall be either rendered to match the external materials and colour schedule or constructed in a face brick finish.
- 63 The tree/s must be retained and protected in accordance with Australian Standards, Protection of trees on development sites, AS 4970 -2009.
- 64 The Trees must be retained and protected in accordance with the arborists report recommendations.

Section 94

- 65 This condition is imposed in accordance with Penrith City Council's Section 94 Contributions Plan(s) for Cultural Facilities. Based on the current rates detailed in the accompanying schedule attached to this Notice, \$2,738 is to be paid to Council prior to a Construction Certificate being issued for this development (the rates are subject to quarterly reviews). If not paid within the current quarterly period, this contribution will be reviewed at the time of payment in accordance with the adopted Section 94 plan. The projected rates of this contribution amount are listed in Council's Fees and Charges Schedule. Council should be contacted prior to payment to ascertain the rate for the current quarterly period. The S94 invoice accompanying this consent should accompany the contribution payment. The Section 94 Contributions Plan for Cultural Facilities may be inspected at Council's Civic Centre, 601 High Street, Penrith.
- 66 This condition is imposed in accordance with Penrith City Council's Section 94 Contributions Plan(s) for District Open Space. Based on the current rates detailed in the accompanying schedule attached to this Notice, \$25,361 is to be paid to Council prior to a Construction Certificate being issued for this development (the rates are subject to quarterly reviews). If not paid within the current quarterly period, this contribution will be reviewed at the time of payment in accordance with the adopted Section 94 plan. The projected rates of this contribution amount are listed in Council's Fees and Charges Schedule. Council should be contacted prior to payment to ascertain the rate for the current quarterly period. The S94 invoice accompanying this consent should accompany the contribution payment. The Section 94 Contributions Plan for District Open Space may be inspected at Council's Civic Centre, 601 High Street, Penrith.
- 67 This condition is imposed in accordance with Penrith City Council's Section 94 Contributions Plan(s) for Local Open Space. Based on the current rates detailed in the accompanying schedule attached to this Notice, \$9,172 is to be paid to Council prior to a Construction Certificate being issued for this development (the rates are subject to quarterly reviews). If not paid within the current quarterly period, this contribution will be reviewed at the time of payment in accordance with the adopted Section 94 plan. The projected rates of this contribution amount are listed in Council's Fees and Charges Schedule. Council should be contacted prior to payment to ascertain the rate for the current quarterly period. The S94 invoice accompanying this consent should accompany the contribution payment. The Section 94 Contributions Plan for Local Open Space may be inspected at Council's Civic Centre, 601 High Street, Penrith.

Certification

- 68 Prior to the commencement of any earthworks or construction works on site, the proponent is to:
- employ a Principal Certifying Authority to oversee that the said works carried out on the site are in accordance with the development consent and related Construction Certificate issued for the approved development, and with the relevant provisions of the Environmental Planning and Assessment Act and accompanying Regulation, and
 - submit a Notice of Commencement to Penrith City Council.

The Principal Certifying Authority shall submit to Council an "Appointment of Principal Certifying Authority" in accordance with Section 4.19 of the Environmental Planning and Assessment Act 1979.

Information to accompany the Notice of Commencement

Two (2) days before any earthworks or construction/demolition works are to commence on site (including the clearing site vegetation), the proponent shall submit a "Notice of Commencement" to Council in accordance with Section 4.19 of the Environmental Planning and Assessment Act 1979.

- 69 An Occupation Certificate is to be obtained from the Principal Certifying Authority on completion of all works and prior to the occupation of the dwellings.

The Certificate shall not be issued if any conditions of this consent, but not the conditions relating to the operation of the development, are outstanding.

A copy of the Occupation Certificate and all necessary documentation supporting the issue of the Certificate is to be submitted to Penrith City Council, if Council is not the Principal Certifying Authority.
